THE SECRETARY OF THE TREASURY WASHINGTON

January 3, 1950

The Speaker of the House of Representatives.
Sir:

In compliance with the requirements of section 15 of the Act of July 31, 1894 (5 U.S.C. 264), I have the honor to transmit herewith a Combined Statement of Receipts, Expenditures, and Balances of the United States Government for the fiscal year ended June 30, 1949.

Very truly yours

Secretary of the Treasury

This combined statement of receipts and expenditures for the fiscal year ended June 30, 1949, consists of four parts as follows:

Part I - Fiscal Year 1949 Summaries, relating to receipts and expenditures.

Part II - Details of Receipts, fiscal year 1949, showing more detailed information regarding receipts classified according to (a) sources; (b) organization units; and (c) states, districts, and ports of collection.

Part III - Details of Appropriations, Expenditures, and Balances, fiscal year 1949, showing according to each separate head of appropriation; (a) balances brought forward from the preceding fiscal year; (b) appropriations set up during the fiscal year; (c) transfers between appropriations, pursuant to authority of law; (d) appropriations after giving effect to transfers; (e) accountable and settlement warrants, (f) transfer and counter warrant adjustments; (g) repayment warrants; (h) total (or net) expenditures on warrants-issued basis; (i) expenditures on check-issued basis; (j) warrants carrying amounts to Payment of certified claims account, and to the surplus fund (see explanation P. 3); and (k) unexpended

balances at the end of the fiscal year. The appropriation accounts are arranged in these tables according to general accounts, special accounts, and trust accounts, respectively. A separate table is included for the public debt.

With one exception to be noted, all of the figures are based upon warrants issued by the Secretary of the Treasury and countersigned by the Comptroller General of the United States, pursuant to Title 31, sec. 147, of the United States Code. In addition to the warrant expenditures there is included in these tables, the amount of expenditures on the basis of checks drawn by disbursing officers on the Treasurer of the United States. A more detailed explanation appears under the caption "Bases of Figures Included in This Report."

Part IV - Informational Tables, consisting of a series of special statements relating to the accountability for money appropriated, and financial information regarding foreign aid and relief activities, the social security program, the public debt, Corporations and certain other business type activities of the United States Government, and other activities.

REORGANIZATION OF GOVERNMENT DEPARTMENTS AND AGENCIES

On page 5 appears a chart showing the creation, transfer and consolidation of executive agencies and functions effected during the fiscal year 1949. Such changes were effected by acts of Congress—by executive orders issued pursuant to authority conferred upon the President in the First War Powers Act, 1941, approved December 18, 1941 (Public Law 354, 77th Congress); Second War Powers Act, 1942, approved March 27, 1942 (Public Law 507, 77th Congress); or under general authority vested in the Presi-

dent by the constitution and statutes of the United States, as President of the United States, and as Commander-in-Chief of the Army and Navy and by plans of the President effected under the Reorganization Act of 1945, approved December 20, 1945 (59 Stat. 613-619). The authority for each reorganization is shown in the chart.

Reorganizations effected in previous years are exhibited in the combined statements of receipts and expenditures relating to such years.

BASES OF FIGURES INCLUDED IN THIS REPORT

RECEIPTS

Section 305 of the Revised Statutes (U.S. Code, title 31, sec. 147) provides that receipts for all moneys received by the Treasurer of the United States shall be endorsed upon warrants signed by the Secretary of the Treasury, without which warrants, so signed, no acknowledgement for money received into the Public Treasury shall be valid.

The receipts of the United States Government as published in this report are based upon warrants issued by the Secretary of the Treasury and represent the formal covering into the Treasury of the public moneys deposited in Treasury offices and Government depositaries during the fiscal year ended June 30, 1949.

EXPENDITURES

The expenditures in this report are exhibited on two different bases, namely: (1) Warrants issued and (2) checks issued. There is still a third basis on which the Treasury Department publishes receipts and expenditures of the Government which is known as the daily Treasury statement basis. While expenditures are not exhibited in this report on such third basis, it is explained herein as a matter of general information.

