THE SECRETARY OF THE TREASURY WASHINGTON

January 6, 1954

The Speaker of the House of Representatives.
Sir:

In compliance with the requirements of section 15 of the Act of July 31, 1894 (5 U.S.C. 264), I have the honor to transmit herewith a Combined Statement of Receipts, Expenditures and Balances of the United States Government for the fiscal year ended June 30, 1953.

Very truly yours,

Secretary of the Treasury

LEGISLATIVE REQUIREMENT FOR THE REPORT

This report has been compiled in accordance with the requirements of Section 15 of the Act of July 31, 1894 (5 U.S.C. 264) which provides "It shall be the duty of the Secretary of the Treasury annually to lay before Congress, on the first day of the regular session thereof, an accurate combined statement of the receipts and expenditures during the last preceding fiscal year of all public moneys, including those of the Post Office Department, designating the amount of the receipts, whenever practicable, by ports, districts, and States, and the expenditures by each separate head of appropriation."

ARRANGEMENT OF REPORT

This Combined Statement of Receipts and Expenditures for the fiscal year ended June 30, 1953, consists of four parts as follows:

Part I - Fiscal Year 1953 Summaries, relating to receipts and disbursements.

Part II - Details of Receipts, fiscal year 1953, showing more detailed information regarding receipts classified according to (a) sources; (b) organization units; (c) Internal Revenue receipts by states and districts; and (d) customs receipts by districts and ports.

Part III - Details of Appropriations, Disbursements, and Balances, fiscal year 1953, showing according to each separate head of appropriation: (a) undisbursed balances brought forward from the preceding fiscal year; (b) appropriations set up during the fiscal year; (c) transfers between appropriations pursuant to authority of law; (d) net disbursements (checks-issued basis) or collections; (e) amounts transferred to Payment of Certified Claims Account, to the surplus fund, and other miscellaneous transactions (see explanation on page 2); and (f) undisbursed balances at the end of the fiscal year. The accounts are arranged in these statements according to general fund accounts, special fund accounts, revolving and management fund accounts, deposit fund accounts, and trust fund accounts, respectively. A separate table is included for the public debt. A more detailed explanation of transactions follows under the caption "Account Classification."

In this report for the fiscal year 1953, as well as the report for the fiscal year 1952, transactions pertaining to authorizations to expend from public debt receipts are included as part of the details of appropriations, disbursements and balances.

The disbursements reflected in this report are exclusive of purchases and redemptions of United States securities at par value; capital transfers to miscellaneous receipts; and repayments of borrowings from public debt receipts.

Statements pertaining to (1) transactions to expend from public debt receipts, and (2) investment in United States securities at par value are included at the end of Part III, Sections I and II.

Part IV - Informational Tables, consisting of a series of special statements relating to the accountability for money appropriated, and financial information regarding foreign aid and relief activities, the social security program, the public debt, status of special fund and trust fund receipts, and other activities. A chart showing the creation, transfer, and consolidation of executive agencies and functions during the fiscal year 1953 is also included under Part IV of this report. In addition, there is included an index table indicating references to informational tables previously published in Combined Statements but discontinued for reasons of program completion, decline in relative fiscal significance and other reasons. Reorganizations effected in previous years are exhibited in the Combined Statements of Receipts and Expenditures relating to such years.

BASES OF FIGURES INCLUDED IN THIS REPORT

Receipts - Section 305 of the Revised Statutes (U. S. Code, Title 31, Sec. 147) provides that receipts for all moneys received by the Treasurer of the United States shall be endorsed upon warrants signed by the Secretary of the Treasury, without which warrants, so signed, no acknowledgment for money received into the Public Treasury shall be valid. The receipts of

the United States Government as published in this report are based upon warrants issued by the Secretary of the Treasury which represent the formal covering into the Treasury of the public moneys deposited in Treasury offices and Government depositaries during the fiscal year ended June 30, 1953.

BASES OF FIGURES INCLUDED IN THIS REPORT-Continued

Appropriations - Article I (Sec. 9) of the Constitution of the United States provides that no money shall be withdrawn from the Treasury but in consequence of appropriations made by law. The appropriations exhibited in this report are the amounts which, by law, Congress authorized to be established upon the books of the Treasury during the fiscal year 1953, and are classified to show how the sums were initially appropriated from an organizational standpoint.

