⁶ "Individual income taxes withheld" have been decreased \$116,366,417 to correct estimates for the quarter ending March 1957 and prior and "Individual income taxes other" have been decreased \$7,097,514 to correct estimates for the calendar years 1951 through 1955 while "Federal Insurance Contributions Act and Self-Employment Contributions Act" taxes have been increased by the total of the above adjustments (\$123,463,931.83), which are made pursuant to Sec. 201 of the Social Security Act, as amended.

⁷ Includes adjustment of \$57,435,885 of prior receipts from bonuses, rentals, and royalties received from oil and gas leases transferred to a deposit fund account by authority of the Comptroller General pending settlement with the State of Louisiana.

⁸ Transfer of amounts equivalent to taxes received (included in "Excise taxes" above) are made monthly to the Highway trust fund on the basis of estimates by the Secretary of the Treasury as required by Sec. 209 (c)(3) of the Highway Revenue Act of 1956.

⁹ Includes reduction of \$72,000,000 based upon estimates of taxes subject to refund as provided under Section 103 (e) of the Social Security Amendments of 1956 on wages paid in the calendar year 1956 and prior years.

¹⁰ Where no figures appear on certain lines there was either no activity reported or comparative figures are not available on account of changes in classification.

¹¹ After June 30, 1957 the Government share is derived from the appropriations of individual agencies. (P.L. 854, July 31, 1956).

¹² Production Credit Corporations were merged in the Federal Intermediate Credit Banks as of January 1, 1957 pursuant to the Farm Credit Act of 1956 (70 Stat. 659). The Act provided for the transfer to the banks of all the corporation's assets and liabilities except their investments in Production Credit Associations which are transferred to the Farm Credit Administration. Beginning with January 1957 operations are shown as trust transactions (as mixed ownership corporations).

¹³ Pursuant to Executive Order 10720 and Reorganization Plan No. 1 of 1957, certain activities of the Federal Facilities Corporation and the Reconstruction Finance Corporation were transferred to the General Services Administration.

¹⁹ Gives effect to reimbursements collected for administrative support furnished to other agencies amounting to approximately \$18,823,523.

²⁰ In previous years the balances of lapsed general fund appropriations were consolidated in these accounts and used for payment of claims. Beginning January 1957 claims against lapsed accounts are being charged to accounts established for that purpose by the agencies administering the various appropriations. (70 Stat. 647).

²¹ Expenditures are stated on an accrual basis.

²² Represents expenditure adjustments reported by Regional Disbursing Officers which have not yet been picked up in reports of other officers.

²³ Transfer of \$17,500,000 has been made direct from the War Claims Fund to miscellaneous receipts pursuant to Sec. 13 (b) and (c) of the War Claims Act of 1948.

²⁴ See footnote 8.

²⁵ See footnote 12.

²⁶ Expenditures for the current year under the Federal-Aid Highway Act of 1956 are now classified as trust expenditures (since sufficient revenues have become available for reimbursement to the General Fund).

²⁷ Includes adjustment of \$99,325,700 due to reclassification. Also see footnote 12.

⁶ Includes adjustment of \$57,435,885 of prior receipts from bonuses, rentals, and royalties received from oil and gas leases transferred to a deposit fund account by authority of the Comptroller General pending settlement with the State of Louisiana.
⁷ Where no figures appear on certain lines there was either no activity reported or comparative figures are not available on account of changes in classification.
⁸ After June 30, 1957 the Government share is derived from the appropriations of individual agencies. (P.L. 854, July 31, 1956).
⁹ Production Credit Corporations were merged in the Federal Intermediate Credit Banks as of January 1, 1957 pursuant to the Farm Credit Act of 1956 (70 Stat. 659). The Act provided for the transfer to the banks of all the corporation's assets and liabilities except their investments in Production Credit Associations which are transferred to the Farm Credit Administration. Beginning with January 1957 operations are shown as trust transactions (as mixed ownership corporations).
¹⁰ Pursuant to Executive Order 10720 and Reorganization Plan No. 1 of 1957, certain activities of the Federal Facilities Corporation and the Reconstruction Finance Corporation were transferred to the General Services Administration.
¹¹ Represents residual of gross receipts and expenditures after reduction for non-cash costs which are included in amounts shown for intragovernmental funds.
¹² Includes non-cash costs transferred from price support operations for which expenditures may have been made in prior years, in addition to adjustments for prior months' transactions.
¹³ Includes reimbursements for advances for animal disease eradication, Agriculture Research Service, \$18,581,660; for advances for grading and classing activities, Agricultural Marketing Service, \$80,428; and for prior years costs under special commodity disposal programs, Commodity Stabilization Service, \$824,414,129.