(1) Warrants issued basis.—Under the provisions of the act of September 2, 1789, which later became section 305 of the Revised Statutes, the expenditures of the United States Government are based upon warrants issued by the Secretary of the Treasury. From the organization of the Government in 1789, down to and including the fiscal year ended June 30, 1926, the detailed expenditures of the Government under separate heads of appropriations

provided by Congress were exhibited on what is known as the "basis of warrants issued.'

There are two classes of warrants upon which expenditures are made from the United States Treasury, viz: (a) requisition accountable warrants, so called because disbursing officers must regularly account for expenditures thereunder, which are issued to place funds to the credit of disbursing officers on the books of the Treasury of the United States, subject to their official check for the payment of Government obligations; and (b) settlement warrants, which authorize the Treasurer of the United States to make direct payments to claimants upon settlements of the accounting officers.

Requisition accountable warrants are issued practically as a bookkeeping expedient. They form the legal basis for charges against appropriation accounts upon the

EXPENDITURES--Continued

books of the Secretary of the Treasury and for corresponding credits to disbursing officers' checking accounts upon the books of the Treasurer of the United States, but do not involve an actual expenditure of cash from the Treasury at the time the warrants are issued. As far as the appropriation accounts upon the books of the Secretary of the Treasury are concerned, the warrants issued and charged thereto constitute expenditures on a warrant basis. To some extent, however, the money represented by such warrants is not actually expended during the fiscal year in which advanced to disbursing officers. The unexpended balances of funds in such cases are either used in the following fiscal year or returned by repay covering warrants to the appropriations from which advanced on the books of the Secretary. While the differences between the total expenditures on a warrant basis and a checksissued basis are not material in cases where the unexpended balances to the credit of disbursing officers remain more or less constant from year to year, the former do not in all cases accurately reflect the trend of governmental expenditures, since they include unexpended balances remaining to the credit of disbursing officers at the end of the year, but not expenditures from unexpended disbursing officers' balances at the beginning of the year. The expenditures on the basis of warrants issued in pursuance of section 305 of the Revised Statutes are shown in the ninth money column of this report beginning on page 145.

(2) Checks-issued basis. - In order to improve the situation described above, a new form of exhibiting the detailed expenditures of the Government was devised by the Treasury during the fiscal year 1927, under which expenditures are now shown on the basis of checks issued This form excludes from expenditures moneys placed to the credit of disbursing officers by warrant which remain unexpended and to their official checking credit at the close of the fiscal year, and includes in expenditures all checks drawn by disbursing officers during the fiscal year against unexpended balances of moneys placed to their checking credit during the preceding fiscal year. In other words, the expenditures on the basis of checks issued as exhibited in this report represent all the checks drawn upon the Treasurer of the United States during the fiscal year 1949 in payment of Government obligations without regard to the fiscal year in which the funds may have been placed to the credit of disbursing officers by warrant: The detailed expenditures on the basis of checks issued are shown in the tenth money column of this report beginning on page 145.

Daily Treasury statement basis. - There is a third basis on which the Treasury Department publishes the receipts and expenditures of the Government. This basis is presented in the figures of the Daily Statements of the United States Treasury. With the exception of expenditures made through the Division of Disbursement Treasury Department which are on a check issued basis, such figures represent the deposits and checks which are cleared each day through the Treasurer's accounts at Washington. They are compiled from latest daily transcripts of accounts received by the Treasurer of the United States from Federal Reserve banks and other Government depositaries. Occasionally, however, certain important transactions, such as income tax receipts during heavy collection periods, are reflected in the daily Treasury statement on the basis of telegraphic reports from Federal Reserve banks confirmed subsequently in the related daily transcripts when received. With respect to expenditures made through the Division of Disbursements, Treasury Department, beginning with the fiscal year 1948, expenditures of the several departments and establishments serviced by that Division are reported through the use of teletype facilities in the daily Treasury statement as of the day on which the checks are issued in payment of obligations. A clearing account is provided to take care of outstanding checks. The daily Treasury statement, therefore, is a current report compiled from the latest available information of actual receipts and expenditures. By reason of the promptness with which this information is compiled and made public it is generally regarded as reflecting for a given period the financial operations of the Government, as far as they are ascertainable from day to day.

