FOOTNOTES

<sup>1</sup> From the 1974 Budget Document, released January 29, 1973.

<sup>2</sup> Effective with the July 1972 issue the loan account/expenditure account distinction is eliminated and the transactions formerly presented in separate Sections A and B of Table III have been consolidated. Loan transactions previously disclosed separately in this statement will be published in the Treasury Bulletin. This change is in accord with the announcement by the Office of Management and Budget of the elimination of the loan account/expenditure account distinction in the annual budget presentation.

<sup>3</sup> Transactions cover the period July 1, 1972 through January 5, 1973 and are partially estimated.

<sup>4</sup> Includes suspense items for \$75 million in budget clearing account for Agriculture.

<sup>5</sup> Includes \$3.5 billion in receipts for rent and royalties on outer continental shelf lands.

<sup>6</sup> Includes adjustments to amounts previously reported.

<sup>7</sup> To adjust prior reporting of postal outlays and applicable receipts both of which erroneously included an amount of \$3,031,700,000.00 which represents investment transactions rather than outlays and applicable receipts.

<sup>8</sup> Pursuant to Public Law 92-126 dated August 17, 1971, receipts, expenditures and net lending for the Export-Import Bank of the United States were reclassified outside the unified budget totals. Amounts represent Export-Import Bank of the United States transactions through the close of business August 16, 1971. For transactions after August 16, 1971 classified outside the unified budget totals, see Table IV, Means of Financing.

\*Less than \$500.00.

Note: Intragovernmental receipts and outlays are transactions between Federal funds and trust funds, such as, Federal payments and contributions, Federal employer contributions, and interest and profits on investments in Federal securities. They have no net effect on overall budget receipts and outlays since the receipt side of such transactions is offset against budget outlays. In this table, intragovernmental receipts are shown as adjustment to arrive at total receipts and outlays of trust funds and Federal funds respectively. Included in total intragovernmental receipts and outlays are \$8,295 million in federal funds transferred to trust funds for general revenue sharing.

Included in total intragovernmental receipts and outlays are \$8,295 million in federal funds transferred to trust funds for general revenue sharing.

Note: Intragovernmental receipts and outlays are transactions between Federal funds and trust funds, such as, Federal payments and contributions, Federal employer contributions, and interest and profits on investments in Federal securities. They have no net effect on overall budget receipts and outlays since the receipt side of such transactions is offset against budget outlays. In this table, intragovernmental receipts are shown as adjustment to arrive at total receipts and outlays of trust funds and Federal funds respectively. Included in total intragovernmental receipts and outlays are \$8,295 million in federal funds transferred to trust funds for general revenue sharing.

Note: Intragovernmental receipts and outlays are transactions between Federal funds and trust funds, such as, Federal payments and contributions, Federal employer contributions, and interest and profits on investments in Federal securities. They have no net effect on overall budget receipts and outlays since the receipt side of such transactions is offset against budget outlays. In this table, intragovernmental receipts are shown as adjustment to arrive at total receipts and outlays of trust funds and Federal funds respectively. Included in total intragovernmental receipts and outlays are \$8,295 million in federal funds transferred to trust funds for general revenue sharing.

Note: Intragovernmental receipts and outlays are transactions between Federal funds and trust funds, such as, Federal payments and contributions, Federal employer contributions, and interest and profits on investments in Federal securities. They have no net effect on overall budget receipts and outlays since the receipt side of such transactions is offset against budget outlays. In this table, intragovernmental receipts are shown as an adjustment to arrive at total receipts and outlays of trust funds and Federal funds respectively. Included in total intragovernmental receipts and outlays are \$8,295 million in federal funds transferred to trust funds for general revenue sharing.

FOOTNOTES

Note: Throughout this statement, details may not add to totals because of rounding.

<sup>1</sup> This statement contains the final figures showing budget results for fiscal year ending June 30, 1973. These figures reflect a net change of \$111 million (decrease) in the deficit published in the preliminary statement. The differences between results as shown in this statement and the preliminary figures released in July result from giving effect to final transactions (including many overseas transactions) of Government disbursing, collecting and administrative agencies, which could not be reported in the preliminary statement.

The principal changes in receipts are increases in Corporation income taxes, \$57 million and Estate and gift taxes, \$19 million. Withheld individual taxes decreased \$15 million and Miscellaneous receipts decreased \$23 million. Total receipts increased \$34 million.

The principal changes in outlays are increases in (1) Health, Education, and Welfare Department \$90 million and (2) Postal Service, \$138 million, and decreases in (1) Agriculture Department, Foreign Assistance and Special Export Programs \$134 million, (2) Department of Agriculture, Other \$26 million, (3) Department of Defense \$30 million, (4) Federal Old-Age and Survivors Insurance Trust Fund \$52 million, and (5) Small Business Administration \$29 million. Total outlays decreased \$77 million.

<sup>2</sup> Based on revised estimates of the 1974 Budget, released June 1, 1973, in the Mid-Session Review and the statement of Secretary Shultz released June 4, 1973. The figures are rounded in tenths of billions of dollars and will not necessarily add to the totals.

<sup>3</sup> Effective with the July 1972 issue, the loan account/expenditure account distinction is eliminated and the transactions formerly presented in separate Sections A and B of Table III have been consolidated. Loan transactions previously disclosed separately in this statement will be published in the Treasury Bulletin. This change is in accord with the announcement by the Office of Management and Budget of the elimination of the loan account/expenditure account distinction in the annual budget presentation.