Appropriation Transfers - Transfers between appropriations (net), as shown in the third money column of this report under Part III, Details of Appropriations, Expenditures and Balances, represent the sums transferred between appropriations during the fiscal year 1953 by the administrative agencies concerned, as authorized by law. Such withdrawals and credits between appropriations are made by check without warrant action.

Disbursements - Checks-issued basis. - The disbursements in this report are exhibited on the basis of checks-issued, and represent checks drawn upon the Treasurer of the United States during the fiscal year 1953 in payment of Government obligations, and withdrawals and credits between appropriations as provided for in Section 1210 of the General Appropriation Act, 1951 (Public Law 759, 81st Congress). Where appropriations are credited with reimbursements or refunds of moneys previously disbursed, as authorized by law, the disbursements reflected in this report are reduced by such amounts. Separate columns are provided in this report to show (1) excess of disbursements over refunds and reimbursements. and (2) excess of refunds and reimbursements over disbursements. The disbursements on the basis of checks-issued are shown in the fourth and fifth money columns of this report, beginning on page 82.

Payment of Certified Claims Account - The Act of July 6, 1949 (63 Stat. 407), amended the provisions of law relating to the surplus fund and certified claims. Under the amendment, the undisbursed balances of lapsed appropriations, that is, those which have remained on the books for two fiscal years following the fiscal year for which appropriated, are to be transferred on July 1, of each year to a consolidated appropriation account known as "Payment of Certified Claims."

The amounts thus transferred to the consolidated appropriation account, "Payment of Certified Claims," remain available until disbursed for the payment of claims, within the limit of and chargeable to the

respective balances of any lapsed appropriations, which may be certified by the Comptroller General of the United States to be lawfully due. On July 1, of each year, all funds in the consolidated appropriation account, "Payment of Certified Claims," certified by the Comptroller General of the United States as not required for the payment of claims thereunder are to be carried to the surplus fund of the Treasury.

The balances of each appropriation carried to the "Payment of Certified Claims" account are shown in the sixth money column of this report. Also included in this column, with appropriate footnotes, are items such as rescissions of appropriations by the Congress, capital transfers, negative appropriations of prior year receipts treated as surplus, restorations from the surplus fund, and amounts carried directly to the surplus fund of the Treasury.

Surplus Fund - The term "Surplus Fund of the Treasury," as used by the Congress in appropriation acts, and in the act of March 3, 1795 (1 Stat. 437) R. S. 3691 (31 U. S. C. 715) and by the Treasury Department does no represent a fund consisting of surplus cash or other assets as the term would ordinarily imply in accounting terminology. The term as herein used has no relation to surplus income. It is merely an expression to describe the writing off the books of certain appropriations which have been repealed, or the undisbursed balances of inactive appropriations not required for settlement of accounts.

Appropriations when made by Congress and established upon the books of the Treasury Department do not represent so much income or cash actually set aside in the Treasury for the purposes specified in the appropriation acts. Appropriations are established upon the books of the Treasury simply as record accounts and merely represent the limit to which administrative offices may obligate Government funds during the fiscal years specified in the appropriation acts, and as a general rule are based upon anticipated future tax collections and other receipts. It follows, therefore, that when appropriations, or undisbursed balances of appropriations, are carried to what is termed in the law the "Surplus Fund of the Treasury" it involves simply a matter of writing such appropriations off the books without increasing the cash in the Treasury or affecting it in any manner. The amounts of appropriations carried to the surplus fund of the Treasury are reflected in the sixth money column of this report and are explained by appropriate footnotes.

BASES OF FIGURES INCLUDED IN THIS REPORT-Continued

Reductions in Appropriations from Prior Year Receipts - Trust Fund Accounts - The receipts of most trust funds are appropriated by permanent law for the purposes of the fund without further specific action by the Congress. In most cases, the appropriations each year are equal to the receipts of the year. In certain instances, however, the amount appropriated may differ from the receipts for the year, due to a time lag between the crediting of the receipts and the recording of the appropriation. In cases where the trust funds require Congressional action from year to year, receipts of such funds can be spent

only in accordance with appropriations or other authorizations enacted by the Congress. The amounts shown in the sixth money column of this report, under trust accounts, with the exception of "District of Columbia" (which are carried to the Surplus Fund under special Acts of Congress) represent a reduction of prior year appropriations to conform to the adjusted receipts for those years. The amounts shown in this column do not reduce the overall appropriation of trust fund receipts but merely represent a shifting of such amounts to an unappropriated status for reappropriation at a subsequent date.

