In accordance with the requirements of the act of July 31, 1894, the receipts are classified, whenever practicable, by ports, districts, and States, and the expenditures by each separate head of appropriations.

The receipts, appropriations, and expenditures are also classified according to general, special, and trust funds, respectively. On page 13 will be found a condensed statement of the receipts and expenditures classified according to these fund distinctions.

The bases of the figures included in this report are explained in the Foreword appearing on pages 6 to 8.

Respectfully,

E. F. BARTELT,

Hon. A. W. MELLON,  
*Secretary of the Treasury.*

# FOREWORD

## BASES OF FIGURES INCLUDED IN THIS REPORT

### RECEIPTS

Section 305 of the Revised Statutes provides that receipts for all moneys received by the Treasurer of the United States shall be indorsed upon warrants signed by the Secretary of the Treasury, without which warrants, so signed, no acknowledgement for money received into the Public Treasury shall be valid. The receipts of the

United States Government as published in this report are based upon warrants issued by the Secretary of the Treasury and represent the formal covering into the Treasury of the public moneys deposited in Treasury offices and Government depositaries during the fiscal year ended June 30, 1930.

### EXPENDITURES

The expenditures in this report are exhibited on two different bases, namely: (1) Warrants issued, and (2) checks issued.

(1) *Warrants-issued basis.*—Under the provisions of the act of September 2, 1789, which later became section 305 of the Revised Statutes, the expenditures of the United States Government are based upon warrants issued by the Secretary of the Treasury. From the organization of the Government in 1791, down to and including the fiscal year ended June 30, 1926, the detailed expenditures of the Government under separate heads of appropriations provided by Congress were exhibited on what is known as the "basis of warrants issued."

There are two classes of warrants upon which expenditures are made from the United States Treasury, viz, (a) accountable warrants, so called because disbursing officers must regularly account for expenditures thereunder, which are issued to place funds to the credit of disbursing officers on the books of the Treasurer of the United States, subject to their official check for the payment of Government obligations; and (b) settlement warrants, which authorize the Treasurer of the United States to make direct payments to claimants upon settlements of the accounting officers.

Accountable warrants are issued practically as a book-keeping expedient. They form the legal basis for charges against appropriation accounts upon the books of the Secretary of the Treasury and for corresponding credits to disbursing officers' checking accounts upon the books of the Treasurer of the United States, but do not involve an actual expenditure of cash from the Treasury at the time the warrants are issued. As far as the appropriation accounts upon the books of the Secretary of the Treasury are concerned, the warrants issued and charged thereto constitute expenditures on a *warrant* basis. To some extent, however, the money represented by such warrants is not actually expended during the fiscal year in which advanced to disbursing officers. The unexpended bal-

ances of funds in such cases are either used in the following fiscal year or returned by repay covering warrants to the appropriations from which advanced on the books of the Secretary. While the differences between the total expenditures on a warrant basis and a checks-issued basis are not material in cases where the unexpended balances to the credit of disbursing officers remain more or less constant from year to year, the former do not in all cases accurately reflect the trend of governmental expenditures, since they include unexpended balances remaining to the credit of disbursing officers at the end of the year but not expenditures from unexpended disbursing officers' balances at the beginning of the year. The expenditures on the basis of warrants issued in pursuance of section 305 of the Revised Statutes are shown in the fourth money column of this report beginning on page 80.

(2) *Checks-issued basis.*—In order to correct the situation described above an improved form of exhibiting the detailed expenditures of the Government was devised by the Treasury during the fiscal year 1927, under which expenditures are now shown on the basis of checks issued. This form excludes from expenditures moneys placed to the credit of disbursing officers by *warrant* which remain unexpended and to their official checking credit at the close of the fiscal year, and includes in expenditures all checks drawn by disbursing officers during the fiscal year 1930 against unexpended balances of moneys placed to their checking credit during the preceding fiscal year. In other words, the expenditures on the basis of checks issued as exhibited in this report represent all the checks drawn upon the Treasurer of the United States during the fiscal year 1930 in payment of Government obligations without regard to the fiscal year in which the funds may have been placed to the credit of disbursing officers by *warrant*. The detailed expenditures on the basis of checks issued are shown in the fifth money column of this report beginning on page 80.

