Note: Interfund receipts and outlays are transactions between Federal funds and trust funds, such as, Federal payments and contributions, Federal employer contributions, and interest and profits on investments in Federal securities. They have no net effect on overall budget receipts and outlays since the receipt side of such transactions is offset against budget outlays. In this table, interfund receipts are shown as an adjustment to arrive at total receipts and outlays of trust funds and Federal funds respectively. Included in total interfund receipts and outlays are \$8,055 million in federal funds transferred to trust funds for general revenue sharing.

FOOTNOTES

Note: Throughout this statement, details may not add to totals because of rounding.

<sup>1</sup>This statement contains the final figures showing budget results for fiscal year ending June 30, 1974. These figures reflect a net change of \$36 million (decrease) in the deficit published in the preliminary statement. The differences between results as shown in this statement and the preliminary figures released in July result from giving effect to final transactions (including many overseas transactions) of Government disbursing, collecting and administrative agencies, which could not be reported in the preliminary statement.

The principal changes in receipts are increases in individual income taxes, \$202 million and estate and gift taxes, \$26 million. Unemployment insurance taxes decreased \$70 million and excise taxes decreased \$41 million. Total receipts increased \$85 million.

The principal changes in outlays are increases in (1) Housing and Urban Development Department \$47 million, (2) National Aeronautics and Space Administration \$24 million, (3) Undistributed intragovernmental transactions \$46 million, and decreases in (1) Agriculture Department \$57 million, and (2) Defense Department \$21 million. Total outlays increased \$49 million.

<sup>2</sup>Based on revised estimates of the 1974 Budget released June 12, 1974, before the Senate Finance Committee on the public debt limit.

<sup>3</sup>In accordance with the provisions of the Social Security Act, as amended "Individual income taxes withheld" have been increased and "Federal Insurance Contributions Act taxes" have been decreased in the amount of \$538,525,132 to correct estimates for quarter ended September 30, 1973 and prior. "Individual income taxes other" have been decreased and "Self Employment Contributions Act Taxes" have been increased in the amount of \$69,673,000 to correct estimates for the calendar year 1972 and prior.

<sup>4</sup>Includes \$312,390,534.40 distribution to Federal Disability and Hospital Insurance Trust Funds.

<sup>5</sup>Effective July 1, 1973, collections are now being made pursuant to Public Law 92-603, Section 202, Title II.

<sup>6</sup>Includes adjustment to amount previously reported.

<sup>7</sup>Pursuant to Public Law 93-32 dated May 11, 1973, most outlays of the Rural Electrification Administration including the Rural Telephone Bank were classified outside the unified budget totals. Transactions are included in budget outlays through the close of business May 11, 1973. For transactions after May 11, 1973, classified outside the unified budget totals see Table IV, Schedule A. Administrative expenses financed by general fund appropriations will continue to be reflected in budget totals.

<sup>8</sup>Pursuant to Treasury Department Order No. 229-1, as of March 17, 1974, all remaining current activity for the Office of the Treasurer was transferred to Bureau of Government Financial Operations.

<sup>9</sup>In accordance with the Postal Reorganization Act dated August 12, 1970, starting with 1974 operations, the Postal Service will be excluded from the U.S. budget. For transactions after July 1, 1973, classified outside the unified budget totals, see Table IV, Schedule A. Payments to the postal service fund financed by general fund appropriations will continue to be reflected in budget totals.

<sup>10</sup>Includes closing balance adjustment of \$34,073,443.95 in order to adjust transactions to agree with budget presentation.

Note: Interfund receipts and outlays are transactions between Federal funds and trust funds, such as, Federal payments and contributions, Federal employer contributions, and interest and profits on investments in Federal securities. They have no net effect on overall budget receipts and outlays since the receipt side of such transactions is offset against budget outlays. In this table, interfund receipts are shown as an adjustment to arrive at total receipts and outlays of trust funds and Federal funds respectively. Included in total interfund receipts and outlays are \$6,055 million in federal funds transferred to trust funds for general revenue sharing.