ACCOUNT CLASSIFICATION

General Fund Accounts - The principal sources of receipts covered into the general fund accounts are income tax, other internal revenue, and customs duties. Receipts from miscellaneous sources, which are not earmarked for special or trust fund accounts, are also covered into the general fund accounts. Such receipts include the proceeds of Government owned securities (except those which are applicable to public-debt retirement), sale of surplus and condemned property, fees of various kinds, fines, penalties, forfeitures, rentals, royalties, reimbursements, immigration head tax, sale of public land, and interest on public deposits.

As already noted, moneys covered into the general accounts may be withdrawn from the Treasury only through appropriations made by Congress. These appropriations are of two general types-annual and permanent. The annual appropriations ordinarily found in the departmental supply bills are authorized each year by Congress. They are usually definite or specific as to amounts. They may be obligated only during the fiscal year to which they relate, their undisbursed balances remaining on the books for two additional years before being carried to the "Surplus Fund of the Treasury," or "Payment of Certified Claims Account." The permanent appropriations are continued each fiscal year over a period of time by virtue of permanent legislation, without annual action by Congress. Such appropriations may be either definite of indefinite as to amounts. An example of the latter is the indefinite-permanent appropriation to cover the interest on the public debt. Sometimes Congress makes appropriations which are available until expended, or until the object for which they are made is accomplished. These appropriations are without a definite time limit, and may therefore be called no-year appropriations. They are frequently employed by Congress when providing for the construction of public works projects.

Special Fund Accounts - The special fund accounts, often referred to in the law as special funds, are credited with certain receipts which may be expended only for specified purposes. These receipts, in other words, are earmarked at the time of their deposit, so that they may not be used for the general expenditures of the Government.

Among the important special receipt accounts, other than those applicable to debt retirement, are the reclamation account, mineral leasing, and public lands, under the Department of Interior, and forest reserve fund under the Department of Agriculture. There are many other special accounts involving small amounts.

In connection with the collection and use of receipts credited to special fund accounts it will be noted by reference to page 27 and following pages that ready references are given to the pages on which the appropriations of such receipts may be found. These references will be found especially helpful in cases where Congress has designated in advance the use of receipts from particular sources to several different purposes of expenditure on a percentage basis, such as in the case of Federal power receipts (p. 34), and forest reserve receipts (p. 43).

Revolving and Management Fund Accounts - These are funds which are credited with certain collections

(other than taxes) which are earmarked by law to carry out a cycle of business-type operations. Also included in this group are a few funds created by law to expedite accounting for and administration of operations financed from two or more appropriations of an agency.

Trust Fund Accounts - The trust fund accounts generally represent moneys received by the Government for the benefit of individuals or classes of individuals. Moneys held in trust, being payable to or for the use of beneficiaries only, are not available for general expenditures of the Government. There are several classes of trust fund accounts, the beneficiaries under which may be either individuals or groups of individuals. The accounts may represent (a) moneys received directly from or for the benefit of individuals, as in the case of moneys received from foreign Governments or other sources in trust for citizens of the United States or others under the act of February 27, 1896 (U. S. C., Title 31, Sec. 547); (b) moneys collected as revenues and held in trust, such as the proceeds of sales of Indian lands, which are held as interest-bearing moneys for the benefit of Indian tribes; and (c) proceeds of grants from the General Treasury in pursuance of treaty or other obligations, such as the perpetual trust account created for the Ute Indians under Section 5 of the Act of June 15. 1880 (21 Stat. p. 204).

Revenues of the municipal government of the District of Columbia and disbursements therefrom, for the purpose of the classification of receipts and disbursements in this report, are regarded as trust fund accounts. The share of the United States of payments on account of the District of Columbia, which is payable "out of the moneys in the Treasury not otherwise appropriated," is charged as a disbursement from a general fund account. In like manner payments under annual appropriations for certain trust accounts, such as the Civil Service Retirement Fund, and the Foreign Service Retirement Fund, are classified as disbursements under general fund accounts. Changes in the working balances under these accounts due to variations between credits and charges thereto are stated in connection with disbursements under the caption "Trust Fund Accounts."