¹⁵ Transactions cover the period July 1, 1957 through February 7, 1958 and are partially estimated.
¹⁶ Gives effect to reimbursements collected for administrative support furnished to other agencies amounting to approximately \$24,702,890.
¹⁷ In previous years the balances of lapsed general fund appropriations were consolidated in these accounts and used for payment of claims. Beginning January 1957 claims against lapsed accounts are being charged to accounts established for that purpose by the agencies administering the various appropriations. (70 Stat. 647).
¹⁸ Expenditures are stated on an accrual basis.
¹⁹ Represents expenditure adjustments reported by Regional Disbursing Officers which have not yet been picked up in reports of other officers.
²⁰ Transfer of \$17,500,000 has been made direct from the War Claims Fund to miscellaneous receipts pursuant to Sec. 13(b) and (c) of the War Claims Act of 1948.
²¹ See footnote 9.
²² Expenditures for the current year under the Federal-Aid Highway Act of 1956 are now classified as trust expenditures (since sufficient revenues have become available for reimbursement to the General Fund).
²³ Includes adjustment of \$99,325,700 due to reclassification. See also footnote 9.
²⁴ Under a revised classification, the security transactions of Government-sponsored enterprises are included in deposit fund accounts (net) and excluded from net sales or investments of Government agencies in public debt securities and net sales or redemptions of obligations of Government agencies in the market.
²⁵ Further breakdown of this classification is not available in time for publication in this statement.

⁶ Includes adjustment of \$57,435,885 of prior receipts from bonuses, rentals, and royalties received from oil and gas leases transferred to a deposit fund account by authority of the Comptroller General pending settlement with the State of Louisiana.

⁷ Where no figures appear on certain lines there was either no activity reported or comparative figures are not available on account of changes in classification.

⁸ After June 30, 1957, the Government share is derived from the appropriations of individual agencies. (P.L. 854, July 31, 1956.)

⁹ Production Credit Corporations were merged in the Federal Intermediate Credit Banks as of January 1, 1957, pursuant to the Farm Credit Act of 1956 (70 Stat. 659). The Act provided for the transfer to the banks of all the corporation's assets and liabilities except their investments in Production Credit Associations which are transferred to the Farm Credit Administration. Beginning with January 1957 operations are shown as trust transactions (as mixed ownership corporations).

¹⁰ Pursuant to Executive Order 10720 and Reorganization Plan No. 1 of 1957, certain activities of the Federal Facilities Corporation and the Reconstruction Finance Corporation were transferred to the General Services Administration.

¹¹ Represents residual of gross receipts and expenditures after reduction for non-cash costs which are included in amounts shown for Intragovernmental funds.

¹² Includes non-cash costs transferred from price support operations for which expenditures may have been made in prior years, in addition to adjustments for prior months' transactions.

¹³ Includes reimbursements for advances for animal disease eradication, Agriculture Research Service, \$18,581,660; for advances for grading and classing activities, Agricultural Marketing Service, \$80,428; and for prior years costs under special commodity disposal programs, Commodity Stabilization Service, \$824,414,129.

¹⁵ Transactions cover the period July 1, 1957 through March 7, 1958 and are partially estimated.