Note: Interfund receipts and outlays are transactions between Federal funds and trust funds, such as, Federal payments and contributions, Federal employer contributions, and interest and profits on investments in Federal securities. They have no net effect on overall budget receipts and outlays since the receipt side of such transactions is offset against budget outlays. In this table, interfund receipts are shown as an adjustment to arrive at total receipts and outlays of trust funds and Federal funds respectively.

Note: Interfund receipts and outlays are transactions between Federal funds and trust funds, such as, Federal payments and contributions, Federal employer contributions, and interest and profits on investments in Federal securities. They have no net effect on overall budget receipts and outlays since the receipt side of such transactions is offset against budget outlays. In this table, interfund receipts are shown as an adjustment to arrive at total receipts and outlays of trust funds and Federal funds respectively. Included in total interfund receipts and outlays are \$6,205 million in federal funds transferred to trust funds for general revenue sharing.

Note: Interfund receipts and outlays are transactions between Federal funds and trust funds, such as, Federal payments and contributions, Federal employer contributions, and interest and profits on investments in Federal securities. They have no net effect on overall budget receipts and outlays since the receipt side of such transactions is offset against budget outlays. In this table, interfund receipts are shown as an adjustment to arrive at total receipts and outlays of trust funds and Federal funds respectively. Included in total interfund receipts and outlays are \$6,205 million in federal funds transferred to trust funds for general revenue sharing.

Note: Interfund receipts and outlays are transactions between Federal funds and trust funds, such as, Federal payments and contributions, Federal employer contributions, and interest and profits on investments in Federal securities. They have no net effect on overall budget receipts and outlays since the receipt side of such transactions is offset against budget outlays. In this table, interfund receipts are shown as an adjustment to arrive at total receipts and outlays of trust funds and Federal funds respectively. Included in total interfund receipts and outlays are \$6,205 million in federal funds transferred to trust funds for general revenue sharing.

Note: Interfund receipts and outlays are transactions between Federal funds and trust funds, such as, Federal payments and contributions, Federal employer contributions, and interest and profits on investments in Federal securities. They have no net effect on overall budget receipts and outlays since the receipt side of such transactions is offset against budget outlays. In this table, interfund receipts are shown as an adjustment to arrive at total receipts and outlays of trust funds and Federal funds respectively. Included in total interfund receipts and outlays are \$6,205 million in federal funds transferred to trust funds for general revenue sharing.

Note: Interfund receipts and outlays are transactions between Federal funds and trust funds, such as, Federal payments and contributions, Federal employer contributions, and interest and profits on investments in Federal securities. They have no net effect on overall budget receipts and outlays since the receipt side of such transactions is offset against budget outlays. In this table, interfund receipts are shown as an adjustment to arrive at total receipts and outlays of trust funds and Federal funds respectively. Included in total interfund receipts and outlays are \$6,205 million in federal funds transferred to trust funds for general revenue sharing.

Note: Interfund receipts and outlays are transactions between Federal funds and trust funds, such as, Federal payments and contributions, Federal employer contributions, and interest and profits on investments in Federal securities. They have no net effect on overall budget receipts and outlays since the receipt side of such transactions is offset against budget outlays. In this table, interfund receipts are shown as an adjustment to arrive at total receipts and outlays of trust funds and Federal funds respectively. Included in total interfund receipts and outlays are \$6,205 million in federal funds transferred to trust funds for general revenue sharing.

Note: Interfund receipts and outlays are transactions between Federal funds and trust funds, such as, Federal payments and contributions, Federal employer contributions, and interest and profits on investments in Federal securities. They have no net effect on overall budget receipts and outlays since the receipt side of such transactions is offset against budget outlays. In this table, interfund receipts are shown as an adjustment to arrive at total receipts and outlays of trust funds and Federal funds respectively. Included in total interfund receipts and outlays are \$8,205 million in federal funds transferred to trust funds for general revenue sharing.