### APPROPRIATIONS

Article 1 of the Constitution of the United States provides that no money shall be withdrawn from the Treasury but in consequence of appropriations made by law. The appropriations exhibited in this report are the amounts which, by law, Congress authorized to be estab-

lished upon the books of the Treasury during the fiscal year 1930. The figures necessarily differ somewhat from the appropriations exhibited in the annual "Digest of Appropriations, 1930," compiled by the Treasury Department, the "Statement of Appropriations for the Seventieth

Congress, Second Session," Senate Document No. 268, prepared under the direction of the Committees on Appropriations of the Senate and House of Representatives, and the comparative statement of appropriations for the fiscal year 1930 contained in the annual "Budget, 1931," for several reasons as may be observed by a study of the "Accountability Statement of Appropriations by Acts of Congress," appearing on pages 400 to 404 of this report. These differences are due principally to (1) the difference in the time at which the different reports are compiled, and (2) special provisions and limitations enacted by Congress in appropriation acts in regard to the availability of the appropriations. For instance, the three documents mentioned above are compiled about the beginning of the fiscal year for which the appropriations are made, and, therefore, include *estimated* amounts to cover permanent and indefinite appropriations, whereas the Combined Statement of Receipts, Expenditures, Balances, etc., of the United States is compiled after the close of the fiscal year, and the figures in this report under such appropriations are *actual*. As to the time of the availability of appropriations it will be noted by reference to page 400 that of the total appropriations provided in the annual appropriation acts for the fiscal year 1930, aggregating \$3,072,873,162.45, the sum of \$177,803,131.37 was made

immediately available by Congress upon the dates of approval of the several acts, and therefore was established upon the books of the Treasury in the fiscal year 1929 instead of 1930. In like manner by the terms of the annual appropriation acts for 1931, aggregating \$3,168,256,665.46, the sum of \$148,959,350.00 was made immediately available upon the passage of such acts and, accordingly, was established upon the books of the Treasury during the fiscal year 1930. Appropriations contained in the first deficiency act, fiscal year 1930, approved March 26, 1930, were established upon the books of the Treasury during the fiscal year 1930, and, therefore, are included in this report; this act having been approved subsequently to the publication of the annual "Digest of Appropriations, 1930" and the "Statement of Appropriations of the Seventieth Congress, Second Session," Senate Document No. 268, the appropriations contained therein manifestly are not included in such publications for 1930, but are included in those publications for the fiscal year 1931. Other differences in appropriation figures are attributable to the fact that certain appropriations provided by Congress in the annual and deficiency appropriation acts are not payable from the general fund of the Treasury, but are provided for from postal revenues and from special funds hereinafter described.

#### SURPLUS FUND, ACT JUNE 20, 1874 (18 STAT. 110)

The term "Surplus Fund of the Treasury" as used by Congress in appropriation acts, and the act of June 20, 1874, and by the Treasury Department in the heading of the sixth money column of this report, beginning on page 80, does not represent a physical fund consisting of surplus cash or other assets as the term would ordinarily imply in accounting terminology. The term as herein used has no relation to surplus income. It is merely an expression to describe the writing off of the books of appropriations which have been repealed, or the unexpended balances of appropriations which have lapsed by limitation of law.

Appropriations when made by Congress and established upon the books of the Treasury Department do not represent so much income or cash actually set aside in the Treasury for the purposes specified in the appropriation acts. Appropriations are established upon the books of the Treasury simply as *record accounts* and merely represent the limit to which administrative offices may obligate Government funds during the fiscal years specified in the appropriation acts, and as a general rule are based upon anticipated future tax collections and other receipts.

It follows, therefore, that when appropriations, or unexpended balances of appropriations, are carried to what is termed in the law the *surplus fund of the Treasury* it involves simply a matter of writing such appropriations off of the books without increasing the cash in the Treasury or affecting it in any manner. Under the act of Congress approved June 12, 1870, as amended by the act of June 20, 1874, on the last day of each fiscal year the Treasury writes off the unexpended balances of appropriations that have remained on the books for two full fiscal years.

In contradistinction, the term "surplus" as used in connection with the receipts and expenditures of the Government, represents the ordinary receipts, i. e., customs duties, internal revenue, and miscellaneous, for a given period in excess of the expenditures chargeable against such receipts for the same period, usually for a fiscal year. (See p. 5.) There is no relation between the two terms described. The excess or surplus of the Government's receipts over its expenditures is not permitted to accumulate in the Treasury from year to year, but is used as promptly as conditions permit to reduce the public debt.