On account of the distance of some of the Federal Reserve banks and other depositaries from the United States Treasury at Washington, the reports from all depositaries covering a particular day's transactions cannot, under the existing procedure, be received and assembled in the Treasury as of the date on which the transactions take place in the depositaries without delaying for several days the publication of the daily Treasury statement. It is necessary, therefore, in order to determine final figures relating to total receipts and expenditures for any given month or fiscal year, to take into consideration the accounts of Government depositaries covering the transactions for the last few days of the month or fiscal year concerned which have not been received at the Treasury until the succeeding fiscal year, and to eliminate those receipts and expenditures which actually relate to the preceding fiscal year. After taking into consideration these reports, the revised figures reflect the condition of the Treasury on the basis of actual transactions occurring in all Government depositaries during the period under review. Although there is not published a daily Treasury statement containing revised figures on this basis, it is known as the "basis of daily Treasury statements, revised."

It is not advisable to delay the publication of the daily Treasury statement in order to include the later reports, as the difference between the preliminary and the final figures is not material. In view of the delay in the receipt of final reports from all depositaries, the revised figures are used principally for accounting purposes, since they furnish a true general-fund balance for use in annual reports.

Since the warrant accounts on the books of the Secretary of the Treasury (Division of Bookkeeping and Warrants) are kept open after the close of the year in order to take care of all moneys reaching Government depositaries during that year, the receipts on a warrant basis are the same as those on the so-called "basis of daily Treasury statements, revised." In other words, they represent the moneys reaching Government depositaries during a particular fiscal year without regard to the time or the dates on which such deposits are cleared through the Treasurer's accounts at Washington.

The total expenditures on the basis of checks issued are adjusted on page 14 of this report to the pasis of daily Treasury statements, revised, the latter basis representing the checks paid by Federal Reserve banks and Government depositaries during the fiscal year without regard to the date on which such checks are cleared through the Treasurer's accounts in Washington.

FOREWORD

APPROPRIATIONS

Article I (sec. 9) of the Constitution of the United States provides that no money shall be withdrawn from the Treasury but in consequence of appropriations made by law. The appropriations exhibited in this report are the amounts which, by law, Congress authorized to be established upon the books of the Treasury during the fiscal year 1949. The figures necessarily differ somewhat from the appropriations exhibited in the annual "Digest of Appropriations," compiled by the Treasury Department, the "Statement of Appropriations" for the Eighty First Congress, First Session, Prepared under the direction of the Committees on Appropriations of the Senate and House of Representatives, and the comparative statement of appropriations for the fiscal year 1949, contained in the annual 'Budget of the United States," for several reasons as may be observed by a study of the 'Accountability Statement of Appropriations by Acts of Congress," appearing on pages 574 to 579 of this report. These differences are due principally to (1) the difference in the time at which the different reports are compiled, and (2) special provisions and limitations enacted by Congress in appropriation acts in regard to the availability of the appropriations. For instance, the three documents mentioned above are compiled about the beginning of the fiscal year for which the appropriations are made, and, therefore, include estimated amounts to cover permanent and indefinite appropriations, whereas the Combined Statement of Receipts, Expenditures and Balances of the United States Government is compiled after the close of the fiscal year, and the figures in this report under such appropriations are actual. As to the time of the availability of appropriations, it will be noted by reference to Part

