

BUREAU OF THE
Fiscal Service
U.S. DEPARTMENT OF THE TREASURY

Intra-governmental Transactions Working Group (ITWG)

April 11, 2023

Today's Agenda

- Tentative ITWG Schedule
- Program Updates
- Implementation Progress Update
- Release 5.1
- Existing Orders with Missing Requesting Object Class Codes
- Whitelist (Allowed/Approved Characters)
- What's Next
- Value Based vs. Quantity Based Orders
- Treasury Single Sign-On (SSO) Migrating to CAIA
- Office Hours
- March Survey Results
- Survey Question

Tentative ITWG Schedule

- ✓ Feb 14 – Program Updates, R5.1, Post-Mandate Enhancement Timeline, What's Next After R5.1, G-Invoicing Release Roadmap, Treasury SSO Accounts, TSC, Office Hours, Jan Survey Results
 - ✓ March 14 – Program Updates, Release 5.1, What's Next, Treasury SSO Accounts, Office Hours, Survey Questions
 - ❑ April 11 – Program Updates, Implementation Progress Update, Release 5.1, Existing Orders with Missing Requesting Object Class Codes, Whitelist (Allowed/Approved Characters), What's Next, Value Based vs. Quantity Based Orders, Treasury Single Sign-On (SSO) Migrating to CAIA, Office Hours, March Survey Results, Survey Question
-

Planned Dates: May 9, June 13, July 11

Future Topics:

- Post-mandate enhancements
- Multifactor Authentication

2:00 -3:30 pm ET

Program Updates

- Q2 FY23 Implementation Plans were due to Treasury by March 31st
 - Thank you for your timely submissions!
 - These submissions will be reflected on your Q2 Scorecard
 - Q3 FY22 Implementation Plans are due by June 30th
 - **Reminder:** Pull templates from G-Invoicing webpage each quarter to ensure you are submitting the most up-to-date versions
 - <https://www.fiscal.treasury.gov/g-invoice/training.html>
- G-Invoicing Rules of Engagement – Under review for updates
 - Guide outlining the appropriate protocols for agencies to follow as they are transitioning Buy/Sell activity into G-Invoicing
 - Publication date TBD

Program Updates Continued

- TFM Bulletin 2023-05 published on 03/23/23
 - Delay the removal of Buy/Sell Transaction Sub-Category data element from IPAC until October 2025 (UI and Bulk File)
 - Update to the Q2 FY23 G-Invoicing IGT Scorecard Metric
 - Removes the agency compliance determination (Fully/Partially/Non-Compliant)
 - Eliminates the stoplight color ratings (Green/Yellow/Red)
 - Display three G-Invoicing Progress percentages (Overall, Inter-departmental & Intra-departmental)
 - Clarifying the use of Constructive Order Acceptance
 - Not changing the current Buyer Initiated Order (BIO) or Seller Facilitated Order (SFO) flows
 - Limited to GSA Rent Activity only
 - Additional conversations need to be held with agencies to determine if it will be available more broadly in the future

Program Updates Continued

- G-Invoicing R5.1 Overview Webinar
 - This session will highlight what changes agencies can expect to see in the application following R5.1
 - One offering: 05/09/23 (11:00am - 12:30pm ET)
 - <https://fiscal.treasury.gov/training/g-invoicing-release-5-1-overview.html>

Overall Implementation Progress

Fiscal Year 2023 Activity Processed Through G-Invoicing	
Orders Brokered Volume	2,577
Orders Brokered Amount	\$4,462,159,175

Release 5.1

- Allow only printable ASCII characters on Orders and Performance
 - Validation added to the UI & APIs on all Order & Performance free-form fields
 - Cleanup effort on existing data
- New Order & Performance APIs to support JSON
 - Supports all existing Order and Performance functionality
 - Order enhancement: Constructive Order Acceptance (COA)
 - Seller-Facilitated Order (SFO) that allows the Seller to provide all required Order fields on behalf of Buyer
 - COA will be limited to GSA Rent activity only for R5.1
 - Performance enhancement: Allows Advanced Previously Paid Quantities (PPQs) for In-flight Orders (IFO) through your ERP system
- Requesting Agency Object Class Code will become a Required Field
 - Agencies should review their existing Orders prior to R5.1 to ensure that this field is populated, if possible
- Item Code API Validation will not be included in this release
 - More discussions needed to ensure that it's released at a point that won't impact agencies.
- Copy Invoice functionality added for 7600EZ
- Two new user roles created (Requesting Order Notification Receiver and Servicing Order Notification Receiver)
 - Restoration of Pre-R5.0 notifications capabilities
- R5.1 deployment targeted for May 18th (Production) and May 26th (QAC)