¹⁶ Gives effect to reimbursements collected for administrative support furnished to other agencies amounting to approximately \$24,941,442.

¹⁷ In previous years the balances of lapsed general fund appropriations were consolidated in these accounts and used for payment of claims. Beginning January 1957 claims against lapsed accounts are being charged to accounts established for that purpose by the agencies administering the various appropriations. (70 Stat. 647.)

¹⁸ Expenditures are stated on an accrual basis.

¹⁹ Represents expenditure adjustments reported by Regional Disbursing Officers which have not yet been picked up in reports of other officers.

²⁰ Transfer of \$17,500,000 has been made direct from the War Claims Fund to miscellaneous receipts pursuant to Sec. 13(b) and (c) of the War Claims Act of 1948.

²¹ See footnote 9.

²² In March 1957 the Association exchanged preferred stock in the amount of \$50,000,000 for notes in the same amount held by the Secretary of the Treasury in accordance with Public Law 85-10, March 27, 1957.

²³ Expenditures for the current year under the Federal-Aid Highway Act of 1956 are now classified as trust expenditures (since sufficient revenues have become available for reimbursement to the General Fund).

²⁴ Includes adjustment of \$99,325,700 due to reclassification. See also footnote 9.

²⁵ Under a revised classification, the security transactions of Government-sponsored enterprises are included in deposit fund accounts (net) and excluded from net sales or investments of Government agencies in public debt securities and net sales or redemptions of obligations of Government agencies in the market.

²⁶ Further breakdown of this classification is not available in time for publication in this statement.

²⁷ Represents changes in cash on hand, in banks held outside the Treasurer's account, deposits in transit and cash payments not yet covered by vouchers processed through accounts.

⁵Distribution between income taxes and employment taxes made in accordance with provisions of Sec. 201 of the Social Security Act as amended for transfer to the Federal Old-age and Survivors Insurance Trust Fund and the Federal Disability Insurance Trust Fund.

⁶"Individual income taxes withheld" have been decreased \$105,823,638 to correct estimates for the quarter ending September 1957 and prior and "Individual income taxes other" have been decreased \$7,985,311 to correct estimates for the calendar years 1955 and prior. "Federal Insurance Contributions Act and Self-Employment Contributions Act" taxes have been increased by the total of the above adjustments (\$113,808,950).

⁷"Individual income taxes other" also exclude \$382,000,000 estimated taxes on self-employed individuals classified as "Employment taxes" below.

⁸Includes adjustment of \$57,435,885 of prior receipts from bonuses, rentals, and royalties received from oil and gas leases transferred to a deposit fund account by authority of the Comptroller General pending settlement with the State of Louisiana.

⁹Where no figures appear on certain lines there was either no activity reported or comparative figures are not available on account of changes in classification.

¹⁰Represents adjustment to correct classification. After June 30, 1957, the Government share is derived from the appropriations of individual agencies. (P.L. 854, July 31, 1956).

¹¹Production Credit Corporations were merged in the Federal Intermediate Credit Banks as of January 1, 1957, pursuant to the Farm Credit Act of 1956 (70 Stat. 659). The Act provided for the transfer to the banks of all the corporation's assets and liabilities except their investments in Production Credit Associations which are transferred to the Farm Credit Administration. Beginning with January 1957 operations are shown as trust transactions (as mixed ownership corporations).

¹²Pursuant to Executive Order 10720 and Reorganization Plan No. 1 of 1957, certain activities of the Federal Facilities Corporation and the Reconstruction Finance Corporation were transferred to the General Services Administration.

¹³Represents residual of gross receipts and expenditures after reduction for non-cash costs which are included in amounts shown for intragovernmental funds.

¹⁴Includes non-cash costs transferred from price support operations for which expenditures may have been made in prior years, in addition to adjustments for prior months' transactions.

¹⁵Includes reimbursements for advances for animal disease eradication, Agriculture Research Service, \$18,581,660; for advances for grading and classing activities, Agricultural Marketing Service, \$80,428; and for prior years costs under special commodity disposal programs, Commodity Stabilization Service,

\$824,414,129. Also, P.L. 85-352, dated March 28, 1958, authorized additional reimbursements for advances totaling \$2,313,131,868 of which the following portions were accomplished in the current month; animal disease eradication, \$18,938,782; grading and classing activities, \$1,128,574; special commodity disposal programs, \$1,725,549,472; and soil bank programs, \$19,186,856.

¹⁶Includes amounts which cannot be determined for distribution to the several bureaus of Fish and Wildlife Service.

¹⁷Transactions cover the period July 1, 1957 through April 4, 1958 and are partially estimated.

¹⁸Gives effect to reimbursements collected for administrative support furnished to other agencies amounting to approximately \$27,811,996.

¹⁹In previous years the balances of lapsed general fund appropriations were consolidated in these accounts and used for payment of claims. Beginning January 1957 claims against lapsed accounts are being charged to accounts established for that purpose by the agencies administering the various appropriations. (70 Stat. 647)

²⁰Expenditures are stated on an accrual basis.

²¹Represents expenditure adjustments reported by Regional Disbursing Officers which have not yet been picked up in reports of other officers.

²²Transfer of \$17,500,000 has been made direct from the War Claims Fund to miscellaneous receipts pursuant to Sec. 13(b) and (c) of the War Claims Act of 1948.

²³See footnote 11.

²⁴In March 1957 the Association exchanged preferred stock in the amount of \$50,000,000 for notes in the same amount held by the Secretary of the Treasury in accordance with Public Law 85-10, March 27, 1957.

²⁵Expenditures for the current year under the Federal-Aid Highway Act of 1956 are now classified as trust expenditures (since sufficient revenues have become available for reimbursement to the General Fund).

²⁶Includes adjustment of \$99,325,700 due to reclassification. See also footnote 11.

²⁷Under a revised classification, the security transactions of Government-sponsored enterprises are included in deposit fund accounts (net) and excluded from net sales or investments of Government agencies in public debt securities and net sales or redemptions of obligations of Government agencies in the market.

²⁸Further breakdown of this classification is not available in time for publication in this statement.

²⁹Represents changes in cash on hand, in banks held outside the Treasurer's account, deposits in transit and cash payments not yet covered by vouchers processed through accounts.

⁸ After June 30, 1957, the Government share is derived from the appropriations of individual agencies. (P.L. 854, July 31, 1956)

⁹ Production Credit Corporations were merged in the Federal Intermediate Credit Banks as of January 1, 1957, pursuant to the Farm Credit Act of 1956 (70 Stat. 659). The Act provided for the transfer to the banks of all the corporation's assets and liabilities except their investments in Production Credit Associations which are transferred to the Farm Credit Administration. Beginning with January 1957 operations are shown as trust transactions (as mixed ownership corporations).

¹⁰ Pursuant to Executive Order 10720 and Reorganization Plan No. 1 of 1957, certain activities of the Federal Facilities Corporation and the Reconstruction Finance Corporation were transferred to the General Services Administration.

¹¹ Represents residual of gross receipts and expenditures after reduction for non-cash costs which are included in amounts shown for Intragovernmental funds.

¹² Includes non-cash costs transferred from price support operations for which expenditures may have been made in prior years, in addition to adjustments for prior months' transactions.

¹³ Includes reimbursements for advances for animal disease eradication, Agriculture Research Service, \$37,520,442; for advances for grading and classing activities, Agricultural Marketing Service, \$1,209,003; for prior years costs under special commodity disposal programs, Commodity Stabilization Service \$2,549,963,601; and soil bank programs, \$20,913,030.

¹⁷ Gives effect to reimbursements collected for administrative support furnished to other agencies amounting to approximately \$55,173,298.

¹⁸ In previous years the balances of lapsed general fund appropriations were consolidated in these accounts and used for payment of claims. Beginning January 1957 claims against lapsed accounts are being charged to accounts established for that purpose by the agencies administering the various appropriations. (70 Stat. 647)

¹⁹ Expenditures are stated on an accrual basis.

²⁰ Represents expenditure adjustments reported by Regional Disbursing Officers which have not yet been picked up in reports of other officers.

²⁴ In March 1957 the Association exchanged preferred stock in the amount of \$50,000,000 for notes in the same amount held by the Secretary of the Treasury in accordance with Public Law 85-10, March 27, 1957.

²⁵ Expenditures for the current year under the Federal-Aid Highway Act of 1956 are now classified as trust expenditures (since sufficient revenues have become available for reimbursement to the General Fund).

²⁶ Includes adjustment of \$99,325,700 due to reclassification. See also footnote 9.

²⁷ Under a revised classification, the security transactions of Government-sponsored enterprises are included in deposit fund accounts (net) and excluded from net sales or investments of Government agencies in public debt securities and net sales or redemptions of obligations of Government agencies in the market.

²⁸ Further breakdown of this classification is not available in time for publication in this statement.

^a Computed on true discount basis.

^b Beginning with the statement for December 31, 1958, the computed average interest rate on the public debt will be based upon the rate of effective yield for issues sold at premiums or discounts. Prior to December 31, 1958, the computed average rate was based upon the coupon rates of the securities. This rate did not materially differ from the rate computed on the basis of effective yield. The Treasury,

however, announced on November 18, 1958, that there may be more frequent issues of securities sold with premiums or discounts whenever appropriate. If so, this "effective-yield" method of computing the average interest rate on the public debt will reflect more accurately the interest cost to the Treasury, and is felt to be in accord with the intent of Congress where legislation has required the use of such rate for various purposes.

^a Computed on true discount basis.

^b Beginning with the statement for December 31, 1958, the computed average interest rate on the public debt will be based upon the rate of effective yield for issues sold at premiums or discounts. Prior to December 31, 1958, the computed average rate was based upon the coupon rates of the securities. This rate did not materially differ from the rate computed on the basis of effective yield. The

Treasury, however, announced on November 18, 1958, that there may be more frequent issues of securities sold with premiums or discounts whenever appropriate. If so, this "effective-yield" method of computing the average interest rate on the public debt will reflect more accurately the interest cost to the Treasury, and is felt to be in accord with the intent of Congress where legislation has required the use of such rate for various purposes.

^a Computed on true discount basis.
^b Beginning with the statement for December 31, 1958, the computed average interest rate on the public debt is based upon the rate of effective yield for issues sold at premiums or discounts. Prior to December 31, 1958, the computed average rate was based upon the coupon rates of the securities. This rate did not materially differ from the rate computed on the basis of effective yield. The Treasury,

however, announced on November 18, 1958, that there may be more frequent issues of securities sold with premiums or discounts whenever appropriate. If so, this "effective-yield" method of computing the average interest rate on the public debt will reflect more accurately the interest cost to the Treasury, and is felt to be in accord with the intent of Congress where legislation has required the use of such rate for various purposes.

^a Computed on true discount basis.

^b Beginning with the statement for December 31, 1958, the computed average interest rate on the public debt is based upon the rate of effective yield for issues sold at premiums or discounts. Prior to December 31, 1958, the computed average rate was based upon the coupon rates of the securities. This rate did not materially differ from the rate computed on the basis of effective yield. The Treasury, how-

ever, announced on November 18, 1958, that there may be more frequent issues of securities sold with premiums or discounts whenever appropriate. If so, this "effective-yield" method of computing the average interest rate on the public debt will reflect more accurately the interest cost to the Treasury, and is felt to be in accord with the intent of Congress where legislation has required the use of such rate for various purposes.

^a Computed on true discount basis.

^b Beginning with the statement for December 31, 1958, the computed average interest rate on the public debt is based upon the rate of effective yield for issues sold at premiums or discounts. Prior to December 31, 1958, the computed average rate was based upon the coupon rates of the securities. This rate did not materially differ from the rate computed on the basis of effective yield. The Treasury, how-

ever, announced on November 18, 1958, that there may be more frequent issues of securities sold with premiums or discounts whenever appropriate. If so, this "effective-yield" method of computing the average interest rate on the public debt will reflect more accurately the interest cost to the Treasury, and is felt to be in accord with the intent of Congress where legislation has required the use of such rate for various purposes.

^a Computed on true discount basis.
^b Beginning with the statement for December 31, 1958, the computed average interest rate on the public debt is based upon the rate of effective yield for issues sold at premiums or discounts. Prior to December 31, 1958, the computed average rate was based upon the coupon rates of the securities. This rate did not materially differ from the rate computed on the basis of effective yield. The Treasury, how-

ever, announced on November 18, 1958, that there may be more frequent issues of securities sold with premiums or discounts whenever appropriate. This "effective-yield" method of computing the average interest rate on the public debt will reflect more accurately the interest cost to the Treasury, and is felt to be in accord with the intent of Congress where legislation has required the use of such rate for various purposes.

^a Computed on true discount basis.
^b Beginning with the statement for December 31, 1958, the computed average interest rate on the public debt is based upon the rate of effective yield for issues sold at premiums or discounts. Prior to December 31, 1958, the computed average rate was based upon the coupon rates of the securities. This rate did not materially differ from the rate computed on the basis of effective yield. The Treasury, how-

ever, announced on November 18, 1958, that there may be more frequent issues of securities sold with premiums or discounts whenever appropriate. This "effective-yield" method of computing the average interest rate on the public debt will reflect more accurately the interest cost to the Treasury, and is felt to be in accord with the intent of Congress where legislation has required the use of such rate for various purposes.

^a Computed on true discount basis.
^b Beginning with the statement for December 31, 1958, the computed average interest rate on the public debt is based upon the rate of effective yield for issues sold at premiums or discounts. Prior to December 31, 1958, the computed average rate was based upon the coupon rates of the securities. This rate did not materially differ from the rate computed on the basis of effective yield. The Treasury, how-

ever, announced on November 18, 1958, that there may be more frequent issues of securities sold with premiums or discounts whenever appropriate. This "effective-yield" method of computing the average interest rate on the public debt will reflect more accurately the interest cost to the Treasury, and is felt to be in accord with the intent of Congress where legislation has required the use of such rate for various purposes.

^a Computed on true discount basis.

^b Beginning with the statement for December 31, 1958, the computed average interest rate on the public debt is based upon the rate of effective yield for issues sold at premiums or discounts. Prior to December 31, 1958, the computed average rate was based upon the coupon rates of the securities. This rate did not materially differ from the rate computed on the basis of effective yield. The Treasury, how-

ever, announced on November 18, 1958, that there may be more frequent issues of securities sold with premiums or discounts whenever appropriate. This "effective-yield" method of computing the average interest rate on the public debt will reflect more accurately the interest cost to the Treasury, and is felt to be in accord with the intent of Congress where legislation has required the use of such rate for various purposes.

^a Computed on true discount basis.
^b Beginning with the statement for December 31, 1958, the computed average interest rate on the public debt is based upon the rate of effective yield for issues sold at premiums or discounts. Prior to December 31, 1958, the computed average rate was based upon the coupon rates of the securities. This rate did not materially differ from the rate computed on the basis of effective yield. The Treasury, how-

ever, announced on November 18, 1958, that there may be more frequent issues of securities sold with premiums or discounts whenever appropriate. This "effective-yield" method of computing the average interest rate on the public debt will reflect more accurately the interest cost to the Treasury, and is felt to be in accord with the intent of Congress where legislation has required the use of such rate for various purposes.