IV, Table I that of the total appropriations provided in the annual appropriation acts for fiscal year 1949 aggregating \$22,876,223,787.35 the sum of \$6,278,929,683.00 was made immediately available by Congress upon the dates of approval of the several acts, and therefore was established upon the books of the Treasury in the fiscal year 1948 instead of 1949. In like manner, by the terms of the annual appropriation acts for 1950, aggregating \$34,335,010,322.75, the sum of \$313,259,000.00 was made immediately available upon the passage of such acts, and, \$312,509,000.00, was established upon the books of the Treasury during the fiscal year 1949. Other appropriations established upon the books of the Treasury during the fiscal year 1949 consist of amounts contained in the Second Deficiency Appropriation aAct, 1948, approved June 25, 1948, \$84,272,520.00; First Deficiency Appropriation Act, 1949, approved May 24, 1949, \$402,826,713.99; Second Deficiency Appropriation Act, 1949, approved June 23, 1949, \$596, 409, 283.79; Supplemental Independent Offices Act, approved June 30, 1948, \$1,823,151,851.00; Supplemental Act, approved August 13. 1949, \$15,300,000.00; Supplemental Treasury and Post Office Departments Act, approved June 19, 1948, \$190,538,755.00; Supplemental Federal Security Appropriation Act, 1949, approved June 16, 1948, \$784,914,700.00; and miscellaneous public acts, public resolutions, and private acts amounting to \$597,955,553.03 Other differences in appropriation figures are attributable to the fact that certain appropriations provided by Congress in the annual and deficiency appropriation acts are not payable from the general revenues of the Treasury, but are provided for from postal revenues and from revenues in special accounts hereinafter described.

PAYMENT OF CERTIFIED CLAIMS ACCOUNT Act of July 6, 1949 (63 Stat. 407)

The Act of July 6, 1949 (Public Law 159, 81st Congress), amended the provisions of law relating to the surplus fund and certified claims. Under the amendment, the unexpended balances of lapsed appropriations, that is, those which have remained on the books for two fiscal years following the fiscal year for which appropriated, are to be transferred on July 1, of each year to a consolidated appropriation account known as "Payment of certified claims."

The amounts thus transferred to the consolidated appropriation account, "Payment of certified claims," remain available until expended for the payment of claims, within the limit of and chargeable to the respective balances of any lapsed appropriations, which may be

certified by the Comptroller General of the United States to be lawfully due. On July 1 of each year, all funds in the consolidated appropriation account, "Payment of certified claims," certified by the Comptroller General of the United States as not required for the payment of claims thereunder are to be carried to the surplus fund of the Treasury.

The amounts of each appropriation carried to the "Payment of certified claims" account are shown in the eleventh money column of this report. Also included in this column, with appropriate footnotes, are items such as rescissions of appropriations by the Congress and amounts carried directly to the surplus fund of the Treasury.

SURPLUS FUND Act June 20, 1874 (18 Stat. 110)

The term "Surplus Fund of the Treasury," as used by the Congress in appropriation acts, and in the act of June 20, 1874, and by the Treasury Department does not represent a physical fund consisting of surplus cash or other assets as the term would ordinarily imply in accounting terminology. The term as herein used has no relation to surplus income. It is merely an expression to describe the writing off of the books of certain appropriations which have been repealed, or the unexpended balances of inactive appropriations not required for settlement of accounts.

Appropriations when made by Congress and established upon the books of the Treasury Department do not represent so much income or cash actually set aside in the Treasury for the purposes specified in the appropriation acts. Appropriations are established upon the books of the Treasury simply as record accounts and merely represent the limit to which administrative offices may obligate Government funds during the fiscal years specified in the appropriation acts, and as a general rule are based upon anticipated future tax collections and other receipts. It follows, therefore, that when appropria-

tions, or unexpended balances of appropriations, are carfied to what is termed in the law the "surplus fund of the Treasury" it involves simply a matter of writing such appropriations off of the books without increasing the cash in the Treasury or affecting it in any manner. The amounts of appropriations carried to the surplus fund of the Treasury are reflected in the eleventh money column of this report and are explained by appropriate footnotes.

In contradistinction, the term "surplus," as used in connection with the receipts and expenditures of the Government, represent the ordinary receipts, i.e., customs duties, internal revenue, and miscellaneous, for a given period in excess of the expenditures chargeable against such receipts for the same period, usually for fiscal year. There is no relation between the two terms described. The excess or surplus of the Government's receipts over its expenditures is not permitted to accumulate in the Treasury from year to year, but is used as promptly as conditions permit to reduce the public debt.

FUND DISTINCTION

The receipts and expenditures included in this report all fall within the General Fund. This arrangement, as indicated on the first page of the "Daily Statement of the United States Treasury," serves to maintain the maximum flexibility in the handling of all moneys placed in the Treasury. Within this fund, however, the Division of Bookkeeping and Warrants maintains a number of accounts, designated as general accounts, special accounts, and trust accounts. Certain receipts are credited to these accounts and certain expenditures are made therefrom, as required by law. All receipts of the Government which go into the general accounts are expended only in accordance with appropriations made by Congress.