Existing Orders with Missing Requesting Object Class Codes

- The G-Invoicing Production and QA environments are being reviewed for Orders with missing Requesting Agency Budget Object Class Codes. These Orders must be updated before R5.1 is deployed to ensure agencies are not impacted by the new validation rule. The missing code can cause validation errors when an affected Order is modified. An email has been sent to the agency PMA and MAs with instructions.
 - Production
 - Agencies with affected Orders have been notified and will need to complete their required actions by **April 24, 2023**.
 - Orders in a DRAFT status with the Requesting Agency will require Order Managers to provide the appropriate Budget Object Class Code.
 - Orders in an Open status without Performance transactions will require Order Managers to insert appropriate Budget Object Class Codes by an Administrative Modification.
 - All other Orders will require the agency to provide the Budget Object Class Codes in a spreadsheet provided and will be inserted via script. Production will be updated with the supplied values on **May 1, 2023**. Production will be reviewed again on **May 10, 2023** to determine if additional updates will be required.
 - QA
 - All Orders missing the Budget Object Class Code will be updated via Script with Budget Object Class Code of “25.3 Goods and Services from Federal Sources”.
 - Note: The implementation of this change in will not update the “last updated” time stamp so that it does not trigger a mass download of updated Orders for agencies that are testing in QA environments.
- If any agency requires assistance with this task reach out to your assigned AIT

Whitelist (Allowed/Approved Characters)

Performance

Comments

Agency Performance ID

What's Next

- Enhanced Order Modification Capabilities

- Performance during an Order Modification

- Allow Performance to be reported while previously open Order is being modified
- Currently, all Performance is stopped while an Order isn't in an Open state

- Order Revert

- Allows Partner 1 to revert the Order back to its previously approved state when abandoning a proposed modification
- Eliminates the need to reapprove the Order to get it back to its previously approved state

- Bi-directional Order Modification

- Allow either trading partner to initiate an Order Modification
- Currently, only Partner 1 may initiate Order Modifications

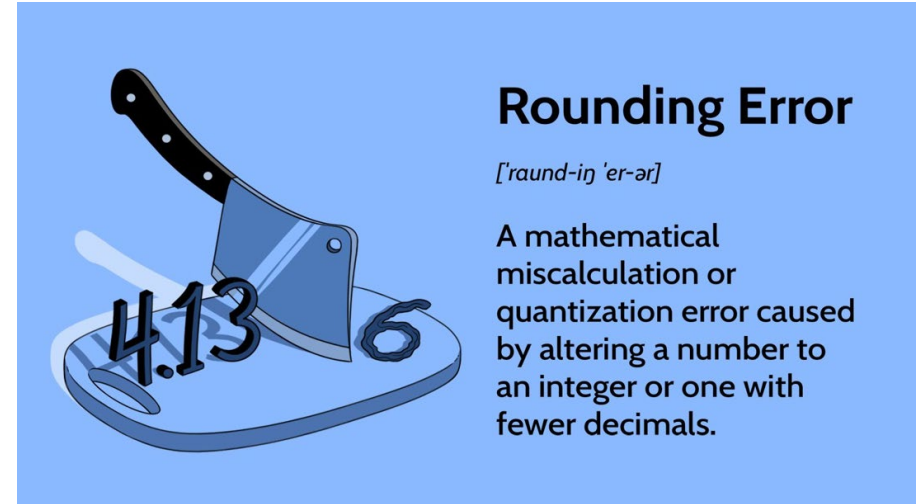

- Finish Strategic UI Reorganization Work

- Rearchitecting the G-Invoicing User Interface (UI) will accelerate time to market with new features and enhancements, ensure Accessibility compliance and improve consistency of the UI and User Experience

