Do Not Pay
Medicaid Screening Service

Medicaid Screening Service – Benefits

The Medicaid Screening Service provides an analysis of your Medicaid clients, allowing you to prevent and recover improper payments.

Identify deceased clients and cease Managed Care payments for ineligible clients
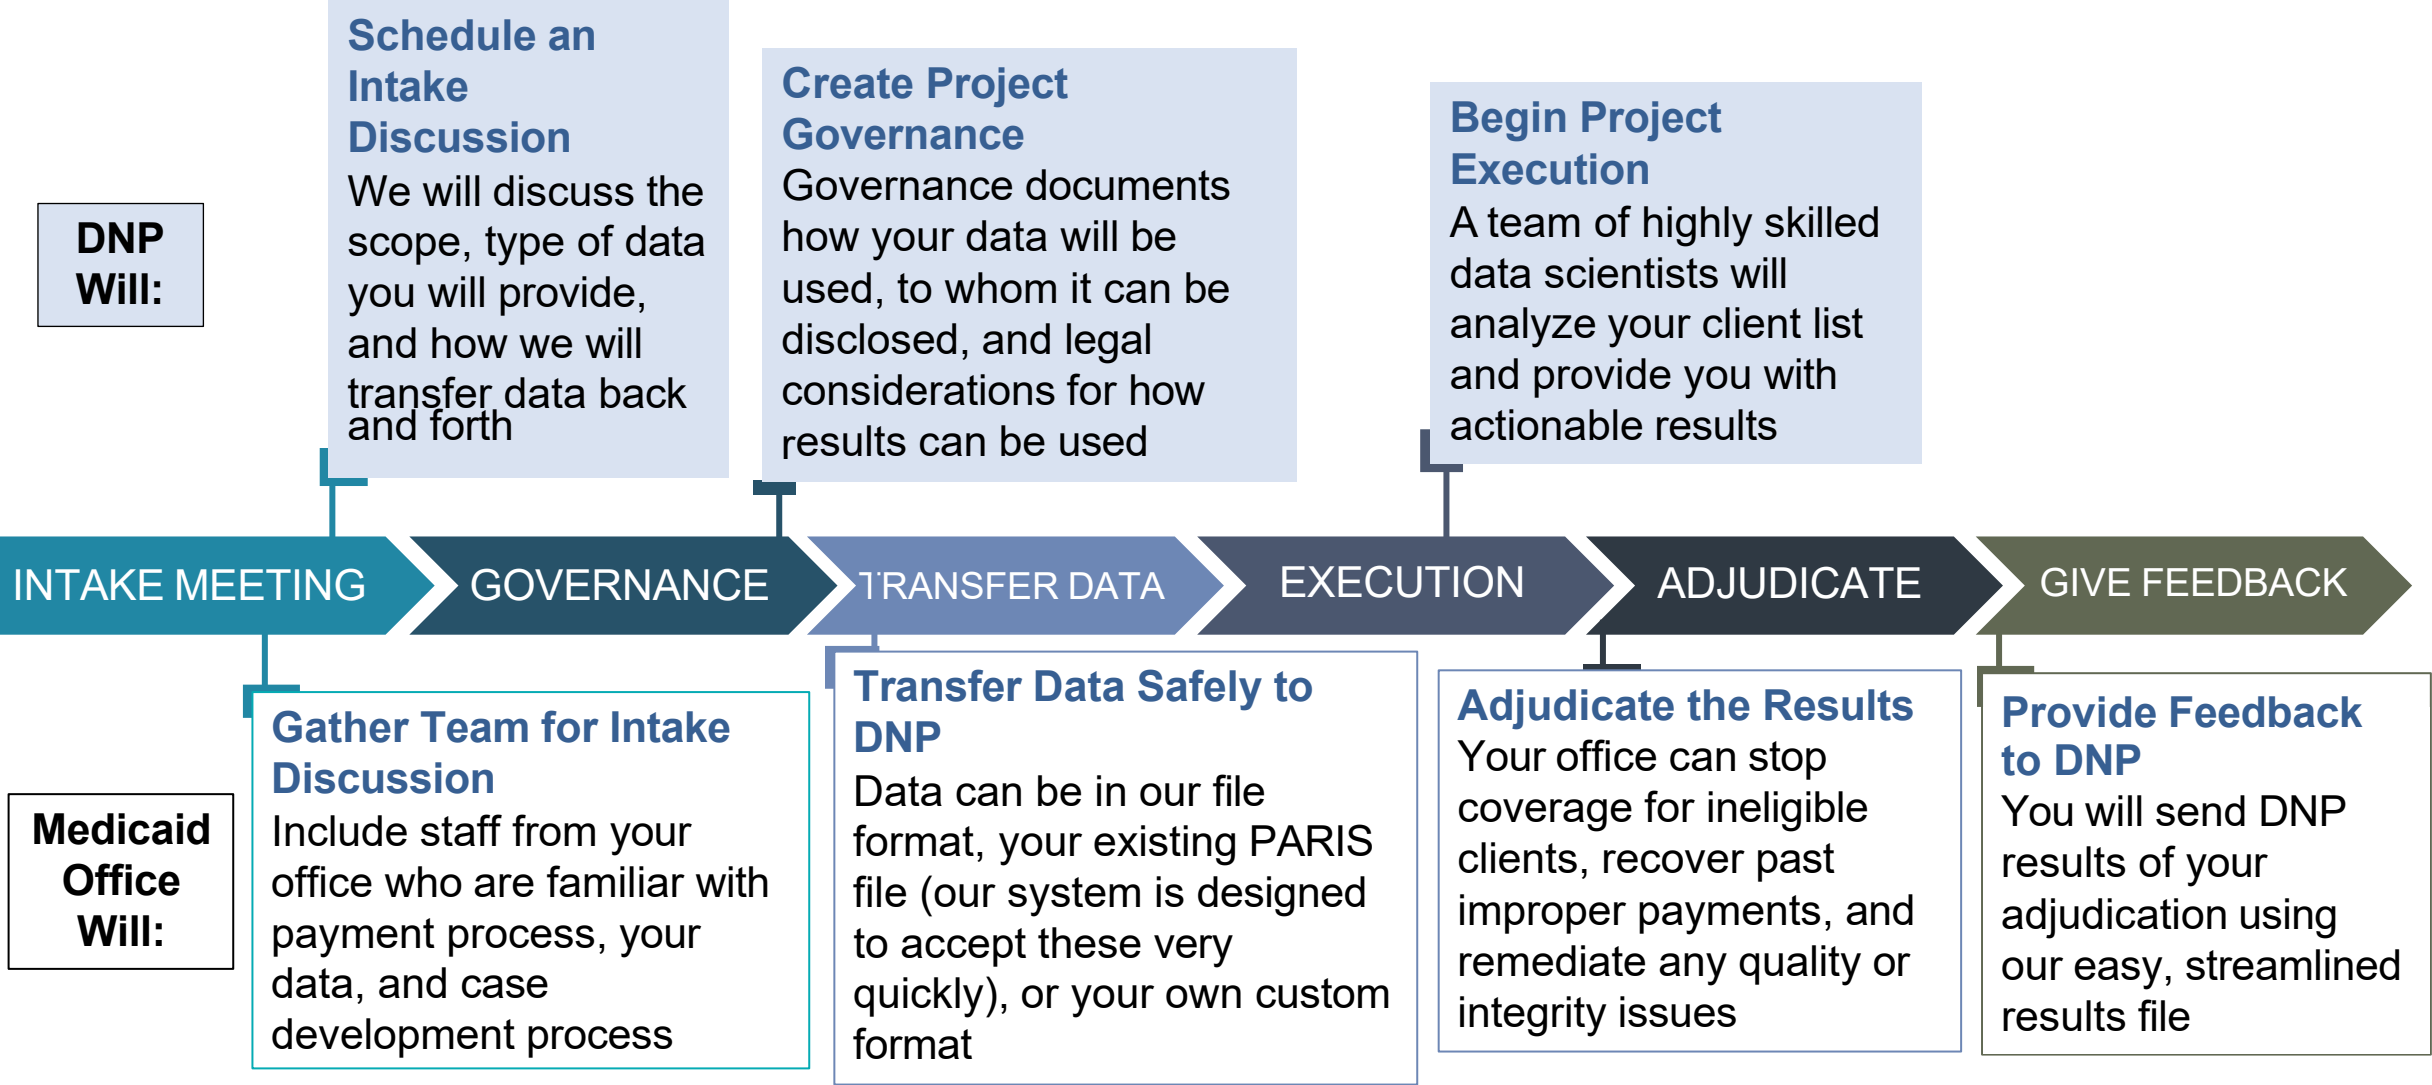

Identify any quality or integrity issues within your data such as duplicate or invalid SSNs

Continually screen clients at a frequency that suits your needs for timely case development

Medicaid Screening Service – Process

DNP Will:

Schedule an Intake Discussion
We will discuss the scope, type of data you will provide, and how we will transfer data back and forth

Create Project Governance
Governance documents how your data will be used, to whom it can be disclosed, and legal considerations for how results can be used

Begin Project Execution
A team of highly skilled data scientists will analyze your client list and provide you with actionable results

INTAKE MEETING → GOVERNANCE → TRANSFER DATA → EXECUTION → ADJUDICATE → GIVE FEEDBACK

Medicaid Office Will:

Gather Team for Intake Discussion
Include staff from your office who are familiar with payment process, your data, and case development process

Transfer Data Safely to DNP
Data can be in our file format, your existing PARIS file (our system is designed to accept these very quickly), or your own custom format

Adjudicate the Results
Your office can stop coverage for ineligible clients, recover past improper payments, and remediate any quality or integrity issues

Provide Feedback to DNP
You will send DNP results of your adjudication using our easy, streamlined results file