The general accounts.—The principal sources of receipts covered into the general accounts are income tax, other internal revenue, and customs duties. Receipts from miscellaneous sources, which are not earmarked for special or trust accounts, are also covered into the general accounts. Such receipts include the proceeds of Government-owned securities (except those which are applicable to public-debt retirement), sale of surplus and condemned property, Panama Canal tolls, fees of various kinds, fines, penalties, forfeitures, rentals, royalties, reimbursements, immigration head tax, sale of public land, and interest on public deposits.

As already noted, moneys covered into the general accounts may be withdrawn from the Treasury only through appropriations made by Congress. These appropriations are of two general types-annual and permanent. The annual appropriations ordinarily found in the departmental supply bills are voted each year by Congress. They are usually definite or specific as to amounts. They may be obligated only during the fiscal year to which they relate, their unexpended balances remaining on the books for 2 additional years before being carried into the surplus fund of the Treasury." The permanent appropriations are automatically renewed each fiscal year over a period of time by virtue of permanent legislation, without annual action by Congress. Such appropriations may be either definite or indefinite as to amounts. An example of the latter is the indefinite-permanent appropriation to cover the interest on the public debt. Some times Congress makes appropriations which are available until expended, or until the object for which they are made is accomplished. These appropriations are without a definite time limit, and may therefore be called no-year appropriations. They are frequently employed by Congress when providing for the construction of publicworks projects.

Special accounts. —The special accounts, often referred to in the law as special funds, are usually credited with certain receipts which may be expended only for specified purposes. These receipts, in other words, are earmarked at the time of their deposit, so that they may not be used for the general expenditures of the Government.

The more important special accounts, other than those applicable to debt retirement, are the reclamation account and Alaska Railroad receipts, under the Department of the Interior, and forest reserve fund under the Department of Agriculture.

There are many other special accounts involving smaller amounts.

In connection with the collection and use of receipts

credited to special accounts it will be noted by reference to page 67 and following pages, that ready references are given to the pages on which the appropriations of such receipts may be found. These references will be found especially helpful in cases where Congress has designated in advance the use of receipts from particular sources to several different objects of expenditure on a percentage basis, such as in the case of Federal power receipts (p. 67), forest reserve receipts (p. 81) and Mineral Leasing Act receipts (p. 90).

Trust accounts. - The trust accounts generally represent moneys received by the Government for the benefit of individuals or classes of individuals. Moneys held in trust, being payable to or for the use of beneficiaries only, are not available for general expenditures of the Government. There are several classes of trust accounts, the beneficiaries under which may be either individuals or groups of individuals. The accounts may represent (a) moneys received directly from or for the benefit of individuals, as in the case of moneys received from foreign Governments or other sources in trust for citizens of the United States or others under the act of February 27, 1896 (U.S.C., title 31, sec. 547); (b) moneys collected as revenues and held in trust, such as the proceeds of sales of Indian lands, which are held as interest-bearing moneys for the benefit of Indian tribes; and (c) proceeds of grants from the General Treasury in pursuance of treaty or other obligations, such as the perpetual trust account created for the Ute Indians under section 5 of the act of June 15, 1880 (21 Stat. p. 204).

Revenues of the municipal government of the District of Columbia and expenditures therefrom, for the purpose of the classification of receipts and expenditures in this report, are regarded as trust accounts. The share of the United States of expenditures on account of the District of Columbia, which is payable "out of any moneys in the Treasury not otherwise appropriated," is charged as an expenditure on general account. In like manner expenditures under annual appropriations for certain trust accounts, such as the civil-service retirement fund, and the Foreign Service retirement fund, are classified under general accounts. Changes in the working balances under these accounts due to variations between credits and charges thereto are stated in connection with expenditures under the caption "Trust accounts."