#### FUND DISTINCTIONS

The receipts, appropriations, and expenditures included in this report are classified according to funds, i. e., (1) general fund, (2) special funds, and (3) trust funds.

(1) *General fund*.—The principal sources of receipts covered into the general fund are income tax, miscellaneous internal revenue, and customs duties. Receipts from miscellaneous sources, which are not earmarked for special expenditures, are also covered into the general fund. Such receipts include proceeds of Government-owned securities (except those which are applicable to public-debt retirement), sale of surplus and condemned property, Panama Canal tolls, fees of various kinds, fines, penalties, forfeitures, rentals, royalties, reimbursements, immigration head tax, sale of public land, tax on

national-bank circulation, interest on public deposits, seigniorage on coinage of subsidiary silver and minor coins, etc.

Moneys in the general fund may be withdrawn from the Treasury only in pursuance of appropriations made by Congress. There are four classes of appropriations payable from the general fund of the Treasury, namely: (a) Annual, being those made each year in the several departmental supply bills and limited for obligation<sup>1</sup> during the fiscal year for which made; (b) continuing (no-year), being available until expended or until the object for which appropriated has been accomplished, such as construction of public works; (c) permanent-specific, being fixed amounts provided for each of a

<sup>1</sup> The unexpended balances on the books of the Treasury under annual appropriations are available for two additional years for the payment of such obligations, after they are covered into the surplus fund of the Treasury.

series of years by permanent legislation without annual action of Congress; and (d) permanent-indefinite, being indefinite amounts (so much as may be necessary) provided by permanent legislation without annual action of Congress, such as the indefinite appropriation to cover interest on the public debt.

(2) *Special funds*.—Special-fund receipts may be generally defined as funds received under special authorizations of law which may be expended only for the particular purposes specified therein. Special-fund receipts are earmarked at the time of their deposit and may not be used for the general expenditures of the Government.

The more important special funds other than those applicable to debt retirement are the reclamation fund under the Department of the Interior, funds received for river and harbor improvements, Forest Service cooperative funds, proceeds from sales of ships, etc., by the United States Shipping Board available for construction loans, assessments on Federal reserve banks for salaries and expenses of the Federal Reserve Board, and assessments upon national banks for expenses of examinations. There are many other special funds involving smaller amounts.

In connection with the foregoing it will be noted by reference to page 50, that receipts on account of principal and interest on foreign obligations appear under both "General fund" and "Special fund" captions. Receipts on account of foreign obligations under the caption "General fund" are not applicable to debt retirement and are available for general expenditures of the Government. They represent cash payments on account of interest and also cash repayments on account of the principal of that part of the indebtedness representing surplus war and relief supplies sold on credit. Receipts from foreign Governments appearing under the caption "Special funds" represent the face amount of United States obligations received from foreign Governments on account of both principal and interest under debt-funding agreements and of cash repayments of principal in so far as they represent repayments of cash advances under the Liberty bond acts, such receipts being available for debt retirement. In connection with the collection and use of special fund receipts, it will be noted by reference to page 24, and following pages, that ready references are given to the pages on which the appro-

priations of such receipts may be found. These references will be found especially helpful in cases where Congress has designated in advance the use of receipts from particular sources to several different objects of expenditure on a *percentage* basis, such as in the case of Federal water-power receipts (p. 27), forest reserve fund receipts (p. 34), mineral leasing act receipts (p. 39), Alaska fund receipts (p. 45), and Coos Bay wagon-road grant fund (p. 40).