Note: Interfund receipts and outlays are transactions between Federal funds and trust funds, such as, Federal payments and contributions, Federal employer contributions, and interest and profits on investments in Federal securities. They have no net effect on overall budget receipts and outlays since the receipt side of such transactions is offset against budget outlays. In this table, interfund receipts are shown as an adjustment to arrive at total receipts and outlays of trust funds and Federal funds respectively. Included in total interfund receipts and outlays are \$6,205 million in federal funds transferred to trust funds for general revenue sharing.

Note: Interfund receipts and outlays are transactions between Federal funds and trust funds, such as, Federal payments and contributions, Federal employer contributions, and interest and profits on investments in Federal securities. They have no net effect on overall budget receipts and outlays since the receipt side of such transactions is offset against budget outlays. In this table, interfund receipts are shown as an adjustment to arrive at total receipts and outlays of trust funds and Federal funds respectively. Included in total interfund receipts and outlays are \$6,205 million in federal funds transferred to trust funds for general revenue sharing.

Note: Interfund receipts and outlays are transactions between Federal funds and trust funds, such as, Federal payments and contributions, Federal employer contributions, and interest and profits on investments in Federal securities. They have no net effect on overall budget receipts and outlays since the receipt side of such transactions is offset against budget outlays. In this table, interfund receipts are shown as an adjustment to arrive at total receipts and outlays of trust funds and Federal funds respectively. Included in total interfund receipts and outlays are \$6,205 million in federal funds transferred to trust funds for general revenue sharing.

FOOTNOTES

Note: Throughout this statement, details may not add to totals because of rounding.

<sup>1</sup>This statement contains the final figures showing budget results for fiscal year ending June 30, 1975. These figures reflect a net change of \$608 million (decrease) in the deficit published in the preliminary statement. The differences between results as shown in this statement and the preliminary figures released in July result from giving effect to final transactions (including many overseas transactions) of Government disbursing, collecting, and administrative agencies, which could not be reported in the preliminary statement.

The principal changes in receipts are increases in individual income taxes, \$64 million, estate and gift taxes increased \$22 million and miscellaneous taxes decreased \$36 million. Total receipts increased \$76 million.

This year's difference in outlays is higher than normal due to an adjustment of \$427 million relating to food stamp program outlays. Total outlays decreased \$532 million.

<sup>2</sup>Based on revised estimates of the 1975 Budget released May 30, 1975, in the Mid-Session review of the 1976 Budget.

<sup>3</sup>In accordance with the provisions of the Social Security Act, as amended "Individual income taxes withheld" have been increased and "Federal Insurance Contributions Act taxes" have been decreased in the amount of \$82,021,346 to correct estimates for quarter ended September 30, 1974, and prior. "Individual income taxes other" have been decreased and "Self Employment Contributions Act taxes" have been increased in the amount of \$158,170,243 to correct estimates for the calendar year 1973 and prior.

<sup>4</sup>Includes \$390,735,220 distribution to Federal Disability and Hospital Insurance Trust Funds.

<sup>5</sup>Represents reclassification of amount previously reported in the Budget report clearing account in the amount of approximately \$248 million.

<sup>6</sup>The activity formerly included in the Office of Economic Opportunity Program has been transferred to the Community Service Administration.

<sup>7</sup>Food stamp program outlays have been revised in this final statement to reflect an adjustment of -\$426,946,000 to the amounts reported in the preliminary June 1975 Statement.

<sup>8</sup>Amounts for "Rents and Royalties on the Outer Continental Shelf Lands" previously shown under proprietary receipts for the Interior Department are now being shown as undistributed offsetting receipts to conform with the 1976 Budget presentation.

<sup>9</sup>Pursuant to Treasury Department Order No. 229-1, as of March 17, 1974, all remaining current activity for the Office of the Treasurer was transferred to the Bureau of Government Financial Operations.