Special deposit accounts.—Special deposit accounts are in the nature of suspense accounts, established to care for moneys deposited with the Treasurer of the United States for safekeeping, and refunds representing moneys not yet ready to be covered into the general account of the Treasury, or to be returned to the depositors. Such moneys are held temporarily in special deposit accounts subject to administrative or legal determination as to their final disposition.

Working funds.—Under act of June 30, 1932 (47 Stat., p. 417, sec. 601), amending sec. 7, act May 21, 1920 (U.S.C., Title 31, sec. 686) as amended by act of June 26, 1943 (57 Stat. 219), working funds are established by the Secretary of the Treasury, by repay covering warrants, representing amounts advanced by any executive department or independent establishment of the Government to any other department or establishment, for the furnishing of supplies or services.

NOTE—The customs receipts as published in this report, differ in some respects from the figures published in the report of the Commissioner of customs because the latter represent collections by customs officers throughout the country, while the former (this report) represent the actual

deposit of such collections in the Treasury and its depositories during the fiscal year 1949, the difference being due to the fact that some of the collections in the latter part of the fiscal year do not reach the Treasury or one of its depositories until after June 30.

DEPARTMENT OF STATE-FOOTNOTES

Note.—"State Account of Advances" is an accounting fund established as a means of handling State appropriations pursuant to provisions contained in the act of April 25, 1940 (54 Stat. 163). Advances of funds are made to dis-bursing officers, under this fund, not to exceed the total appropriations made to the Department of State, the amounts so advanced to be used exclusively to pay obligations lawfully payable under the respective appropriations. The amounts advanced are subsequently charged to the proper appropriations and credited to "State Account of Advances" by transfer and counter warrants prepared by the State Department, subject to audit and settlement by the General Accounting Office, the said charge, however, to each appropriation account is limited to the amount appropriated.

DISTRICT OF COLUMBIA-FOOTNOTES

Note.—Beginning with the fiscal year 1925, a lump sum has been contributed annually from the general fund of the Treasury toward the expenses of the District of Columbia, together with certain revenues from District sources theretofore credited to the United States, the remainder of such expenses being met from the combined revenues of the District of Columbia (trust funds). The lump sum contribution for each of the fiscal years from 1925 to 1930 was \$9,000,000; for each of the years 1931 and 1932, \$9,500,000; for 1933, \$7,775,000; for 1934, \$5,700,000; for 1935 the same amount, less 70 percent of expenditures under allotusents amounting to \$1,908,150, from the Public Works Administration under the appropriation "National Industrial Recovery, 1933-35" for sewers and park improvements. The sum of \$5,700,000 was contributed for the year 1936 and \$5,000,000 for 1937, 1938, and 1939, \$6,000,000

for the years 1940, 1941, 1942, 1943, 1944, 1945, and 1946; \$3,000,000, for 1947; and \$12,000,000 for the years 1948 and 1949. Appropriations for the years 1921 and 1924 (excepting certain accounts paid wholly from District revenues) were charged 80 percent to revenues of the District and 40 percent to the general fund of the Treasury. For 1920 and prior years the charges were divided equally between the District and the United States.

1 Additional appropriation made under the Second Deficiency Appropriation Act, 1949, Public Law 119, approved June 23, 1949.

2 Transferred, act June 19, 1948 (62 Stat. 554), from "Reimbursement of Other Appropriations from Highway Fund, District of Columbia, 1949."

2a Debit balance as reported by the District of Columbia.

- ⁵ Treasury bills are non-interest-bearing and are sold on a discount basis on competitive bids for each issue. The average sale price of these series gives an approximate yield on a bank discount basis (360 days a year) as indicated opposite each issue of bills. This yield differs slightly from the yield on a true discount basis (365 days a year) which is shown in the summary of table.
- ⁶ Redecomable, at par and accrued interest, to date of payment, at any time upon the death of the owner at the option of the duly constituted representative of the deceased owner's estate, provided entire proceeds of redemption are applied to payments of the Federal estate taxes due from deceased owner's estate.
- Amounts issued and retired for Series D to F inclusive, include accrued discount; amounts outstanding are stated at current redemption values. Amounts issued, retired, and outstanding for Series G are stated at par value.
- 8 Deduct.
- 9 For detailed information and amounts outstanding June 30, 1929, see table 24 in annual report for 1929, p. 456.
- 10 Includes amounts authorized to be outstanding at present time and amounts issued on deposits including reissues.
- 11 After deducting amounts officially estimated to have been lost or irrevocably destroyed.