(3) *Trust funds*.—Trust funds represent moneys received by the Government for the benefit of individuals or classes of individuals. Moneys held in trust being payable to or for the use of beneficiaries only are not available for general expenditures of the Government. There are several classes of trust funds, the beneficiaries under which may be either individuals or groups of individuals. The funds may represent (a) moneys received directly from or for account of individuals, as in the case of moneys received from foreign Governments or other sources in trust for citizens of the United States or others under the act of February 26, 1896; (b) moneys collected as revenues and held in trust, such as the proceeds of sales of Indian lands which are held as interest-bearing funds for the benefit of Indian tribes; and (c) proceeds of grants from the general fund of the Treasury in pursuance of treaty or other obligations such as the perpetual trust fund created for the Ute Indians under section 5 of the act of June 15, 1880. Revenues of the municipal government of the District of Columbia and expenditures therefrom, for the purpose of the classification of receipts and expenditures in this report, are classified under the caption "Trust funds." The share of the United States of expenditures on account of the District of Columbia, which is payable "out of any moneys in the Treasury not otherwise appropriated," is classified under the caption "General fund." In like manner expenditures under appropriations from the general fund of the Treasury for account of certain trust funds, such as the adjusted service certificate fund, civil-service retirement fund, and the foreign-service retirement fund, are classified under the caption "General fund." Variations in the working balances under these funds due to variations between credits and charges thereto are stated in connection with expenditures under the caption "Trust funds."

<sup>1</sup> Receipts credited direct to "Construction loan fund" appropriation by repay covering warrants during the fiscal year 1930.

<sup>4</sup> Heretofore classified under "Repayments of investments."

<sup>5</sup> Exclusive of \$8,921,775.67 transferred on October 23, 1929, and October 31, 1929, from the checking account of the United States Shipping Board on the books of the Treasurer of the United States to the warrant account on the books of the Secretary of the Treasury, and covered into the Treasury by miscellaneous receipt covering warrant under the title, "Funds deposited for construction loans under section 11, merchant marine act, 1920 special fund." This transfer of funds from checking account to warrant account is merely an adjustment between accounts in this fiscal year of cash transactions occurring in prior fiscal years. Accordingly, the item has not been included in either the receipts or expenditures of this report, inasmuch as it did not affect the cash in the Treasury during the current fiscal year.

<sup>8</sup> Correction: The sums of \$64,386.03 and \$5,266.02 covered into the Treasury during the fiscal year 1929 on account of "Reserves" and "Interest on premiums," respectively, were inadvertently included in the 1929 report under the heading "Dividend deposits."

<sup>9</sup> Includes \$192,375 deposited on June 30, 1930, by the Federal Land Bank of Spokane, Wash., on account of interest due July 1, 1930, on investments held for the Government Life Insurance Fund.

<sup>10</sup> Receipts on this account are credited against expenditures. (See p. 443.)

NOTE.—The receipts of the Government life-insurance fund included in this report represent only cash collections and do not include premiums, dividends, interest, etc. received by the Veterans' Bureau by deduction from new loans. The item "repayment of policy loans" does not include loans repaid by deduction in connection with policy payments.

Forest Reserve Fund.....	\$4, 614, 126. 97	\$2, 232, 287. 87	-----	\$6, 846, 414. 84
(a) Under acts of Mar. 4, 1907 (34 Stat. 1270), Mar. 1, 1911 (36 Stat. 963), and June 30, 1914 (38 Stat. 441), 25 per cent of all money received from each national forest is paid to the State in which such forest is situated. The sum of \$1,564,639.74, representing 25 per cent of \$6,258,558.95 collected during 1929 as reported by the Department of Agriculture, plus an additional sum of \$392.32 on account of adjustments of 1928 collections by the General Accounting Office, was credited during the fiscal year 1930 to the appropriation account "Payments to States and Territories from the national forests fund," p. 312.				
(b) Under the act of June 20, 1910 (36 Stat. 562), such "proportion of gross proceeds of all the national forests within said State as the area of land granted to said State for school purposes, which are situated within said forest reserve * * * may bear to the total area of all the national forests within the State," is credited to the account "Payments to school funds, Arizona and New Mexico, national forest funds." In accordance with this provision, and upon the basis of reports from the Department of Agriculture, \$41,242.91 of the collections for the fiscal year 1929, plus an additional sum of \$0.09 on account of adjustments of 1928 collections by the General Accounting Office, was credited during the fiscal year 1930 to the appropriation account "Payments to school funds, Arizona and New Mexico, national forests fund," p. 312.				
(c) Under the act of Mar. 4, 1913 (37 Stat. 843), 10 per cent of the forests reserve fund receipts is available for the construction and maintenance of roads and trails within the national forests. The sum of \$625,855.89, representing 10 per cent of \$6,258,558.95 collected during 1929 as reported by the Department of Agriculture, plus an additional sum of \$156.92 on account of adjustments of 1928 collections by the General Accounting Office, was credited during the fiscal year 1930 to the appropriation "Roads and trails for States, national forests fund," p. 312. The necessity for basing the amounts credited to the above mentioned special funds on collections reported by the Department of Agriculture for the preceding year, instead of upon covering warrants for the current year, is due to the fact that an accurate division of receipts can not be made until the amounts belonging to the school funds of Arizona and New Mexico, under (b) above, have been determined by the Department of Agriculture.