^a Computed on true discount basis.
^b Beginning with the statement for December 31, 1958, the computed average interest rate on the public debt is based upon the rate of effective yield for issues sold at premiums or discounts. Prior to December 31, 1958, the computed average rate was based upon the coupon rates of the securities. This rate did not materially differ from the rate computed on the basis of effective yield. The Treasury, how-

ever, announced on November 18, 1958, that there may be more frequent issues of securities sold with premiums or discounts whenever appropriate. This "effective-yield" method of computing the average interest rate on the public debt will reflect more accurately the interest cost to the Treasury, and is felt to be in accord with the intent of Congress where legislation has required the use of such rate for various purposes.

^a Computed on true discount basis.
^b Beginning with the statement for December 31, 1958, the computed average interest rate on the public debt is based upon the rate of effective yield for issues sold at premiums or discounts. Prior to December 31, 1958, the computed average rate was based upon the coupon rates of the securities. This rate did not materially differ from the rate computed on the basis of effective yield. The Treasury, how-

ever, announced on November 18, 1958, that there may be more frequent issues of securities sold with premiums or discounts whenever appropriate. This "effective-yield" method of computing the average interest rate on the public debt will reflect more accurately the interest cost to the Treasury, and is felt to be in accord with the intent of Congress where legislation has required the use of such rate for various purposes.

^a Computed on true discount basis.
^b Beginning with the statement for December 31, 1958, the computed average interest rate on the public debt is based upon the rate of effective yield for issues sold at premiums or discounts. Prior to December 31, 1958, the computed average rate was based upon the coupon rates of the securities. This rate did not materially differ from the rate computed on the basis of effective yield. The Treasury, how-

ever, announced on November 18, 1958, that there may be more frequent issues of securities sold with premiums or discounts whenever appropriate. This "effective-yield" method of computing the average interest rate on the public debt will reflect more accurately the interest cost to the Treasury, and is felt to be in accord with the intent of Congress where legislation has required the use of such rate for various purposes.

^a Computed on true discount basis.

^b Beginning with the statement for December 31, 1958, the computed average interest rate on the public debt is based upon the rate of effective yield for issues sold at premiums or discounts. Prior to December 31, 1958, the computed average rate was based upon the coupon rates of the securities. This rate did not materially differ from the rate computed on the basis of effective yield. The Treasury, how-

ever, announced on November 18, 1958, that there may be more frequent issues of securities sold with premiums or discounts whenever appropriate. This "effective-yield" method of computing the average interest rate on the public debt will reflect more accurately the interest cost to the Treasury, and is felt to be in accord with the intent of Congress where legislation has required the use of such rate for various purposes.

^a Computed on true discount basis.

^b Beginning with the statement for December 31, 1958, the computed average interest rate on the public debt is based upon the rate of effective yield for issues sold at premiums or discounts. Prior to December 31, 1958, the computed average rate was based upon the coupon rates of the securities. This rate did not materially differ from the rate computed on the basis of effective yield. The Treasury, how-

ever, announced on November 18, 1958, that there may be more frequent issues of securities sold with premiums or discounts whenever appropriate. This "effective-yield" method of computing the average interest rate on the public debt will reflect more accurately the interest cost to the Treasury, and is felt to be in accord with the intent of Congress where legislation has required the use of such rate for various purposes.

^a Computed on true discount basis.

^b Beginning with the statement for December 31, 1958, the computed average interest rate on the public debt is based upon the rate of effective yield for issues sold at premiums or discounts. Prior to December 31, 1958, the computed average rate was based upon the coupon rates of the securities. This rate did not materially differ from the rate computed on the basis of effective yield. The Treasury,

however, announced on November 18, 1958, that there may be more frequent issues of securities sold with premiums or discounts whenever appropriate. This "effective-yield" method of computing the average interest rate on the public debt will reflect more accurately the interest cost to the Treasury, and is felt to be in accord with the intent of Congress where legislation has required the use of such rate for various purposes.