TAX EXEMPTIONS:

Any income derived from Treasury bills, whether interest or gain from their sale or other disposition does not have any exemption, as such, and loss from the sale or other disposition of any such bills does not have any special treatment, as such, under the Internal Revenue Code or laws amendatory or supplementary thereto. The bills are subject to estate, inheritance, gift, or other excise taxes whether Federal or State, but are exempt from all taxation, now or hereafter imposed on the principal or interest thereof by any State, or any of the Possessions of the United States, or by any local taxing authority. For purposes of taxation the amount of discount at which the bills are originally sold by the United States is to be considered to be interest.

Discome derived from these securities is subject to all taxes now or hereafter imposed under the Internal Revenue code or laws amendatory or supplementary thereto. The securities are subject to estate, inheritance, gift or other excise taxes, whether Federal or State, but are exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, or any of the possessions of the United States, or by any local tax-

ing authority. The following is applicable to savings bonds only: For the purposes of taxation any increment in value of savings bonds represented by the difference between the price paid and the redemption value received (whether at or before maturity) shall be considered as interest.

Attention is invited to Treasury Decision 4550 ruling that bonds, notes, bills, and certificate of indebtedness of the Federal Government or its agencies, and the interest thereon, are not exempt from the gift tax.

Exempt, both as to principal and interest, from all taxation now or hereafter imposed by the United States, any State, or any of the possessions of the United States, or by any local taxing authority, except (a) estate or inheritance taxes, and (b) graduated additional income taxes, commonly known as surtaxes, and excess profits and war profits taxes, now or hereafter imposed by the United States, upon the income or profits of individuals, partnerships, associations, or corporations. The interest on an amount of bonds, authorized by the act approved September 24, 1917, as amended, the principal of which does not exceed in the aggregate \$5,000 owned by any individual, partnership, association, or corporation, shall be exempt from the taxes provided for in clause (b) above. The following is applicable to savings bonds only: For the purposes of determining taxes and tax exemptions the increment in value of savings bonds represented by the difference between the price paid and the redemption value received (whether at or before maturity) shall be considered as interest.

dExempt from the payment of all taxes or duties of the United States, as well as from all taxation in any form by or under State, municipal, or local authority. (The Supreme Court has held that this exemption does not extend to estate or inheritance taxes imposed by Federal or State authority.)

^eInterest on these bonds is subject to all taxes now or hereafter imposed under the Internal Revenue Code or laws amendatory or supplementary thereto. Principal is exempt from taxation.

These issues being investments of various government funds and payable only for the account of such funds have no present tax liability.

In Hands of Foreign Holders. - Applicable only to securities issued prior to March 1, 1941: Bonds, notes, and certificates of indebtedness of the United States, shall, while beneficially owned by a nonresident alien individual, or a foreign corporation, partnership, or association, not engaged in business in the United States, be exempt, both as to principal and interest from any and all taxation now or hereafter imposed by the United States, any State, or any of the possessions of the United States, or by any local taxing authority.

currency and fractional currency, less the amounts officially estimated to have been destroyed; and also the deposits held by the Treasury for the retirement of Federal Reserve Bank notes, and for national bank notes of national banks failed, in liquidation, and reducing circulation, which prior to 1890 was not included in the published debt statements. Does not include gold, silver, or currency certificates, or Treasury notes of 1890 for redemption of which an exact equivalent of the respective kinds of money or bullion was held in the Treasury.

3 Revised in accordance with Bureau of the Census' estimated population for continental United States as of July 1 of each year.

Note.—Figures for 1853 to 1885, inclusive, are taken from "Statement of receipts and expenditures of the Government from 1855 to 1885 and principal of public debt from 1791 to 1885," compiled from the official records of the Register's office. Later figures are on the basis of public debt accounts.