Deposit Fund Accounts - Deposit fund accounts are in the nature of suspense or banking accounts, es-

tablished for moneys deposited with the Treasurer of the United States for safekeeping, and refunds representing moneys not yet ready to be covered into the Treasury or to be returned to the depositors. Such moneys are held temporarily in deposit fund accounts subject to administrative or legal determination as to their final disposition. It will be noted that following the title of certain accounts, the letter, "T" is shown. This is used to signify that the account by law is a trust fund account but for accounting purposes has been treated as other than trust.

Working Fund Accounts - Working funds are established under Section 601 of the Economy Act (31 U. S. C. 686) by advance payments from one bureau or agency to another. In this report for the fiscal year 1953, a change was made in the manner of reporting in the Combined Statement advances of funds from appropriation accounts to working fund accounts. In the report for the fiscal years 1950 through 1952, the undisbursed balances and transactions pertaining to all such funds were reflected under the appropriation account to which the funds were originally appropriated; whereas in this report for the fiscal year 1953, working fund transactions have been reclassified for reporting purposes as between (1) allocated working funds, and (2) consolidated working funds. Transactions pertaining to allocated working funds represent; (a) advances which are primarily for construction, procurement, or major contractual services, to be contracted for by the performing agency on behalf of the advancing agency; (b) advances primarily for the production or furnishing of materials by the performing agency (except that advances for this purpose may be made into revolving funds where authorized by law); and (c) advances for services to be rendered by the performing agency beyond the fiscal year in which the advance is made. The undisbursed balances and transactions pertaining to the allocated funds are shown under the appropriation account to which the funds were orginally appropriated. Transactions classified as consolidated working funds primarily composed of advances for services to be rendered by the performing agency, with use of its own facilities within the same fiscal year, are not shown under the appropriation to which the funds were originally appropriated, but are reflected as working fund accounts under the agency to which the funds were advanced.

Note.--Negative figures are shown in italics.

 2 Includes expenditure activity which by Congressional authorization are handled as public debt transactions (see note 4). Tables 6 and 7 in Part IV of this report contain the details of such expenditures on a cumulative tasis.

- 4 By Congressional authorization, handled as public debt transactions, (see table $^-$ 9, Part IV).
- ⁵ Represents unused authorizations at beginning of fiscal year 1953. For reporting purposes, this amount includes \$2,540,000,000.00 for International Bank for Reconstruction and Development not shown in the 1952 report.
- 6 Represents net additional public debt authorization granted by Congress during the fiscal year.
- ⁷ Represents net purchases and redemptions of notes and other obligations issued to the Secretary of the Treas-
- ⁸ Represents repayment of borrowings which amount cannot be reborrowed under existing law.
- 9 Represents unused authorizations at close of fiscal year 1953.
- ¹⁰ Represents investments at par value which are made from certain revolving and management fund accounts by the Treasury Department. Investments from trust fund accounts are stated below.
- 11 Represents investment holdings of Federal securities at par for certain Government corporations and agencies, as of June 30, 1952.

- 12 Represents net increase of investments for fiscal year 1953.
- 13 Represents investment holding of Federal securities at par value for certain Government corporations and agencies, as of June 30, 1953.
- ¹⁴ For United States shares of divided accounts and Federal annual contributions, etc. see general, special, and revolving and management fund accounts stated above.
- 15 Includes \$1,068,435,073.59, representing General and Special funds transferred to trust fund receipts and appropriated.
 - 16 Includes expenditures, exclusive of investments, from funds referred to in note 15.
- ¹⁷ Represents \$396,598.25 reductions in appropriations from prior year receipts; \$2,929,983.25 carried to surplus fund, acts March 2, 1889 (25 Stat. 808, sec. 3) and June 28, 1944 (58 Stat. 533, sec. 18); \$2,461.94 transferred from "Payment to Certified Claims" account, act July 6, 1949 (63 Stat. 407), and \$6.97 reestablished from surplus fund, act March 3, 1875 (18 Stat. 418, sec. 5).
- ¹⁸ Represents investments at par value which are made from certain trust fund accounts by the Treasury Department. Investments from revolving and management fund accounts are stated above.
- ¹⁹ Represents investment holdings of Federal securities at par for certain Government agencies, as of June 30, 1952.
- 20 Represents net increase of investments for fiscal year 1953.
- 21 Represents investment holdings of Federal securities at par value for certain Government agencies, as of June 30, 1953.
- This amount does not represent total expenditures for the reason that it includes both the transfer of funds referred to in note 15 and the expenditures made from such funds as referred to in note 16. The transfer reflected as expenditures under "General, Special, and Revolving and Management Fund Accounts" is offset by a corresponding credit in receipts under "Trust Fund Accounts."
- ²³ The undisbursed closing balance as reported in the fiscal year 1952 report has been increased by \$39,947,867,650.00 representing investment in U. S. securities at par value; \$2,540,000,000.00 in unused authorizations (see note 5), and \$84,830.58 adjustment of balance for Export-Import Bank of Washington.