Value Based vs. Quantity Based Orders

- Two methods for setting up Orders in G-Invoicing
 - Value-Based Orders
 - UOM = 'DO' (US Dollars)
 - **Unit Price = \$1.00**
 - Quantity: Amount in \$
 - Quantity-Based Orders
 - UOM other than 'DO' (US Dollars)
 - Unit Price can be other than \$1.00
 - Quantity may be in whole or fractional amounts
- Treasury **strongly recommends using Value-Based Orders** when the Order includes partial quantities
 - Rounding issues may occur when Unit Price is not \$1.00 and partial quantities are used with Delivered/Performed transactions
 - This can result in an Overpay or Underpay situation
 - Also may result in reconciliation issues with Order balances in ERP solutions if the ERP rounds differently than G-Invoicing

Value Based vs. Quantity Based Orders

- Overpay vs. Underpay Examples (Quantity-Based Orders)

- Example 1 (Overpay)

- Order/Schedule: Price = \$9.99, Quantity = 1.00
 - Delivered/Performed 0.50 units for \$5.00
 - Delivered/Performed 0.50 units for \$5.00
1.00 ✓ \$10.00 > \$9.99 ✗

- Example 2 (Underpay)

- Order/Schedule: Price = \$4.01, Quantity = 1.00
 - Delivered/Performed 0.33 units for \$1.32
 - Delivered/Performed 0.33 units for \$1.32
 - Delivered/Performed 0.34 units for \$1.36
1.00 ✓ \$4.00 > \$4.01 ✗

- Future G-Invoicing Enhancement

- New data element: Performance Amount
 - Performance Amount will allow agencies to correctly enter in the amount that will settle in IPAC vs. allowing the application to calculate it based on UOM and Unit Price
 - More details available on our webpage: <https://www.fiscal.treasury.gov/g-invoice/resources.html#standards>
 - Performance Amount File is located under Future G-Invoicing Features/Enhancements section
 - Also considering a system default to only allow Unit Price \$1.00 for Value Based Orders

Treasury Single Sign-On (SSO) Migrating to CAIA

CAIA (Common Approach to Identity Assurance) provides a consistent user experience to authentication to the Fiscal Accounting applications. The CAIA solution is similar to the existing Treasury Single Sign-On system known as ISIM. ISIM will be replaced with SailPoint IdentityIQ to allow users to authenticate to Treasury applications using a form of multifactor authentication (**1. PIV/PIV-I, CAC 2. Login.gov 3. ID.me**)

- The new Treasury mandate is for CAIA to be implemented by **Q3 2023 (Calendar Year)** for all Fiscal Accounting applications.
- **If you do not have a PIV-I/CAC card**, an email will be coming with instructions to register with a Credentialing Service Provider (CSP) of your choice. *If you have an existing account with either Login.gov or ID.me, your work email address will need to be added.*
 - [Login.gov](#)
 - [ID.me](#)
- **If you have a PIV-I/CAC** and have not linked, please do so immediately.
 - Instructions for linking your PIV-I or CAC can be found [here](#) and verified [here](#).
 - Select “Login with Your PIV” on the login page

Office Hours

- G-Invoicing Program conducts virtual Office Hours sessions twice monthly where we host targeted discussions as well as “open-mic” styled discussions

- Future Topics Include:

- ~~G-Inv/GTAS Reconciliation Reports (April 4th)~~
- Open Topic (April 18th)
- GPO as a Buyer (May 2nd)
- Open Topic (May 16th)
- GSA Fleet as a Seller (TBD)
- GPO as a Seller (TBD)
- Trading Partner Spotlight: Providing Agencies a platform to discuss their G-Invoicing implementation approach with trading partners

Note: If Agencies would like to volunteer for a Trading Partner Spotlight session, please reach out to IGT@fiscal.treasury.gov

- Register for Office Hours

--	--	---------------	-------------------------------------	--------------------------	---

March Survey Results

1. How can we improve the ITWG to make it more meaningful to agencies?
 - Not many suggestions received. Appears that our meetings are hitting the appropriate topics and have been providing meaningful discussions/conversations.
2. What topics would you like to be discussed in future ITWGs?
 - GSA Rent and DHS Security
 - References to areas in our policy/guidance in relation to the topics being discussed (if applicable)
3. Are there any new challenges/hurdles not already identified in your implementation plans that we can help resolve?
 - Concerns around legacy processes vs. G-Invoicing resulting in reconciliation issues
 - If an agency isn't ready to do the full performance lifecycle in G-Invoicing, continue to leverage legacy processes (ex. 7600 forms) and don't create Orders in G-Invoicing until you are ready to do the full performance lifecycle
 - Refer to our Rules of Engagement where we have a Flowchart outlining the various agency scenarios
 - <https://www.fiscal.treasury.gov/g-invoice/resources.html#standards>

Survey Question

1. Does your agency have any issues/concerns with us adding a system validation to lock down \$1.00 for the Unit Price on all Value Based Orders (UOM = US Dollars)? If yes, please explain.