Bixclusive of the bonds issued to the Pacific railways (provision having been made by law to secure the Treasury against both principal and interest) and the Navy pension fund (which was in no sense a debt, the principal being the property of the United States).

Includes special notes of the United States, International Bank and Monetary Fund series; United States savings stamps; excess profits tax refund bonds; old demand notes; United States notes (gold reserve deducted since 1900); postal

Note: Negative figures are printed in italics.

¹ The appropriation accounts from which these expenditures were made were not in all cases established by funds appropriated by the Congress directly to the respective Corporation. They may represent appropriations established by "allocation" or by deposits of other agencies to "working funds" for the Corporations.

The appropriation accounts from which these expenditures were made were established on the books of

the Treasury by deposits of corporate funds for administrative expenses; for purchases of supplies, materials, etc; and, as in the case of the Public Housing Administration, by deposits of receipts which, by authority of law, are appropriated. Negative figures represent excess of deposits (by repay warrant) over expenditures.

³ Expenditures represent net transactions in checking accounts with the Treasurer of the United States. Negative figures indicate that collections from regular operations by such Corporation exceeded expendi-

tures.

4 Includes \$50,000 for War Damage Corporation; \$225,000,000 for repayment of capital stock R.F.C.;

^{\$100,005,532.87} for recovered war cost and \$307,391,555 accumulated surplus. \$ Advanced to E.C.A.

In liquidation by R.F.C., pursuant to Public Law 860, approved June 30, 1948.

⁷ Advanced for salaries and expenses.

Regional Agricultural Credit Corporation of Washington, D. C. was dissolved and stock certificate cancelled April 18, 1949 pursuant to Public Law 38. Functions, assets, and liabilities were transferred to Secretary of Agriculture and are reported as "Disaster Loans, etc., Revolving Fund."

Represents repayment of Capital Stock.

¹¹ Deposited by Agency in the fiscal year 1948 but not taken up on the books of Treasury until fiscal

year 1949.

12 Of this amount \$44,400,000 is included in expenses for Treasury Department in "Special Deposit Accounts."

13 Subsequent to June 26, 1947, the United States has no proprietary interest in any Federal Land Bank.

The Honorable

The Secretary of the Treasury

over the postage revenues derived from air mail

Dear Mr. Secretary:

Pursuant to the provisions of the Act of June 9, 1930 (39 U.S.C. 793), embodied in section 18.7, Postal Laws and Regulations of 1948, the amounts set forth below with respect to certain mailings during the fiscal year ended June 30, 1949, as determined under our present system of estimating, are certified to you in order that they may be separately classified on the books of the Treasury Department:

(a) The estimated amount which would have been collected at regular rates of postage on matter mailed during the year by officers of the Government (other than those of the Post Office Department) under the penalty privilege, including registry fees:

| | of aircraft service | (f) The estimated excess during the year of the cos |

It has not been the practice to include in item (f) the total cost of handling and transporting air mail. Under the system of estimating which is the same used in prior years, the cost of the items considered amounted to \$132,910,908 for the fiscal year 1949. This estimate includes only payments to air carriers, personnel costs at air mail fields, and the extra transportation cost involved in getting mail to and from air mail fields. Preliminary figures for the fiscal year 1949 indicate that the total cost of handling and transporting air mail, as determined by Cost Ascertainment procedure, amounted to \$164,552,000. The combined revenue from foreign and domestic air mail including air parcel post was \$91,427,212.

Sincerely yours,

Grand Total

Acting Postmaster General

¹Revised to exclude the first \$25,000,000 advanced, which is interest free, pursuant to Act of July 19, 1940 (55 Stat. 774) and the excess of interest as a result of reduction in the rate from 4 percent to 3 percent, under provisions of the foregoing act. The advances and interest in this table are set forth in a "operating Year" basis, June 1 to May 31, at request of the Secretary of the Interior.

² Repayments deposited are applied first to net interest charge, second to

advances.

Revised to reflect rescission of N. I. R. unexpended allocation in the amount of \$3,414.38 in February 1942 and interest thereon to May 31, 1942 in the amount of \$29.19.

Additional amount of \$657,895.48 was due and unpaid as of May 31, 1949.