<sup>1</sup> Includes \$11,711.49 Philippine Islands tariff collections, as follows: Duties, \$1,599.15; tonnage, \$10,112.34; appropriated under "Philippine special fund" (customs), p. 318.

NOTE.—The customs receipts as published in this report differ in some respects from the figures published in the report of the Commissioner of Customs because the latter represent collections by customs officers throughout the country, while the former (this report) represent the actual deposit of such collections in the Treasury and its depositories during the fiscal year 1930, the difference being due to the fact that some of the collections in the latter part of the fiscal year do not reach the Treasury or one of its depositories until after June 30.

<sup>1</sup> Includes \$15,346.36 income tax on Alaska railroads, appropriated under "Additional income tax on railroads in Alaska" (special fund), p. 31.

<sup>2</sup> Of this amount, \$323,835.37 is Philippine Island revenues and \$2,467.80 United States revenues. Additional collections from sale of stamps affixed to products from the Philippine Islands were made and are included in the foregoing statement under the following districts: First California, \$291.57; Washington, \$171.59; and Hawaii, \$3,163.85; making a total of \$327,462.38 Philippine Islands internal-revenue receipts covered by warrants issued during the fiscal year 1930 and appropriated under "Philippine special fund" (internal revenue), p. 318.

<sup>3</sup> Includes \$73,100 "Estate taxes" credited to the appropriation, "Redemption of bonds and notes from estate taxes," p. 410.

NOTE.—The internal-revenue receipts as published in this report differ in some respects from the figures published in the report of the Commissioner of Internal Revenue because the latter represent collections by internal revenue officers throughout the country, including amounts received through postmasters and customs officers, while the former (this report) represent the actual deposit of such collections in the Treasury and its depositories during the fiscal year 1930, the difference being due to the fact that some of the collections in the latter part of the fiscal year do not reach the Treasury or one of its depositories until after June 30.

<sup>1</sup> See also account on p. 85 for expenditures from appropriation from the General Fund of the Treasury.  
<sup>2</sup> Heretofore stated as a trust fund.  
<sup>3</sup> Includes \$51.49 transferred from "Chamber music auditorium, Library of Congress," act Mar. 3, 1925 (43 Stat. 1107).  
<sup>4</sup> Transferred to "Library of Congress gift fund." See note 3.  
<sup>5</sup> For general and trust funds, see pp. 80, 324.  
<sup>6</sup> Includes \$1,361,860.67 receipts from miscellaneous sources credited direct to this appropriation by repay covering warrants and \$8,921,775.67 transferred from the checking account of the U. S. Shipping Board on the books of the Treasurer of the United States to the warrant account on the books of the Secretary of the Treasury and covered into the Treasury by miscellaneous receipt covering warrant under the title "Funds deposited for construction loans under sec. 11, merchant marine act, 1920, special fund."  
This transfer of \$8,921,775.67 from checking account to warrant account is merely an adjustment between accounts in this fiscal year of cash transactions occurring in prior fiscal years; accordingly, the amount has not been included in either the receipts or expenditures of this report, inasmuch as it did not affect the cash in the Treasury during the current fiscal year.

<sup>7</sup> Heretofore stated under "General fund."  
<sup>8</sup> Exclusive of \$8,921,775.67 referred to in Note 6 as transferred to warrant account.  
<sup>9</sup> Revenues from sales of ships, land, buildings, etc., are deposited in the checking account of the U. S. Shipping Board Merchant Fleet Corporation and operate as credits against expenditures. The proceeds of warrants issued on account of the appropriation "United States Shipping Board" are also deposited in and expended from this account.  
<sup>10</sup> Exclusive of funds in depositories other than the Treasury of the United States.  
<sup>11</sup> See also annual appropriation, p. 108.  
<sup>12</sup> For general and trust funds, see pp. 92, 324.

DISTRICT OF COLUMBIA

<sup>41</sup> Debit balance.