<sup>10</sup>Represents \$50 special payments made pursuant to Public Law 94-12.  
<sup>11</sup>Pursuant to Public Law 93-438, the activity for the Atomic Energy Commission other than nuclear regulatory and reactor safety research was transferred to the Energy Research and Development Administration.

<sup>12</sup>Excludes \$825 million of notes issued to the International Monetary Fund to conform with the Budget presentation.

<sup>13</sup>The June 30, 1974, balance shown under the former General Account of the U.S. Treasury is now presented in the following lines:

U.S. Treasury Operating Cash .....	\$9,159,226
Other cash monetary assets .....	1,034,230
Miscellaneous asset accounts .....	158,534

As of December 9, 1974, gold certificates have been issued to the Federal Reserve against all of the gold owned by the United States, and any disposition of gold hereafter will be the result of announced sales. The information will be published monthly in the Treasury Bulletin. Gold holdings, gold certificates and other liabilities, and gold balance are included in miscellaneous asset accounts.

The balance of \$6.7 billion represents the U.S. subscription of \$6.7 billion SDR's when SDR 1 = \$1.00. The balance of \$1.383 billion represents adjustments reported in May 1972 and October 1973 in the amounts of \$574,283,000 and \$808,251,000 respectively, for the Par Value Modification Act, as amended.

Includes the following currency valuation adjustments for fiscal year 1975; future adjustments will be reported monthly:

Note: Interfund receipts and outlays are transactions between Federal funds and trust funds, such as, Federal payments and contributions, Federal employer contributions, and interest and profits on investments in Federal securities. They have no net effect on overall budget receipts and outlays since the receipt side of such transactions is offset against budget outlays. In this table, interfund receipts are shown as an adjustment to arrive at total receipts and outlays of trust funds and Federal funds respectively. Included in total interfund receipts and outlays are \$6,205 million in federal funds transferred to trust funds for general revenue sharing.

Note: Interfund receipts and outlays are transactions between Federal funds and trust funds, such as, Federal payments and contributions, Federal employer contributions, and interest and profits on investments in Federal securities. They have no net effect on overall budget receipts and outlays since the receipt side of such transactions is offset against budget outlays. In this table, interfund receipts are shown as an adjustment to arrive at total receipts and outlays of trust funds and Federal funds respectively. Included in total interfund receipts and outlays are \$8,355 million in federal funds transferred to trust funds for general revenue sharing.

Note: Interfund receipts and outlays are transactions between Federal funds and trust funds, such as, Federal payments and contributions, Federal employer contributions, and interest and profits on investments in Federal securities. They have no net effect on overall budget receipts and outlays since the receipt side of such transactions is offset against budget outlays. In this table, interfund receipts are shown as an adjustment to arrive at total receipts and outlays of trust funds and Federal funds respectively. Included in total interfund receipts and outlays are \$6,355 million in federal funds transferred to trust funds for general revenue sharing.

They have no net effect on overall budget receipts and outlays since the receipt side of such transactions is offset against budget outlays. In this table, interfund receipts are shown as an adjustment to arrive at total receipts and outlays of trust funds and Federal funds respectively. Included in total interfund receipts and outlays are \$6,355 million in federal funds transferred to trust funds for general revenue sharing.

In this table, interfund receipts are shown as an adjustment to arrive at total receipts and outlays of trust funds and Federal funds respectively. Included in total interfund receipts and outlays are \$6,355 million in federal funds transferred to trust funds for general revenue sharing.

Note: Interfund receipts and outlays are transactions between Federal funds and trust funds, such as, Federal payments and contributions, Federal employer contributions, and interest and profits on investments in Federal securities. They have no net effect on overall budget receipts and outlays since the receipt side of such transactions is offset against budget outlays. In this table, interfund receipts are shown as an adjustment to arrive at total receipts and outlays of trust funds and Federal funds respectively. Included in total interfund receipts and outlays are \$6,355 million in federal funds transferred to trust funds for general revenue sharing, and \$10 million in federal funds transferred to the Harry S. Truman Memorial Scholarship Trust Revolving Fund.
