In accordance with the requirements of the act of July 31, 1894, the receipts are classified, whenever practicable, by ports, districts, and States, and the expenditures by each separate head of appropriations.

The receipts, appropriations, and expenditures are also classified according to general, special, and trust funds, respectively. On page 12 will be found a condensed statement of the receipts and expenditures classified according to these fund distinctions.

The bases of the figures included in this report are explained in the Foreword appearing on pages 6 to 8.

Respectfully,

Hon. OGDEN L. MILLS,
Secretary of the Treasury.

A. M. SMITH,
Chief, Division of Bookkeeping and Warrants.

FOREWORD

BASES OF FIGURES INCLUDED IN THIS REPORT

RECEIPTS

Section 305 of the Revised Statutes (U. S. Code, title 31, sec. 147) provides that receipts for all moneys received by the Treasurer of the United States shall be indorsed upon warrants signed by the Secretary of the Treasury, without which warrants, so signed, no acknowledgment for money received into the Public Treasury shall be

valid. The receipts of the United States Government as published in this report are based upon warrants issued by the Secretary of the Treasury and represent the formal covering into the Treasury of the public moneys deposited in Treasury offices and Government depositaries during the fiscal year ended June 30, 1932.

EXPENDITURES

The expenditures in this report are exhibited on two different bases, namely: (1) Warrants issued and (2) checks issued.

(1) *Warrants-issued basis*.—Under the provisions of the act of September 2, 1789, which later became section 305 of the Revised Statutes, the expenditures of the United States Government are based upon warrants issued by the Secretary of the Treasury. From the organization of the Government in 1791, down to and including the fiscal year ended June 30, 1926, the detailed expenditures of the Government under separate heads of appropriations provided by Congress were exhibited on what is known as the "basis of warrants issued."

There are two classes of warrants upon which expenditures are made from the United States Treasury, viz, (a) accountable warrants, so called because disbursing officers must regularly account for expenditures thereunder, which are issued to place funds to the credit of disbursing officers on the books of the Treasurer of the United States, subject to their official check for the payment of Government obligations; and (b) settlement warrants, which authorize the Treasurer of the United States to make direct payments to claimants upon settlements of the accounting officers.

Accountable warrants are issued practically as a book-keeping expedient. They form the legal basis for charges against appropriation accounts upon the books of the Secretary of the Treasury and for corresponding credits to disbursing officers' checking accounts upon the books of the Treasurer of the United States, but do not involve an actual expenditure of cash from the Treasury at the time the warrants are issued. As far as the appropriation accounts upon the books of the Secretary of the Treasury are concerned, the warrants issued and charged thereto constitute expenditures on a *warrant* basis. To some extent, however, the money represented by such warrants is not actually expended during the fiscal year in which advanced to disbursing officers. The unexpended bal-

ances of funds in such cases are either used in the following fiscal year or returned by repay covering warrants to the appropriations from which advanced on the books of the Secretary. While the differences between the total expenditures on a warrant basis and a checks-issued basis are not material in cases where the unexpended balances to the credit of disbursing officers remain more or less constant from year to year, the former do not in all cases accurately reflect the trend of governmental expenditures, since they include unexpended balances remaining to the credit of disbursing officers at the end of the year but not expenditures from unexpended disbursing officers' balances at the beginning of the year. The expenditures on the basis of warrants issued in pursuance of section 305 of the Revised Statutes are shown in the fourth money column of this report beginning on page 80.

(2) *Checks-issued basis*.—In order to correct the situation described above an improved form of exhibiting the detailed expenditures of the Government was devised by the Treasury during the fiscal year 1927, under which expenditures are now shown on the basis of checks issued. This form excludes from expenditures moneys placed to the credit of disbursing officers by *warrant* which remain unexpended and to their official checking credit at the close of the fiscal year, and includes in expenditures all checks drawn by disbursing officers during the fiscal year 1932 against unexpended balances of moneys placed to their checking credit during the preceding fiscal year. In other words, the expenditures on the basis of checks issued as exhibited in this report represent all the checks drawn upon the Treasurer of the United States during the fiscal year 1932 in payment of Government obligations without regard to the fiscal year in which the funds may have been placed to the credit of disbursing officers by *warrant*. The detailed expenditures on the basis of checks issued are shown in the fifth money column of this report beginning on page 80.

APPROPRIATIONS

Article 1 (section 9) of the Constitution of the United States provides that no money shall be withdrawn from the Treasury but in consequence of appropriations made by law. The appropriations exhibited in this report are the amounts which, by law, Congress authorized to be

established upon the books of the Treasury during the fiscal year 1932. The figures necessarily differ somewhat from the appropriations exhibited in the annual "Digest of Appropriations, 1932," compiled by the Treasury Department, the "Statement of Appropriations for the

Seventy-first Congress, Third Session," Senate Document No. 334, prepared under the direction of the Committees on Appropriations of the Senate and House of Representatives, and the comparative statement of appropriations for the fiscal year 1932 contained in the annual "Budget, 1933," for several reasons as may be observed by a study of the "Accountability Statement of Appropriations by Acts of Congress," appearing on pages 426 to 430 of this report. These differences are due principally to (1) the difference in the time at which the different reports are compiled, and (2) special provisions and limitations enacted by Congress in appropriation acts in regard to the availability of the appropriations. For instance, the three documents mentioned above are compiled about the beginning of the fiscal year for which the appropriations are made, and, therefore, include *estimated* amounts to cover permanent and indefinite appropriations, whereas the Combined Statement of Receipts, Expenditures, Balances, etc., of the United States is compiled after the close of the fiscal year, and the figures in this report under such appropriations are *actual*. As to the time of the availability of appropriations it will be noted by reference to page 426 that of the total appropriations provided in the annual appropriation acts for the

fiscal year 1932, aggregating \$3,454,842,066.07, the sum of \$528,051,840.00 was made immediately available by Congress upon the dates of approval of the several acts, and therefore was established upon the books of the Treasury in the fiscal year 1931 instead of 1932. In like manner by the terms of the annual appropriation acts for 1933, aggregating \$3,145,772,899.22, the sum of \$18,121,963.00 was made immediately available upon the passage of such acts and, accordingly, was established upon the books of the Treasury during the fiscal year 1932. \$2,257,361.00 of the appropriations contained in the second deficiency act, fiscal year 1931, approved March 4, 1931 (not available until July 1, 1931), and \$124,563,670.68, first deficiency act, fiscal year 1932, approved February 2, 1932, were established upon the books of the Treasury during the fiscal year 1932, and, therefore, are included in this report. Other differences in appropriation figures are attributable to the fact that certain appropriations provided by Congress in the annual and deficiency appropriation acts are not payable from the general fund of the Treasury, but are provided for from postal revenues and from special funds hereinafter described.

SURPLUS FUND, ACT JUNE 20, 1874 (18 STAT. 110)

The term "Surplus Fund of the Treasury" as used by Congress in appropriation acts, and in the act of June 20, 1874 (U. S. Code, title 31, sec. 713), and by the Treasury Department in the heading of the sixth money column of this report, beginning on page 80, does not represent a physical fund consisting of surplus cash or other assets as the term would ordinarily imply in accounting terminology. The term as herein used has no relation to surplus income. It is merely an expression to describe the writing off of the books of appropriations which have been repealed, or the unexpended balances of appropriations which have lapsed by limitation of law.

Appropriations when made by Congress and established upon the books of the Treasury Department do not represent so much income or cash actually set aside in the Treasury for the purposes specified in the appropriation acts. Appropriations are established upon the books of the Treasury simply as *record accounts* and merely represent the limit to which administrative offices may obligate Government funds during the fiscal years specified in the appropriation acts, and as a general rule are based upon anticipated future tax collections and other receipts. It follows, therefore, that when appropriations, or unex-

pendent balances of appropriations, are carried to what is termed in the law the *surplus fund of the Treasury* it involves simply a matter of writing such appropriations off of the books without increasing the cash in the Treasury or affecting it in any manner. Under the act of Congress approved June 12, 1870, as amended by the act of June 20, 1874, cited herein, on the last day of each fiscal year the Treasury writes off the unexpended balances of appropriations that have remained on the books for two full fiscal years, in addition to the year in which they were established.

In contradistinction, the term "surplus" as used in connection with the receipts and expenditures of the Government, represents the ordinary receipts, i. e., customs duties, internal revenue, and miscellaneous, for a given period in excess of the expenditures chargeable against such receipts for the same period, usually for a fiscal year. (See p. 5.) There is no relation between the two terms described. The excess or surplus of the Government's receipts over its expenditures is not permitted to accumulate in the Treasury from year to year, but is used as promptly as conditions permit to reduce the public debt.

FUND DISTINCTIONS

The receipts, appropriations, and expenditures included in this report are classified according to funds, i. e., (1) general fund, (2) special funds, and (3) trust funds.

(1) *General fund*.—The principal sources of receipts covered into the general fund are income tax, miscellaneous internal revenue, and customs duties. Receipts from miscellaneous sources, which are not earmarked for special expenditures, are also covered into the general fund. Such receipts include proceeds of Government-owned securities (except those which are applicable to public-debt retirement), sale of surplus and condemned property, Panama Canal tolls, fees of various kinds, fines, penalties, forfeitures, rentals, royalties, reimburse-

ments, immigration head tax, sale of public land, tax on national-bank circulation, interest on public deposits, seigniorage on coinage of subsidiary silver and minor coins, etc.

Moneys in the general fund may be withdrawn from the Treasury only in pursuance of appropriations made by Congress. There are four classes of appropriations payable from the general fund of the Treasury, namely: (a) Annual, being those made each year in the several departmental supply bills and limited for obligation¹ during the fiscal year for which made; (b) continuing (no-year), being available until expended or until the object for which appropriated has been accomplished,

¹ The unexpended balances on the books of the Treasury, at the close of a fiscal year, under annual appropriations are available for two additional years for the payment of such obligations, after which they are carried to the surplus fund of the Treasury.

such as construction of public works; (c) permanent-specific, being fixed amounts provided for each of a series of years by permanent legislation without annual action of Congress; and (d) permanent-indefinite, being indefinite amounts (so much as may be necessary) provided by permanent legislation without annual action of Congress, such as the indefinite appropriation to cover interest on the public debt.

(2) *Special funds*.—Special-fund receipts may be generally defined as funds received under special authorizations of law which may be expended only for the particular purposes specified therein. Special-fund receipts are earmarked at the time of their deposit and may not be used for the general expenditures of the Government.

The more important special funds other than those applicable to debt retirement are the reclamation fund under the Department of the Interior, funds received for river and harbor improvements, Forest Service cooperative funds, proceeds from sales of ships, etc., by the United States Shipping Board available for construction loans, assessments on Federal reserve banks for salaries and expenses of the Federal Reserve Board, and assessments upon national banks for expenses of examinations.

There are many other special funds involving smaller amounts.

In connection with the collection and use of special fund receipts, it will be noted by reference to page 23, and following pages, that ready references are given to the pages on which the appropriations of such receipts may be found. These references will be found especially helpful in cases where Congress has designated in advance the use of receipts from particular sources to several different objects of expenditure on a *percentage* basis, such as in the case of Federal water-power receipts (p. 26), forest reserve fund receipts (p. 33), mineral leasing act receipts (p. 39), Alaska fund receipts (p. 46), and Coos Bay wagon-road grant fund receipts (p. 40).

(3) *Trust funds*.—Trust funds represent moneys received by the Government for the benefit of individuals or classes of individuals. Moneys held in trust, being payable to or for the use of beneficiaries only, are not available for general expenditures of the Government. There are several classes of trust funds, the beneficiaries under which may be either individuals or groups of individuals. The funds may represent (a) moneys received directly from or for account of individuals, as in the case of moneys received from foreign Governments or other sources in trust for citizens of the United States or others under the act of February 27, 1896 (U. S. Code, title 31, sec. 547); (b) moneys collected as revenues and held in trust, such as the proceeds of sales of Indian lands which are held as interest-bearing funds for the benefit of Indian tribes; and (c) proceeds of grants from the general fund of the Treasury in pursuance of treaty or treaty or other obligations such as the perpetual trust fund created for the Ute Indians under section 5 of the act of June 15, 1880 (21 Stat., p. 204). Revenues of the municipal government of the District of Columbia and expenditures therefrom, for the purpose of the classification of receipts and expenditures in this report, are classified under the caption "Trust funds." The share of the United States of expenditures on account of the District of Columbia, which is payable "out of any moneys in the Treasury not otherwise appropriated," is classified under the caption "General fund." In like manner expenditures under appropriations from the general fund of the Treasury for account of certain trust funds, such as the adjusted service certificate fund, civil-service retirement fund, and the foreign-service retirement fund, are classified under the caption "General fund." Variations in the working balances under these funds due to variations between credits and charges thereto are stated in connection with expenditures under the caption "Trust funds."

¹ Receipts credited direct to "Railroad" appropriations by repay covering warrants, during the fiscal year 1932.

² Exclusive of \$1,633,105.73 transferred from the checking account of the United States Shipping Board on the books of the Treasurer of the United States to the warrant account on the books of the Secretary of the Treasury, and covered into the Treasury by miscellaneous receipt covering warrant under the title, "Funds deposited for construction loan under section 11, merchant marine act, 1920, as amended, special fund." This transfer of funds from checking account to warrant account is merely an adjustment between accounts in this fiscal year of cash transactions occurring in prior fiscal years. Accordingly, the item has not been included in either the receipts or expenditures of this report, inasmuch as it did not affect the cash in the Treasury during the current fiscal year.

<p>(a) Under acts of Mar. 4, 1907 (34 Stat. 1270), Mar. 1, 1911 (36 Stat. 963), and June 30, 1914 (38 Stat. 441), 25 per cent of all money received from each national forest is paid to the State in which such forest is situated. The sum of \$1,240,608.99, representing 25 per cent of \$4,962,435.94 collected during 1931, as reported by the Department of Agriculture, was credited during the fiscal year 1932 to the appropriation account "Payments to States and Territories from the national forests fund," p. 126.</p> <p>(b) Under the act of June 20, 1910 (36 Stat. 562), such "proportion of the gross proceeds of all the national forests within said State as the area of land hereby granted to said State for school purposes, which are situate within said forest reserves * * * may bear to the total area of all the national forests within said State," is credited to the account "Payments to school funds, Arizona and New Mexico, national forests fund." In accordance with this provision, and upon the basis of reports from the Department of Agriculture, \$30,884.14 of the collections for the fiscal year 1931 was credited during the fiscal year 1932 to the appropriation account "Payments to school funds, Arizona and New Mexico, national forests fund," p. 126.</p> <p>(c) Under the act of Mar. 4, 1913 (37 Stat. 843), 10 per cent of the forests reserve fund receipts is available for the construction and maintenance of roads and trails within the national forests. The sum of \$496,243.59, representing 10 per cent of \$4,962,435.94 collected during 1931 as reported by the Department of Agriculture, was credited during the fiscal year 1932 to the appropriation "Roads and trails for States, national forests fund," p. 126.</p> <p>The necessity for basing the amounts credited to the above-mentioned special funds on collections reported by the Department of Agriculture for the preceding year, instead of upon covering warrants for the current year, is due to the fact that an accurate division of receipts can not be made until the amounts belonging to the school funds of Arizona and New Mexico, under (b) above, have been determined by the Department of Agriculture.</p>

⁹ Under the act of June 25, 1910 (36 Stat. 835), \$20,000,000 was advanced to the "Reclamation fund" from the general fund of the Treasury, \$10,000,000 of which has been returned from the "Reclamation fund" under the provisions of the act of June 12, 1917 (40 Stat. 149), which provided for the return of \$1,000,000 annually. The act of Feb. 6, 1931 (46 Stat. 1069), suspended this reimbursement of \$1,000,000 annually for a period of 2 years, beginning with the fiscal year ending June 30, 1931, hence no reimbursement was made to the general fund during the fiscal years 1931 and 1932. Under the act of Mar. 3, 1931 (46 Stat. 1507), \$5,000,000 additional was advanced from the general fund of the Treasury to the appropriation "Advances to the reclamation fund, reimbursable," p. 157, to be returned to the general fund of the Treasury from the reclamation fund at the rate of \$1,000,000 annually, beginning July 1, 1933. Sec. 10 of the act of Apr. 1, 1932 (47 Stat. 78), suspends this reimbursement to the general fund until July 1, 1934.

⁹ Of this amount \$11,903.08 was credited to the appropriation "Five per cent funds to States (lands)," p. 156, and \$104,217.69 to the "Reclamation fund," p. 157.

¹ Includes \$13,405.40 Philippine Islands tariff collections, as follows: Duties, \$2,598; tonnage, \$10,807.40; appropriated under "Philippine special fund" (customs), p. 277, and Philippine special fund, tonnage tax (commerce), p. 135.

NOTE.—The customs receipts as published in this report differ in some respects from the figures published in the report of the Commissioner of Customs because the latter represent collections by customs officers throughout the country, while the former (this report) represent the actual deposit of such collections in the Treasury and its depositories during the fiscal year 1932, the difference being due to the fact that some of the collections in the latter part of the fiscal year do not reach the Treasury or one of its depositories until after June 30.

² Includes \$7,614.31 income tax on Alaska railroads, appropriated under "Additional income tax on railroads in Alaska" (special fund), p. 280.

³ Of this amount \$362,367.72 is Philippine Island revenues and \$1,461.75 United States revenues. Additional collections from sale of stamps affixed to products from the Philippine Islands were made and are included in the foregoing statement under the following districts: First California, \$218.23; Washington, \$51.32; Hawaii, \$1,362.78; first Illinois, \$33.62 and Indiana, \$0.75, making a total of \$364,034.42 Philippine Islands internal-revenue receipts covered by warrants issued during the fiscal year 1932 and appropriated under "Philippine special fund" (internal revenue), p. 280.

NOTE.—The internal-revenue receipts as published in this report differ in some respects from the figures published in the report of the Commissioner of Internal Revenue because the latter represent collections by Internal revenue officers throughout the country, including amounts received through postmasters and customs officers, while the former (this report) represent the actual deposit of such collections in the Treasury and its depositories during the fiscal year 1932, the difference being due to the fact that some of the collections in the latter part of the fiscal year do not reach the Treasury or one of its depositories until after June 30.

⁷³ Exclusive of \$3,900,368.84 transferred from this account to Construction Loan Fund, Special Fund, but not expended during the fiscal year 1932.

⁷⁴ Includes the sum of \$3,900,368.84 referred to in note 73.

⁷⁵ Includes the amount of warrants drawn against this appropriation and deposited to the credit of the U. S. Shipping Board Merchant Fleet Corporation (checking account), as shown below.

⁷⁶ Transferred from 1931 account, act Feb. 23, 1931 (46 Stat. 1372).

⁷⁷ Transferred to 1932 account. See note 76.

⁷⁸ Includes \$1,633,105.73 transferred from the checking account of the U. S. Shipping Board on the books of the Treasurer of the United States to the warrant account on the books of the Secretary of the Treasury and covered into the Treasury by miscellaneous receipt covering warrant under the title "Funds deposited for construction loans under sec. 11, merchant marine act, 1920, special fund."

This transfer of \$1,633,105.73 from checking account to warrant account is merely an adjustment between accounts in this fiscal year of cash transactions occurring in prior fiscal years; accordingly, the amount has not been included in either the receipts or expenditures of this report, inasmuch as it did not affect the cash in the Treasury during the current fiscal year.

⁷⁹ The sum of \$3,900,368.84 transferred to this account from the Construction Loan Fund, General Fund, as explained in note 73, was not in this report credited against the expenditures in this account inasmuch as the funds were not actually expended. The total expenditures for this fund, including the general and special fund accounts on a checks-issued basis for the fiscal year 1932, amounted to \$46,215,051.23.

⁸⁰ The unexpended balance of \$3,900,368.84 in this account on June 30, 1932, representing unexpended moneys transferred from the appropriated fund, is included in the unexpended balance of the appropriated fund. See notes 73 and 74.

⁸¹ Exclusive of \$1,633,105.73 referred to in Note 78 as transferred to warrant account.

⁸² Revenues from sales of ships, land, buildings, etc., are deposited in the checking account of the U. S. Shipping Board Merchant Fleet Corporation and operate as credits against expenditures. The proceeds of warrants issued on account of the appropriation "United States Shipping Board" are also deposited in and expended from this account.

⁸³ Exclusive of funds in depositories other than the Treasury of the United States.

⁸⁴ Exclusive of \$185 transferred to same object under Department of Commerce, Bureau of the Census, act May 21, 1920 (41 Stat. 613).

⁷ See also account stated on p. 110 for expenditures under appropriation from the general fund of the Treasury.
⁸ This debit balance is merely a bookkeeping item arising from the adoption of a special and practical working procedure for the purpose of handling the funds required for the purpose of making loans to veterans under the Emergency Adjusted Compensation Act of Feb. 17, 1931, and is offset by \$121,800,000 face amount of special 4 per cent obligations held for account of the fund on June 30, 1931. Under this procedure securities held in the investment account of the fund are redeemed and the proceeds credited to this account on the basis of checks paid by the Treasurer instead of in advance on the basis of requisitions submitted to the Treasury for disbursing credits. See annual report of the Secretary of the Treasury for the fiscal year ended June 30, 1931, p. 118.
⁹ For appropriation of \$20,850,000 from the general fund of the Treasury for financing the liability of the United States, and the \$150,000 for the District of Columbia, act Feb. 23, 1931 (46 Stat. 1380), see pp. 110, 368.

POST OFFICE DEPARTMENT

⁶⁰ Heretofore stated under "Special deposit accounts," General fund.

⁶¹ "General Account of Advances" is an accounting fund established as a means of handling naval appropriations pursuant to the provisions contained in the act of June 19, 1878 (20 Stat. 167). Advances of funds are made to disbursing officers and agents of the Navy, under this fund, not to exceed the total appropriations of the Navy, the amounts so advanced to be exclusively used to pay current obligations. The amounts advanced are subsequently charged to the proper appropriations and returned to "General Account of Advances" by pay and counter warrant, based upon settlements of accounts by the Comptroller General of the United States, the said charge, however, to particular appropriations being limited to the amount appropriated to each.

⁶² Debit balance.

⁶³ See note 60.

¹ For Postal Service payable from postal revenues, see p. 442.

² Transferred from "Individual records of civil service retirement and disability fund deductions, 1931-32," act July 3, 1930 (46 Stat. 862).

³ Includes \$700 transferred from "Contingent expenses, Post Office Department, Stationery, 1932", act Mar. 4, 1931 (46 Stat. 1553), and \$2,500 transferred from "Individual records of civil service retirement and disability fund deductions, 1931-32", act July 3, 1930 (46 Stat. 862).

⁴ Includes \$1,500 transferred from "Individual records of civil service retirement and disability fund deductions, 1931-32", act July 3, 1930 (46 Stat. 862), and excludes \$700 transferred to "Contingent expenses, Post Office Department, Miscellaneous items, 1932", act Mar. 4, 1931 (46 Stat. 1553).

⁵ For classification of extraordinary expenditures contributing to the deficiency in postal revenues for the fiscal year ended June 30, 1932, see Exhibit 1, p. 445.

WAR DEPARTMENT

⁷ Reestablished from the surplus fund, act Mar. 3, 1875 (18 Stat. 418, sec. 5).
⁸ Included under "Salaries, War Department," a new chapter set up in the fiscal year 1932 for budget purposes.
⁹ "Army Account of Advances" is an accounting fund established as a means of handling Army appropriations pursuant to the provisions contained in the act of June 5, 1920 (41 Stat. 975). Advances of funds are made to disbursing officers and agents of the Army, under this fund, not to exceed the total appropriations for the Army, the amounts so advanced to be exclusively used to pay obligations lawfully payable under the respective appropriations. The amounts advanced are subsequently charged to the proper appropriations

and returned to "Army Account of Advances" by pay and counter warrants, based upon settlements of accounts by the Comptroller General of the United States, the said charge, however, to particular appropriations being limited to the amount appropriated to each. This account stands charged with the sum of \$10,154,618.52 at the beginning of the fiscal year 1932, and \$9,510,960.45 at the close of the year, which amounts represent the unadjusted disbursements on a warrants-issued basis and affect the total balances, War Department.
¹⁶ Debit balance.
¹⁷ Returned from same object under Department of Justice. See note 18.
¹⁸ See note 17.

¹² The disbursing officer's balance under this appropriation has been deposited in the Treasury, under decision of the Comptroller General, dated Apr. 20, 1931 (A-18222), as follows:

Under Treasury Department (see pp. 66 and 317)—	
Miscellaneous receipts—	
“Funds to pay matured obligations of the District of Columbia” (trust fund) - \$110,383.95	
Under District of Columbia (see p. 70)—	
Miscellaneous receipts—	
“Reimbursement of expenses in suit, Supreme Court of District of Columbia” (in connection with old indebtedness of the District) (50/50).....	385.25
“Forfeitures, guaranty deposits,” (in connection with old indebtedness of the District of Columbia) (50/50).....	238.39
	<u>111,007.59</u>

The remainder of said disbursing officer's balance has been credited back to this appropriation by repay covering warrant and carried to the surplus fund (general fund) of the Treasury.

¹³ Exclusive of \$67,400 transferred to this appropriation (trust fund) from “Arlington Memorial Bridge” (general fund), under “Independent offices,” p. 93, in accordance with acts of Feb. 23, 1931 (Independent Offices and District of Columbia) (46 Stat. 1356, 1357). Said transfer was charged as general-fund expenditures, under “Independent offices” at the time it was effected, and corresponding credit given to trust-fund expenditures, under “District of Columbia,” such credit being subsequently offset by checks drawn against the District trust fund in connection with payments to creditors of the District of Columbia.

¹⁴ Includes \$118,673.81 transferred from 1931 account, act Feb. 23, 1931 (46 Stat. 1389), and excludes \$1,031.97 transferred to “Municipal Architect's Office, construction services”, act Feb. 23, 1931 (46 Stat. 1370).

¹⁵ Transferred to 1931-32 account. See note 14.

DISTRICT OF COLUMBIA

²² Provided for under "Jail, District of Columbia, 1932."

²³ Exclusive of \$52,330.33 transferred to 1931-32 account, act Feb. 23, 1931 (46 Stat. 1404).

²⁴ Transferred from "No year" account. See note 33.

²⁵ This is a revolving fund for the fiscal year indicated. Receipts of \$96,425.27 from sales of surplus products and services to departments and institutions of the District and Federal Governments were credited by repay covering warrants during 1932 against gross expenditures of \$140,130.55 on a warrant-issued basis, for purchase of machinery and raw materials and payment to inmates or their dependents of pecuniary earnings.

²⁶ Transferred to "Furniture and equipment, Nurses' Home, Gallinger Municipal Hospital, District of Columbia, 1932," act Feb. 23, 1931 (46 Stat. 1406).

²⁷ This appropriation is expended for the cost of care and maintenance of inmates who have been committed to this school by courts of the District of Columbia, such amounts being deposited in the Treasury as miscellaneous receipts, Department of Justice, "Reimbursement for maintenance of District of Columbia inmates in Federal penal and correctional institutions," under act of Apr. 29, 1926 (44 Stat. 347). For appropriation for the maintenance of this school, under the Department of Justice, see p. 224.

²⁸ Exclusive of \$193,500 transferred to this appropriation (trust fund) from "Freedmen's Hospital, 1932" (general fund), under "Department of the Interior," p. 163, being amount chargeable to the United States (50 per cent) under appropriation of \$387,000 made for this object in Department of the Interior act Feb. 14, 1931 (46 Stat. 1160). Said transfer was charged as general-fund expenditures, under the said department, at the time it was effected, and corresponding credit given to trust-fund expenditures, under "District of Columbia," such credit being subsequently offset by checks drawn against the District trust fund in connection with payments to creditors of the District of Columbia. The warrant-expenditures under "District of Columbia" include \$500 transferred from this appropriation to "Contingent expenses, Department of the Interior, 1932," (general fund), p. 153, act Feb. 14, 1931 (46 Stat. 1116), an equal amount having been transferred to the latter appropriation from "Freedmen's Hospital, 1932," (general fund under Department of the Interior).

²⁹ Transferred from 1931 account, act Mar. 4, 1931 (46 Stat. 1571).

⁴⁰ Transferred to 1931-32 account. See note 39.

⁴¹ Includes \$7,680 transferred from "Providence Hospital, isolating ward, District of Columbia, 1932," act Feb. 2, 1932 (47 Stat. 10).