^a Due to the reclassification of accounts, principally working funds, and adjustment of other accounts, the opening balances shown in this column do not agree, in all cases, with the June 30, 1952 undisbursed balances as shown in the 1952 report.

¹ Amounts refunded by the Government, principally for the overpayment of taxes, are being reported in the daily Treasury statement as deductions from total receipts rather than as expenditures. Such amounts have been treated as deductions from this statement as shown in the Treasury Department tabulations on page 245 of this report.

³ Represents \$56,637,034.60 carried to surplus fund, pursuant to acts March 3, 1795 (1 Stat. 437) and R. S. 3591 (31 U. S. C. 715); \$1,158,864.47 rescinded by various public laws (see table 3, Part IV); \$163,034.70 credit resulting from eliminating refunds by the Government for the "Refunds under Renegotiation Act, General Services Administration," and \$2,461.94 transferred from "Payment to Certified Claims" account; \$366,943.92 reestablished from surplus fund, act March 3, 1875 (18 Stat. 418, sec. 5); and \$264,785,034.14 Capital Transfers to Miscellaneous Receipts.

| (a) Under acts of March 4, 1907 (34 Stat. 1270), March 1, 1911 (36 Stat. 963), and June 30, 1914 (38 Stat. 441), 25 percent of all money received from each national forest is paid to the State in which such forest is situated. The sum of \$17, 377,876,82 representing 25 percent of \$69,511,507.28 collected during 1952, as reported by the Department of Agriculture, was credited during the fiscal year 1953 to the appropriation account "Payments to States and Territories from the national forests fund," Department of Agriculture. | | | | |
| (b) Under the act of June 20, 1910 (36 Stat. 562), such "Proportion of the gross proceeds of all the national forests within said State as the area of land hereby granted to said State for school purposes, which are situated within said forest reserves* "may bear to the total area of all the national forests within said State, is credited to account "Payments to school funds, Arizona and New Mexico." In accordance with this provision, and upon the basis of reports from the De partment of Agriculture, \$131,587.59 of the collections for the fiscal year 1952 was credited during the fiscal year 1953 to the appropriation account "Payments to school funds, Arizona and New Mexico National Forests fund." | | | | |
| (c) Under the act of March 4, 1913 (37 Stat. 843), 10 percent of the forest-reserve fund receipts is available for the construction and maintenance of roads and trails within the National forests. During the fiscal year, the sum of \$6,952,610.42 was credited to the appropriation "Roads and trails for States, national Forests fund." Department of Agriculture. Note.-Figures are rounded and will not necessarily add to totals.

¹ Public Law 734, approved August 28, 1950, changes the basis of appropriating Social Security employment taxes on employees and employers. Effective January 1, 1951, such taxes, together with withheld taxes are paid into the Treasury in combined amounts without separation as to type of tax.

² The receipts in the various states do not indicate the Federal tax burden of the respective states, since the taxes collected in one state are, in many instances, borne by residents of other states.

³ Includes \$29,078,088 collections by Internal Revenue which are not classified as miscellaneous Internal Revenue collections in Tables F and G as explained in footnotes 3, 4, and 4a on p 24.

DEPARTMENT OF STATE-FOOTNOTES

Note.—"State Account of Advances" is an accounting fund established as a means of handling State appropriations pursuant to provisions contained in the act of April 25, 1940 (54 Stat. 163). Advances of funds are made to disbursing officers, under this fund, not to exceed the total appropriations made to the Department of State, the amounts so advanced to be used exclusively to pay obligations lawfully payable under respective appropriations. The amounts advanced are subsequently charged to the proper appropriations and credited to "State Account of Advances." The said charge, however, to each appropriation account is limited to the amount appropriated.