<sup>59</sup> This appropriation is used largely to reimburse the Department of Justice for care and maintenance of District of Columbia convicts. The amounts covering such payments to the Department of Justice are deposited by that department in the Treasury as miscellaneous receipts, "Reimbursement for maintenance of District of Columbia inmates in Federal penal and correctional institutions." See p. 44.

<sup>60</sup> Transferred from "Buildings, Metropolitan police, District of Columbia," act Feb. 25, 1929 (45 Stat. 1289).

<sup>61</sup> This is a revolving fund, and all receipts are credited against expenditures. The gross expenditures in both accounts during 1930, on a checks-issued basis, amounted to \$115,301.95. Credits to the accounts by repay-covering warrants were as follows: \$25,000, representing proceeds of disbursing officer's check drawn against appropriations for "Workhouse" and "Reformatory," fiscal year 1930, and \$131,404.49, representing sales of products, etc.

<sup>62</sup> This appropriation is used to reimburse the Department of Justice for the care and maintenance of boys of the District of Columbia committed to this school by the courts. The amounts covering such payments to

the Department of Justice are deposited by that department in the Treasury as miscellaneous receipts. "Reimbursement for maintenance of District of Columbia inmates in Federal penal and correctional institutions." See p. 44. Additional expenditures, for maintenance of this school, are shown under "Judicial," p. 185.

<sup>63</sup> Additional disbursements were made for this object under Department of the Interior, p. 149.

<sup>64</sup> Transferred from "Freedmen's Hospital, 1930" (Department of the Interior), act Mar. 4, 1929 (45 Stat. 1606), exclusive of \$1,000 transferred to "Contingent expenses, Department of the Interior, 1930," act Mar. 4, 1929 (45 Stat. 1563).

<sup>65</sup> Transferred from 1928-29 account, act Mar. 4, 1929 (45 Stat. 1644).

<sup>66</sup> See note 65.

<sup>1</sup> The differences between the unexpended balances in this column and those shown in the 1929 report are due primarily to the classification of special deposit accounts in this report according to general, special, and trust funds, respectively, whereas in the 1929 report special deposit accounts were stated in a separate group. Other differences are due to changes in classification. For example, in this report only the United States share of District of Columbia items are reported under the general fund, the District share being reported under trust funds.

<sup>2</sup> Exclusive of District of Columbia. Includes \$62,430.51 referred to in note 38, p. 323.

<sup>4</sup> Includes \$29,591,411.42 referred to in note 39, p. 323.  
<sup>5</sup> See special funds and trust funds statements, pp. 423, 425.  
<sup>6</sup> For details see p. 430.  
<sup>7</sup> Includes \$346,924.76 referred to in note 38, p. 337.  
<sup>8</sup> Includes \$6,758,531.86 referred to in note 39, p. 337.  
<sup>9</sup> On basis of face amount. Exclusive of \$634,296.88 premium on p. 258 under the title "Premium on the public debt." For complete statement see p. 411.

**GOLD RESERVE FUND**

On June 30, 1930, the gold reserve against United States notes and Treasury notes of 1890 was \$156,039,088.03. There was no change in this fund during the fiscal year 1930, the receipts on account of franchise tax on earnings of the Federal reserve banks and Federal intermediate credit banks having been used for retirement of the public debt as shown on page 410. The United States notes, for which this reserve is held, were outstanding in the amount of \$346,681,016, a sum which is fixed by law. When such notes are received they are reissued. The Treasury notes of 1890, for which this gold reserve is also held, were outstanding on June 30, 1930, in the amount of \$1,260,050, exclusive of \$1,500 held in Treasury offices. When such notes are received and retired they are not reissued.

## EXHIBIT I

Letter of the Postmaster General to the Secretary of the Treasury, dated October 18, 1930, certifying extraordinary expenditures contributing to the deficiency of postal revenues for the fiscal year ended June 30, 1930, in pursuance of Public Act No. 316, Seventy-first Congress, approved June 9, 1930 (40 Stat. 523)

OCTOBER 18, 1930.

MY DEAR MR. SECRETARY: In accordance with the provisions of the act of June 9, 1930, embodied in section 81½, Postal Laws and Regulations, the amounts set forth below with respect to certain mailings during the fiscal year ended June 30, 1930, are certified to you in order that they may be separately classified on the books of the Treasury Department in stating the expenditures made from the appropriation to supply the deficiency of postal revenues:
