In accordance with the requirements of the act of July 31, 1894, the receipts are classified, whenever practicable, by ports, districts, and States, and the expenditures by each separate head of appropriation.

The receipts, appropriations, and expenditures are also classified according to general, special, and trust funds, respectively. On page 12 will be found a condensed statement of the receipts and expenditures classified according to these fund distinctions.

The bases of the figures included in this report are explained in the Foreword appearing on pages 6 to 8.

Respectfully,

A. M. SMITH,
Chief, Division of Bookkeeping and Warrants.

Hon. H. MORGENTHAU, JR.,
Acting Secretary of the Treasury.

¹ Deficit on basis of daily Treasury statement (unrevised) was \$3, 068, 266, 873. 58.
² Represents net payments, on basis of daily Treasury statements (revised), from credit established on account of the purchase by the Secretary of the Treasury of the obligations of the Reconstruction Finance Corporation under sec. 9 of the Reconstruction Finance Corporation Act.

FOREWORD

BASES OF FIGURES INCLUDED IN THIS REPORT

RECEIPTS

Section 305 of the Revised Statutes (U.S. Code, title 31, sec. 147) provides that receipts for all moneys received by the Treasurer of the United States shall be endorsed upon warrants signed by the Secretary of the Treasury, without which warrants, so signed, no acknowledgment for money received into the Public Treasury shall be valid.

The receipts of the United States Government as published in this report are based upon warrants issued by the Secretary of the Treasury and represent the formal covering into the Treasury of the public moneys deposited in Treasury offices and Government depositories during the fiscal year ended June 30, 1933.

EXPENDITURES

The expenditures in this report are exhibited on two different bases, namely: (1) Warrants issued and (2) checks issued.

(1) *Warrants-issued basis.*—Under the provisions of the act of September 2, 1789, which later became section 305 of the Revised Statutes, the expenditures of the United States Government are based upon warrants issued by the Secretary of the Treasury. From the organization of the Government in 1789, down to and including the fiscal year ended June 30, 1926, the detailed expenditures of the Government under separate heads of appropriations provided by Congress were exhibited on what is known as the "basis of warrants issued."

There are two classes of warrants upon which expenditures are made from the United States Treasury; viz, (a) accountable warrants, so called because disbursing officers must regularly account for expenditures thereunder, which are issued to place funds to the credit of disbursing officers on the books of the Treasury of the United States, subject to their official check for the payment of Government obligations; and (b) settlement warrants, which authorize the Treasurer of the United States to make direct payments to claimants upon settlements of the accounting officers.

Accountable warrants are issued practically as a book-keeping expedient. They form the legal basis for charges against appropriation accounts upon the books of the Secretary of the Treasury and for corresponding credits to disbursing officers' checking accounts upon the books of the Treasurer of the United States, but do not involve an actual expenditure of cash from the Treasury at the time the warrants are issued. As far as the appropriation accounts upon the books of the Secretary of the Treasury are concerned, the warrants issued and charged thereto constitute expenditures on a *warrant* basis. To some extent, however, the money represented by such warrants is not actually expended during the fiscal year in which advanced to disbursing officers. The unexpended bal-

ances of funds in such cases are either used in the following fiscal year or returned by repay covering warrants to the appropriations from which advanced on the books of the Secretary. While the differences between the total expenditures on a warrant basis and a checks-issued basis are not material in cases where the unexpended balances to the credit of disbursing officers remain more or less constant from year to year, the former do not in all cases accurately reflect the trend of governmental expenditures, since they include unexpended balances remaining to the credit of disbursing officers at the end of the year but not expenditures from unexpended disbursing officers' balances at the beginning of the year. The expenditures on the basis of warrants issued in pursuance of section 305 of the Revised Statutes are shown in the fourth money column of this report beginning on page 81.

(2) *Checks-issued basis.*—In order to correct the situation described above an improved form of exhibiting the detailed expenditures of the Government was devised by the Treasury during the fiscal year 1927, under which expenditures are now shown on the basis of checks issued. This form excludes from expenditures moneys placed to the credit of disbursing officers by *warrant* which remain unexpended and to their official checking credit at the close of the fiscal year, and includes in expenditures all checks drawn by disbursing officers during the fiscal year 1933 against unexpended balances of moneys placed to their checking credit during the preceding fiscal year. In other words, the expenditures on the basis of checks issued as exhibited in this report represent all the checks drawn upon the Treasurer of the United States during the fiscal year 1933 in payment of Government obligations without regard to the fiscal year in which the funds may have been placed to the credit of disbursing officers by *warrant*. The detailed expenditures on the basis of checks issued are shown in the fifth money column of this report beginning on page 81.

APPROPRIATIONS

Article 1 (sec. 9) of the Constitution of the United States provides that no money shall be withdrawn from the Treasury but in consequence of appropriations made by law. The appropriations exhibited in this report are

the amounts which, by law, Congress authorized to be established upon the books of the Treasury during the fiscal year 1933. The figures necessarily differ somewhat from the appropriations exhibited in the annual "Digest

of Appropriations, 1933," compiled by the Treasury Department, the "Statement of Appropriations for the Seventy-second Congress, First Session," Senate Document No. 139, prepared under the direction of the Committees on Appropriations of the Senate and House of Representatives, and the comparative statement of appropriations for the fiscal year 1933 contained in the annual "Budget, 1933", for several reasons as may be observed by a study of the "Accountability Statement of Appropriations by Acts of Congress", appearing on pages 392 to 397 of this report. These differences are due principally to (1) the difference in the time at which the different reports are compiled, and (2) special provisions and limitations enacted by Congress in appropriation acts in regard to the availability of the appropriations. For instance, the three documents mentioned above are compiled about the beginning of the fiscal year for which the appropriations are made, and, therefore, include *estimated* amounts to cover permanent and indefinite appropriations, whereas the Combined Statement of Receipts, Expenditures, Balances, etc., of the United States is compiled after the close of the fiscal year, and the figures in this report under such appropriations are *actual*. As to the time of the availability of appropriations it will be noted by reference to page 392 that of the total appropriations provided in the annual appropriation acts for the fiscal year 1933, aggregating \$3,145,772,899.22, the sum of \$18,121,963 was made immediately available by

Congress upon the dates of approval of the several acts, and therefore was established upon the books of the Treasury in the fiscal year 1932 instead of 1933. In like manner by the terms of the annual appropriation acts for 1934 aggregating \$2,541,373,998.67, the sum of \$496,366,530 was made immediately available upon the passage of such acts and, accordingly, was established upon the books of the Treasury during the fiscal year 1933. Appropriations contained in the Second Deficiency Act, fiscal year 1932, approved July 1, 1932, \$22,682,623.20; the First Deficiency Act, fiscal year 1933, approved January 30, 1933, \$3,756,535.72; Second Deficiency Act, fiscal year 1933, approved March 4, 1933, \$31,985,685.12 (exclusive of \$2,150 not available until July 1, 1933); Third Deficiency Act, fiscal year 1933, approved May 29, 1933, \$994,597.55 (exclusive of \$22,275 not available until July 1, 1933); Fourth Deficiency Act, fiscal year 1933, approved June 16, 1933, \$3,610,082,630.04 (exclusive of \$16,901,910 not available until July 1, 1933) were established upon the books of the Treasury during the fiscal year 1933 and, therefore, are included in this report. Other differences in appropriation figures are attributable to the fact that certain appropriations provided by Congress in the annual and deficiency appropriation acts are not payable from the general fund of the Treasury, but are provided for from postal revenues and from special funds hereinafter described.

SURPLUS FUND

Act June 20, 1874 (18 Stat. 110)

The term "Surplus fund of the Treasury" as used by Congress in appropriation acts, and in the act of June 20, 1874 (U.S.C. title 31, sec. 713), and by the Treasury Department in the heading of the sixth and seventh money columns of this report, beginning on page 81, does not represent a physical fund consisting of surplus cash or other assets as the term would ordinarily imply in accounting terminology. The term as herein used has no relation to surplus income. It is merely an expression to describe the writing off of the books of appropriations which have been repealed, or the unexpended balances of appropriations which have lapsed by limitation of law.

Appropriations when made by Congress and established upon the books of the Treasury Department do not represent so much income or cash actually set aside in the Treasury for the purposes specified in the appropriation acts. Appropriations are established upon the books of the Treasury simply as *record accounts* and merely represent the limit to which administrative offices may obligate Government funds during the fiscal years specified in the appropriation acts, and as a general rule are based upon anticipated future tax collections and other receipts. It follows, therefore, that when appropriations, or unex-

pendent balances of appropriations, are carried to what is termed in the law the *surplus fund of the Treasury* it involves simply a matter of writing such appropriations off of the books without increasing the cash in the Treasury or affecting it in any manner. Under the act of Congress approved June 12, 1870, as amended by the act of June 20, 1874, cited herein, on the last day of each fiscal year the Treasury writes off the unexpended balances of appropriations that have remained on the books for two full fiscal years, in addition to the year in which they were established.

In contradistinction, the term "surplus" as used in connection with the receipts and expenditures of the Government, represents the ordinary receipts, i.e., customs duties, internal revenue, and miscellaneous, for a given period in excess of the expenditures chargeable against such receipts for the same period, usually for a fiscal year. (See p. 5.) There is no relation between the two terms described. The excess or surplus of the Government's receipts over its expenditures is not permitted to accumulate in the Treasury from year to year, but is used as promptly as conditions permit to reduce the public debt.

IMPOUNDED SALARY SAVINGS

Impounded salary savings as stated in the seventh money column of this report beginning on page 81, under the heading, "Amount Carried to the Surplus Fund", are the savings made as a result of the furlough

and compensation deductions provided for by section 110 of act approved June 30, 1932 (47 Stat. 403), as amended by section 4 (d) title II, act of March 20, 1933 (48 Stat. 13).

RESERVE FOR IMPOUNDED SALARY SAVINGS

The reserve for impounded salary savings as stated in the eighth money column of this report beginning on page 81, represents the amounts credited to this account

by the suspension of filling vacancies under the provisions of section 203, act June 30, 1932 (47 Stat. 403).

The impounding of such funds may be waived in writing by the President, when, in his judgment, such action is necessary and in the public interest.

The unexpended balances remaining under these accounts will be carried to the "Surplus fund of the Treasury" after the net amounts to be impounded and returned to the Treasury have been actually determined.

FUND DISTINCTIONS

The receipts, appropriations, and expenditures included in this report are classified according to funds, i. e., (1) general fund, (2) special funds, and (3) trust funds.

(1) *General fund.*—The principal sources of receipts covered into the general fund are income tax, miscellaneous internal revenue, and customs duties. Receipts from miscellaneous sources, which are not earmarked for special expenditures, are also covered into the general fund. Such receipts include proceeds of Government-owned securities (except those which are applicable to public-debt retirement), sale of surplus and condemned property, Panama Canal tolls, fees of various kinds, fines, penalties, forfeitures, rentals, royalties, reimbursements, immigration head tax, sale of public land, tax on national-bank circulation, interest on public deposits, seigniorage on coinage of subsidiary silver and minor coins, etc.

Moneys in the general fund may be withdrawn from the Treasury only in pursuance of appropriations made by Congress. There are four classes of appropriations payable from the general fund of the Treasury, namely: (a) Annual, being those made each year in the several departmental supply bills and limited for obligation¹ during the fiscal year for which made; (b) continuing (no-year), being available until expended or until the object for which appropriated has been accomplished, such as construction of public works; (c) permanent-specific, being fixed amounts provided for each of a series of years by permanent legislation without annual action of Congress; and (d) permanent-indefinite, being indefinite amounts (so much as may be necessary) provided by permanent legislation without annual action of Congress, such as the indefinite appropriation to cover interest on the public debt.

(2) *Special funds.*—Special-fund receipts may be generally defined as funds received under special authorizations of law which may be expended only for the particular purposes specified therein. Special-fund receipts are earmarked at the time of their deposit and may not be used for the general expenditures of the Government.

The more important special funds other than those applicable to debt retirement are the reclamation fund under the Department of the Interior, funds received for river and harbor improvements, Forest Service cooperative funds, proceeds from sales of ships, etc., by the United States Shipping Board available for construction loans, assessments on Federal reserve banks for salaries and expenses of the Federal Reserve Board, and assessments upon national banks for expenses of examinations.

There are many other special funds involving smaller amounts.

In connection with the collection and use of special fund receipts, it will be noted by reference to page 23, and following pages, that ready references are given to the pages on which the appropriations of such receipts may be found. These references will be found especially helpful in cases where Congress has designated in advance the use of receipts from particular sources to several different objects of expenditure on a *percentage* basis, such as in the case of Federal water-power receipts (p. 27), forest reserve fund receipts (p. 34), mineral leasing act receipts (p. 40), Alaska fund receipts (p. 47), and Coos Bay wagon-road grant fund receipts (p. 41).

(3) *Trust funds.*—Trust funds represent moneys received by the Government for the benefit of individuals or classes of individuals. Moneys held in trust, being payable to or for the use of beneficiaries only, are not available for general expenditures of the Government. There are several classes of trust funds, the beneficiaries under which may be either individuals or groups of individuals. The funds may represent (a) moneys received directly from or for account of individuals, as in the case of moneys received from foreign Governments or other sources in trust for citizens of the United States or others under the act of February 27, 1896 (U.S.C. title 31, sec. 547); (b) moneys collected as revenues and held in trust, such as the proceeds of sales of Indian lands which are held as interest-bearing funds for the benefit of Indian tribes; and (c) proceeds of grants from the general fund of the Treasury in pursuance of treaty or other obligations such as the perpetual trust fund created for the Ute Indians under section 5 of the act of June 15, 1880 (21 Stat., p. 204). Revenues of the municipal government of the District of Columbia and expenditures therefrom, for the purpose of the classification of receipts and expenditures in this report, are classified under the caption "Trust funds." The share of the United States of expenditures on account of the District of Columbia, which is payable "out of any moneys in the Treasury not otherwise appropriated", is classified under the caption "General fund." In like manner expenditures under appropriations from the general fund of the Treasury for account of certain trust funds, such as the adjusted service certificate fund, civil service retirement fund, and the Foreign Service retirement fund, are classified under the caption "General fund." Variations in the working balances under these funds due to variations between credits and charges thereto are stated in connection with expenditures under the caption "Trust funds."

¹ The unexpended balances on the books of the Treasury, at the close of a fiscal year, under annual appropriations are available for 2 additional years for the payment of such obligations, after which they are carried to the surplus fund of the Treasury.

¹ This statement does not include moneys covered into the Treasury on account of the Farm Credit Administration pursuant to the procedure prescribed by the Comptroller General of the United States, representing unexpended balances of funds allocated by the Reconstruction Finance Corporation to the Secretary of Agriculture and subsequently transferred by the Secretary of Agriculture to the Farm Credit Administration under Executive Order No. 6084 dated Mar. 27, 1933. Since such transactions represent merely the transfer of funds between two governmental organizations, they are not included in either the receipts or expenditures of this report. Collections on account of the revolving fund of the Farm Credit Administration, created by sec. 5 of the Farm Credit Act of 1933 approved June 16, 1933, while covered into the Treasury as receipts for accounting purposes.

² Includes \$134,176.33 Housing Corporation receipts.

<p>(a) Under acts of Mar. 4, 1907 (34 Stat. 1270), Mar. 1, 1911 (36 Stat. 963), and June 30, 1914 (38 Stat. 441), 25 percent of all money received from each national forest is paid to the State in which such forest is situated. The sum of \$568,256.51 representing 25 percent of \$2,273,026.03 collected during 1932, as reported by the Department of Agriculture, was credited during the fiscal year 1933 to the appropriation account "Payments to States and Territories from the national forests fund", p. 125.</p> <p>(b) Under the act of June 20, 1910 (36 Stat. 562), such "proportion of the gross proceeds of all the national forests within said State as the area of land hereby granted to said State for school purposes, which are situate within said forest reserves * * * may bear to the total area of all the national forests within said State", is credited to the account "Payments to school funds, Arizona and New Mexico, national forests fund." In accordance with this provision, and upon the basis of reports from the Department of Agriculture, \$21,221.30 of the collections for the fiscal year 1932 was credited during the fiscal year 1933 to the appropriation account "Payments to school funds, Arizona and New Mexico, national forests fund", p. 125.</p> <p>(c) Under the act of Mar. 4, 1913 (37 Stat. 843), 10 percent of the forests reserve fund receipts is available for the construction and maintenance of roads and trails within the national forests. The sum of \$227,302.60, representing 10 percent of \$2,273,026.03 collected during 1932 as reported by the Department of Agriculture, was credited during the fiscal year 1933 to the appropriation "Roads and trails for States, national forests fund", p. 125.</p> <p>The necessity for basing the amounts credited to the above-mentioned special funds on collections reported by the Department of Agriculture for the preceding year, instead of upon covering warrants for the current year, is due to the fact that an accurate division of receipts cannot be made until the amounts belonging to the school funds of Arizona and New Mexico, under (b) above, have been determined by the Department of Agriculture.</p>

¹⁷ Under the act of June 25, 1910 (36 Stat. 835), \$20,000,000 was advanced to the "Reclamation fund" from the general fund of the Treasury, \$10,000,000 of which has been returned from the "Reclamation fund" under the provisions of the act of June 12, 1917 (40 Stat. 149), which provided for the return of \$1,000,000 annually. The act of Feb. 6, 1931 (46 Stat. 1069), suspended this reimbursement of \$1,000,000 annually for a period of 2 years, beginning with the fiscal year ending June 30, 1931, hence no reimbursement was made to the general fund during the fiscal years 1931 and 1932. Under the act of Mar. 3, 1931 (46 Stat. 1507), \$5,000,000 additional was advanced from the general fund of the Treasury to the appropriation "Advances to the reclamation fund, reimbursable," to be returned to the general fund of the Treasury from the reclamation fund at the rate of \$1,000,000 annually beginning July 1, 1933. Sec. 10 of the act of Apr. 1, 1932 (47 Stat. 78), suspends this reimbursement to the general fund until July 1, 1934.

¹⁸ Of this amount \$9,010.54 was credited to the appropriation "Five-percent funds to States (lands)", p. 152, and \$59,894.24 to the "Reclamation fund", p. 153.

NOTE.—The customs receipts as published in this report differ in some respects from the figures published in the report of the Commissioner of Customs because the latter represent collections by customs officers throughout the country, while the former (this report) represent the actual deposit of such collections in the Treasury and its depositories during the fiscal year 1932, the difference being due to the fact that some of the collections in the latter part of the fiscal year do not reach the Treasury or one of its depositories until after June 30.

¹ Includes \$4,262.03 income tax on Alaska railroads, appropriated under "Additional income tax on railroads in Alaska" (special fund), p. 259.

² Of this amount \$349,374.50 is Philippine Islands revenues and \$1,054.25 United States revenues. Additional collections from sale of stamps affixed to products from the Philippine Islands were made and are included in the foregoing statement under the following districts: First California, \$157.37; Washington, \$22.42; Hawaii, \$436.47; first Illinois, \$0.36, making a total of \$349,991.12 Philippine Islands internal-revenue receipts covered by warrants issued during the fiscal year 1933 and appropriated under "Philippine special fund" (internal revenue), p. 259.

NOTE.—The internal-revenue receipts as published in this report differ in some respects from the figures published in the report of the Commissioner of Internal Revenue because the latter represent collections by Internal Revenue officers throughout the country, including amounts received through postmasters and customs officers, while the former (this report) represent the actual deposit of such collections in the Treasury and its depositories during the fiscal year 1932, the difference being due to the fact that some of the collections in the latter part of the fiscal year do not reach the Treasury or one of its depositories until after June 30.

¹ Exclusive of related items shown on p. 79 under "Other items."² See operations under "Other items," p. 80.⁴ Expenditures from "Army account of advances" on account of the Emergency Conservation fund, amounting to \$14,239,529.61, were included in the expenditures of the War Department in daily Treasury statements for the fiscal year 1933, the transfer and counter adjustments between Army account of advances and the Emergency Conservation fund not having reached the Treasury until after the close of the fiscal year 1933. The warrants in such cases, however, were dated June 30, 1933, which accounts for the difference in the classification of the expenditures on a checks-issued basis included in this report and the cash expenditures as published in daily Treasury statements under the classifications pertaining to the War Department and independent offices, respectively.⁵ See p. 117 for complete statement of account.

 47 The foregoing statement does not include moneys covered into the Treasury on account of the Farm Credit Administration pursuant to the procedure prescribed by the Comptroller General of the United States,

representing unexpended balances of funds allocated by the Reconstruction Finance Corporation to the Secretary of Agriculture and subsequently transferred by the Secretary of Agriculture to the Farm Credit Administration under Executive Order No. 6084 dated Mar. 27, 1933. Since such transactions represent merely the transfer of funds between 2 governmental organizations, they are not included in either the receipts or expenditures of this report. Collections on account of the revolving fund of the Farm Credit Administration, created by sec. 5 of the Farm Credit Act of 1933 approved June 16, 1933, while covered into the Treasury as receipts for accounting purposes, are reflected in this report as credits against expenditures of the revolving fund.
 For additional transactions under sundry appropriations following, and prior to the creation of the Farm of Agriculture, see Federal Farm Board, p. 99, Federal Farm Loan Board, p. 256, and Department of Agriculture, p. 131.
 48 Transferred, act Mar. 3, 1933 (47 Stat. 1517), and Executive Order No. 6084 of Mar. 27, 1933, from accounts as follows:
 Administrative expenses, Federal Farm Board, 1933..... \$98,081.31

⁹ Includes \$3,800,000 transferred from "Military and naval compensation, Veterans' Administration, 1933 and prior", and excludes \$500,000 transferred to "Navy pensions, 1933", act June 30, 1932 (47 Stat. 411, 471).

¹⁰ Includes \$1,389,180.44 transferred, act June 30, 1932 (47 Stat. 411, 471), from accounts as follows:

Military and naval compensation, Veterans' Administration, 1933 and prior.....	\$325,000.00
Army pensions, 1933.....	500,000.00
Navy pension fund, interest (Navy).....	264,180.44

¹¹ Of the appropriation of \$225,850,000 provided for Army and Navy pensions for the fiscal year 1933, \$13,460,000 was appropriated for "Navy pensions, 1933." The law provides that the appropriation for Navy pensions shall be paid from the income of the Navy pension fund, so far as the same shall be sufficient for that purpose. Inasmuch as the appropriation was credited with \$264,180.44 transferred from "Navy pension fund, interest" (Navy) in excess of the \$13,460,000 provided for Navy pensions, the general fund of the Treasury is reimbursed by the amount carried to the surplus fund.

¹² Reestablished from the surplus fund, act Mar. 3, 1875 (18 Stat. 418, sec. 5).

¹³ Returned from same object under Treasury Department.

¹⁴ Returned to same object under Veterans' Administration. See note 13.

¹⁵ Returned, under act of Apr. 19, 1930 (46 Stat. 247), from departments as follows:

Navy Department, 1931 and prior.....	* \$257.35
Treasury Department, Public Health Service, 1931 and prior.....	811.00
War Department, 1931 and prior.....	99.46

¹⁶ Returned to same object under Veterans' Administration. See note 15.

¹⁷ Transferred to "National Home for Disabled Volunteer Soldiers, Western Branch, 1931", act May 28, 1930 (46 Stat. 466).

¹¹ Transferred from 1932 account, act July 7, 1932 (47 Stat. 635, 645).

¹² Transferred to 1932-33 account. See note 11.

¹³ Reestablished from the surplus fund, act Mar. 3, 1875 (18 Stat. 418, sec. 5).

¹⁴ Includes \$50,000 transferred from "Salaries and expenses, Forest Service, emergency construction (act July 21, 1932)" act June 30, 1932 (47 Stat. 411).

¹⁵ Exclusive of \$50,000 transferred to "Salaries and expenses, Forest Service, 1933." See note 14.

¹⁶ The necessity for basing the amounts credited to this fund on collections reported by the Department of Agriculture for the preceding year, instead of upon covering warrants for the current year, is due to the fact that an accurate division of receipts cannot be made until the amounts belonging to the school funds of Arizona and New Mexico have been determined by the Department of Agriculture.

¹⁵ Reestablished from the surplus fund, act Mar. 3, 1875 (18 Stat. 418, sec. 5).

⁵⁰ Account transferred and stated under "Bureau of Yards and Docks" chapter.

⁵¹ Account transferred and stated under "Office of the Secretary" chapter.

⁵² "General Account of Advances" is an accounting fund established as a means of handling naval appropriations pursuant to the provisions contained in the act of June 19, 1878 (20 Stat. 167). Advances of funds are made to disbursing officers and agents of the Navy, under this fund, not to exceed the total appropriations of

the Navy, the amounts so advanced to be exclusively used to pay current obligations. The amounts advanced are subsequently charged to the proper appropriations and returned to "General Account of Advances" by pay and counter warrant, based upon settlements of accounts by the Comptroller General of the United States, the said charge, however, to particular appropriations being limited to the amount appropriated to each.

⁵³ Debit balance. See note 52.

NOTE.—“Army Account of Advances” is an accounting fund established as a means of handling Army appropriations pursuant to the provisions contained in the act of June 5, 1920 (41 Stat. 975). Advances of funds are made to disbursing officers and agents of the Army, under this fund, not to exceed the total appropriations for the Army, the amounts so advanced to be exclusively used to pay obligations lawfully payable under the respective appropriations. The amounts advanced are subsequently charged to the proper appropriations and returned to “Army Account of Advances” by pay and counter warrants, based upon settlements of accounts by the Comptroller General of the United States, the said charge, however, to particular appropriations being limited to the amount appropriated to each. This account stands charged with the sum of \$9,510,960.45

at the beginning of the fiscal year 1933, and \$20,122,905.63 at the close of the year, which amounts represent the unadjusted disbursements on a warrants-issued basis and affect the total balances, War Department.

² Debit balance.

³ Includes \$774,735.66 heretofore stated as a special deposit account. (See note 10.)

¹⁰ Exclusive of \$774,735.66 stated under “Army Account of Advances.” (See note 9.)

¹¹ Reestablished from surplus fund, act Mar. 3, 1875 (18 Stat. 418, sec. 5).

¹² Exclusive of \$54.16 transferred to “Pay, etc., of the Army” (certified claims), act May 29, 1933 (48 Stat. 103).

Table 6.—GOLD RESERVE FUND AND UNITED STATES PAPER CURRENCY**GOLD RESERVE FUND**

On June 30, 1933, the gold reserve against United States notes and Treasury notes of 1890 was \$156,039,088.03. There was no change in this fund during the fiscal year 1933, the receipts on account of franchise tax on earnings of the Federal reserve banks and Federal intermediate credit banks having been used for retirement of the public debt as shown on page 402. The United States notes, for which this reserve is held, were outstanding in the amount of \$346,681,016, a sum which is fixed by law. When such notes are received they are reissued. The Treasury notes of 1890, for which this gold reserve is also held, were outstanding on June 30, 1933, in the amount of \$1,186,324. When such notes are received and retired they are not reissued.