DISTRICT OF COLUMBIA - FOOTNOTES

Note.—Beginning with the fiscal year 1925, a lump sum has been contributed annually from the general fund of the Treasury toward the expenses of the District of Columbia, together with certain revenues from District sources theretofore credited to the United States, the remainder of such expenses being met from the combined revenues of the District of Columbia (trust funds). The lump sum contribution for each of the fiscal years from 1925 to 1930 was \$9,000,000; for each of the years 1931 and 1932, \$9,500,000; for 1933, \$7,775,000; for 1934 \$5,700,000; for 1935 the same amount, less 70 percent of expenditures under allotments amounting to \$1,908,150, from the Public Works Administration under the appropriation "National Industrial Recovery, 1933-35" for

sewers and park improvements. The sum of \$5,700,000 was contributed for the year 1936 and \$5,000,000 for 1937, 1938, and 1939, \$6,000,000 for the years 1940, 1941, 1942, 1943, 1944, 1945, and 1946; \$8,000,000 for 1947; and \$12,000,000 for the years 1948, 1949, and 1950; \$10,800,000 for 1951; \$11,400,000 for 1952 and \$11,000,000 for the fiscal year 1953. Appropriations for the years 1921 through 1924 (excepting certain accounts paid wholly from District revenues) were charged 60 percent to revenues of the District and 40 percent to the general fund of the Treasury. For 1920 and prior years the charges were divided equally between the district and the United States.

include administrative expenses payable from other appropriations. The principal agencies in the latter group are the Bureau of Internal Revenue of the Treasury Department and the Public Health Service and the Office of Education of the Department of Health, Education, and Welfare (see also footnote 10).

8 Under the Labor-Federal Security Appropriation Act, 1947, salaries and expenses for the Bureau of Old-Age and Survivors Insurance are payable directly from the Federal Old-Age and Survivors Insurance trust fund. Prior to July 1, 1946, such payments were included under this caption with reimbursement therefor from the trust fund to the general fund of the Treasury.

9 Includes expenditures under Social Security Act by the Department of Labor through July 31, '946.

10 Amounts are net of reimbursement for administrative expenses under sec. 201 (f) of the Social Security Act, as amended.

11 See explanation in footnotes 2 and 4.

¹² Beginning July 1, 1945, payments previously made under the Social Security Act were discontinued and thereafter made under provisions of the Public Health Service Act of 1944.

13 These classifications were effective with the month of January 1940; figures are shown on the basis of checks issued as reported by the Bureau of Internal Revenue.

14 Fielates to unemployment insurance benefits and maintenance of public employment offices. Includes expenditures made by the Federal Security Agency, Social Security Administration, prior to Dec. 1, 1942; expenditures made by War Mampower Commission from Dec. 1, 1942, to July 31, 1946, and by Federal Security Agency, Social Security Administration, from Aug. 1, 1946, to Aug. 19, 1949.

15 This classification included in 'Old-age assistance (title I)' in statements for November 1950 through February 1951.

16 Includes transfers for reimbursement of administrative costs and for benefits paid to survivors of veterans of World War II.

 $^{^1}$ Has not been reduced by matured obligations held by the public which as of June 30, 1952, amounted to \$521,100 and as of June 30, 1953, amounted to \$434,200.

 $^{^2}$ Represents gross lending authority of \$3,650,000,000 less obligations of \$2,446,097,000 due Treasury at the close of the fiscal year 1953.

³ Represents cancellation of unpaid notes held by the Secretary of the Treasury, pursuant to Public Law 531, 82d Congress, approved July 14, 1952.

⁴ Pursuant to Public Law 171, 81st Congress, approved July 15, 1949, the Administrator, with the approval of the President may issue to the Secretary of the Treasury, notes and obligations in an amount not to exceed \$25,000,000, which limit could be increased by \$225,000,000 on July 1, 1950 and by \$250,000,000 on July 1 of each of the years 1951, 1952, and 1953. As of June 30, 1953, the President had approved issuance of obligations amounting to \$200,000,000.

 $^{^{5}}$ Represents repayment of borrowings that cannot be reborrowed under existing law.

^{5a} For repayments deposited to miscellaneous receipts, see receipt table G-Agriculture.