***Link to Survey Question:** <https://www.surveymonkey.com/r/XNZS5J9>

- Please submit feedback by COB Friday, April 21st

- Treasury Support Center (Slide 26)
- Commonly Referenced Resources (Slide 27)
- Reference Materials (Slide 28)

Post-Mandate Enhancement Timeline

- The following enhancements are high priority following the mandate based on Agency requests. These enhancements will also require further ERP integration changes:

Enhancement	G-Invoicing Development Completed	Available in Production	Release Number	Agency Implementation Date, if Required
**7600-EZ (Low Dollar Purchases)	*Q1 FY2023	Q2 FY2023	5.0	Q1 FY2024
**Constructive Order Acceptance (GSA Rent)	*Q2 FY2023	Q3 FY2023	5.1	Q1 FY2025
**Enhanced Order Modification Functionality	*Q1 FY2024	Q2 FY2024	TBD	N/A
In-Flight Order Upload Tool for the User Interface	*Q1 FY2023	Q2 FY2023	5.0	N/A

***Targeted Dates for Development Completion. Deployment to Production is expected to occur the quarter following.**

****Both Trading Partners must enable Feature Flags to use this Functionality.**

Note: Specifications for each enhancement published Q2 FY2022.

- Note: Fiscal Service will continue to collaborate with ERP Vendors on establishing timelines for ERP Development.*

G-Invoicing Release Roadmap

	Calendar Year											
	2022				2023				2024			
G-Invoicing Releases												
G-Invoicing	Q1	Q2	Q3	Q4	Q1	Q2	Q3	Q4	Q1	Q2	Q3	Q4
R4.4 (Enhancements)	✓											
R4.5 (Post-Mandate Phase One)		✓										
R4.6/ R4.6.1			✓	✓								
R5.0					X							
R5.1						X						
R(A)										X		
Agency Implementation				1				2				

All timelines are tentative and based on known requirements as of January 2022
"X" denotes targeted quarter for deployment
1 = Implementation date mandated for new orders with a performance period beginning October 1, 2022 or later.
2 = Implementation date mandated for all orders with a period of performance extending beyond September 30, 2023.

R4.4 (03/03/2022) – GT&C Workflow by OrgGroup, new Performance Reporting, and general enhancements

R4.5 (Release 06/30/2022) – Phase one of new Order Upload and 7600EZ capabilities, plus infrastructure for Treasury and federal agencies to declare readiness to use new features.

R4.6/R4.6.1 (Released 09/15/2022 & 11/03/2022) – Phase II Order Upload and 7600EZ capabilities, ATB Summary Report, limited storage of non-printable characters on GT&Cs, and application stability and performance enhancements.

R5.0 (Target 02/16/2023) – Post-mandate functionality for 7600EZ capabilities, Order Upload and advanced Pre-Paid Performance Quantity (PPQ) for IFO, and Feature Management and Feature reports. Enhancements to the User Interface include improved date and time handling and Product Service Code (PSC - Item Code) validation.

R5.1 (Target Q2/2023) – Limit non-printable characters on Orders and Performance to support Vendor integration, Constructive Order Acceptance available through new JSON APIs for Orders and Performance, and 7600 EZ copy invoice functionality

R(A) (Tentative Target Q2/2024) – Feature candidates include Enhanced Order Modification, Enhanced GT&C Modification, User Interface enhancements, or other post-mandate features - to be prioritized.

Additional releases will be added as planning occurs for future Program Increments. The following link can be used to reference the [Services Quick Reference Guide](#) for additional information regarding the versions of Application Program Interface (API), XML, specifications, Federal Intragovernmental Data Standards (FIDS) and System Mapping & Validation Rules (SM&VR) supported by each release.

Connecting With Your Trading Partners

- Staying up to date on your Partners' progress is key to your own success in transitioning your IGT Buy/Sell activity to G-Invoicing
- Fiscal Service provides several utilities to facilitate effective communication with your Partners to gain an understanding of their implementation approach and timeline

BUREAU OF THE FISCAL SERVICE G-INVOICING