⁶ Represents dollar proceeds of sales of foreign currencies deposited into the Mutual Security Agency revolving fund, of which \$3,363,663.20 is applicable to July 1, 1952. Such proceeds are available for reduction of borrowing authorizations pursuant to the provisions of Public Law 472 - 80th Congress, approved April 3, 1948.

⁷ Represents uncommitted lending authority contained in section 714, of the Defense Production act, as amended.

⁸ Represents gross lending authority of \$1,253,891,138.93 less obligations of \$159,000,000.00 due Treasury at the close of the fiscal year 1953.

⁹ In addition to this amount the Agency may borrow \$202,500,000; plus additional amounts not to exceed \$45,000,000 which may be borrowed to the extent that such additional amounts are required during the fiscal year 1954. These two amounts are pursuant to Public Law 156, 83d Congress, approved July 28, 1953.

¹⁰ Pursuant to Public Laws 156 and 175, 83d Congress, approved July 28, 1953, and July 31, 1953, respectively, the Agency may borrow \$182,000,000 from the Secretary of the Treasury.

¹¹ Authority to issue bonds expired January 1, 1941, except that after that date bonds may be issued to the extent of \$5,000,000 for refunding purposes.

¹² After July 1, 1953, and before June 30, 1954, funds may be advanced as the Administrator may request, provided the aggregate so advanced in any one quarter annual period shall not exceed the sum of \$25,000,000 less the amount which had been returned to the revolving fund during the preceding quarter annual period from sale of loans pursuant to section 512 (d) of Title III of the Servicemen's Readjustment Act of 1944, as amended.

¹³ Represents interfund transactions.

Office of the Postmaster General Washington 25, D. C.

October 28 1953

Hon. George M. Humphrey Secretary of the Treasury

Dear Mr. Secretary:

Pursuant to the provisions of the Act of June 9, 1930 (39 U.S.C. 793), embodied in section 18.7, Postal Laws and Regulations of 1948, the amounts set forth below with respect to certain mailings during the fiscal year ended June 30, 1953, as determined under our present system of estimating, are certified to you in order that they may be separately classified on the books of the Treasury Department.

(a) The estimated amount which would have been collected at regular rates of postage on matter mailed during the year by offices of the Government (other than those of the Post Office Department) under the penalty privilege, including registry fees:

| Postage | |
|---|------------------------|
| Total | \$97,928,541 |
| (b) The estimated amount which would have been collected at regular rates of postage on matter mailed during the year by: | |
| 1. Members of Congress under the franking privilege \$2,429,688 2. By others under the franking privilege \$2,512 | |
| Total | 2,612,200 |
| (c) The estimated amount which would have been collected during the year at regular rates of postage on publications going free in the county | 835,000 |
| (d) The estimated amount which would have been collected at regular rates of postage on matter mailed free to the blind during the year | ^{1 2} 641,000 |
| (e) The estimated difference between the postage revenue collected during the year on mailings of newspapers and periodicals published by and in the interest of religious, educational, scientific, philanthropic, agricultural, labor and fraternal organizations, and that which would have been collected | |
| at zone rates of postage | ¹ 1,429,000 |
| (f) The estimated excess during the year of the cost of aircraft service over the postage revenues derived from air mail | (³) |
| Grand Total | \$103,445,741 |

Based on preliminary data.

² Revenue differential from regular rates based on handling costs. Under the system of estimating used in prior years the estimated revenue differential was based on the special rate of 1 cent per pound charged on certain matter for the blind handled in the mails. The revenue differential from this special rate would amount to \$185,000.

³ The total cost of handling and transporting air mail has not been included in estimating item (f). Under the method used in prior years and followed for fiscal year 1953 the cost of the items considered amounts to \$149,560,000 for fiscal year 1953. This estimated amount includes only payments to air carriers (exclusive of payments to such carriers for Star Route Service in Alaska related to other than air mails), personnel costs at air mail fields, and extra costs involved in transporting mail to and from air mail fields. Based on the formula established by the Civil Aeronautics Board, \$75,237,511 of the costs stated above represents subsidy to air carriers. Under the provision of Reorganization Plan No. 10, effective October 1, 1953, such payments will thereafter be made by the Civil Aeronautics Board and will not be reflected in expenditures of the Post Office Department. The combined revenue from foreign and domestic air mail, including air parcel post, was \$158,457,000.

Sincerely yours,

Postmaster General.