<sup>4</sup> In accordance with the provisions of the Social Security Act, as amended, "Individual income taxes withheld" have been increased and "Federal Insurance

Contributions Act taxes" have been decreased in the amount of \$396,771,705 to correct estimates for quarter ended September 30, 1972, and prior. "Individual income taxes other" have been increased and "Self-Employment Contributions Act Taxes" have been decreased in the amount of \$42,040,567 to correct estimates for the calendar year 1971 and prior.

<sup>5</sup> Includes \$432,618,055 distribution to Federal Disability and Hospital Insurance Trust Funds.

<sup>6</sup> Includes adjustments to amounts previously reported.

<sup>7</sup> Includes suspense item of \$88 million in budget clearing account for Agriculture.

<sup>8</sup> Pursuant to Public Law 93-32 dated May 11, 1973, most outlays of the Rural Electrification Administration including the Rural Telephone Bank were classified outside the unified budget totals. Transactions are included in budget outlays through the close of business May 11, 1973. For transactions after May 11, 1973, classified outside the unified budget totals, see Table IV, Schedule A. Administrative expenses financed by general fund appropriations will continue to be reflected in budget totals.

<sup>9</sup> Pursuant to Public Law 92-126 dated August 17, 1971, receipts and outlays for the Export-Import Bank of the United States were reclassified outside the unified budget totals. Amounts represent Export-Import Bank of the United States transactions through the close of business August 16, 1971. For transactions after August 16, 1971, classified outside the unified budget totals, see Table IV, Schedule A.

\*Less than \$500,000.

\*\*Less than \$500,000.00

Note: Effective with the June 30, 1973, Final Monthly Statement of Receipts and Outlays of the United States Government, the following changes in presentation should be noted:

Page 1. Table I - Totals of Budget Results and Financing, has been revised to include comparable data for prior periods.

Page 26-27. Table IV - Schedule B - Investments of Government Accounts has been revised to classify investments according to Federal Funds, Trust Funds and Off-Budget Federal agencies.

Note: Intragovernmental receipts and outlays are transactions between Federal funds and trust funds, such as, Federal payments and contributions, Federal employer contributions, and interest and profits on investments in Federal securities. They have no net effect on overall budget receipts and outlays since the receipt side of such transactions is offset against budget outlays. In this table, intragovernmental receipts are shown as an adjustment to arrive at total receipts and outlays of trust funds and Federal funds respectively. Included in total intragovernmental receipts and outlays are \$8,295 million in federal funds transferred to trust funds for general revenue sharing.

<sup>1</sup> Based on revised estimates of the 1974 Budget, released June 1, 1973, in the Mid-Session Review and the statement of Secretary Shultz released June 4, 1973. The figures are rounded in tenths of billions of dollars and will not necessarily add to the totals.

<sup>2</sup> Effective July 1, 1973 collections are now being made pursuant to Public Law 92-603, Section 202, Title II.

<sup>3</sup> Pursuant to Public Law 93-32 dated May 11, 1973, most outlays of the Rural Electrification Administration including the Rural Telephone Bank were classified outside the unified budget totals. Transactions are included in budget outlays through the close of business May 11, 1973. For transactions after May 11, 1973, classified outside the unified budget totals, see Table IV, Schedule A. Administrative expenses financed by general fund appropriations will continue to be reflected in budget totals.

For transactions after July 1, 1973, classified outside the unified budget totals, see Table IV, Schedule A. Payments to the postal service fund financed by general fund appropriations will continue to be reflected in budget totals.

<sup>6</sup> Includes opening balance adjustment of \$323,373,828.26 to convert interest receivable of certain government accounts on public debt issues from a cash to an accrual basis in order to be consistent with accrual reporting of public debt interest payable.

<sup>7</sup> Transactions cover the period July 1, 1973, through July 20, 1973, and are partially estimated.

\*Less than \$500.00.

Note: Intragovernmental receipts and outlays are transactions between Federal funds and trust funds, such as, Federal payments and contributions, Federal employer contributions, and interest and profits on investments in Federal securities. They have no net effect on overall budget receipts and outlays since the receipt side of such transactions is offset against budget outlays. In this table, intragovernmental receipts are shown as an adjustment to arrive at total receipts and outlays of trust funds and Federal funds respectively. Included in total intragovernmental receipts and outlays are \$6,055 million in federal funds transferred to trust funds for general revenue sharing.

Note: Intragovernmental receipts and outlays are transactions between Federal funds and trust funds, such as, Federal payments and contributions, Federal employer contributions, and interest and profits on investments in Federal securities. They have no net effect on overall budget receipts and outlays since the receipt side of such transactions is offset against budget outlays. In this table, intragovernmental receipts are shown as an adjustment to arrive at total receipts and outlays of trust funds and Federal funds respectively. Included in total intragovernmental receipts and outlays are \$6,055 million in federal funds transferred to trust funds for general revenue sharing.

## FOOTNOTES

Note: Throughout this statement, details may not add to totals because of rounding.

<sup>1</sup>Based on revised estimates of the 1974 Budget, released June 1, 1973, in the Mid-Session Review and the statement of Secretary Shultz released June 4, 1973. The figures are rounded in tenths of billions of dollars and will not necessarily add to the totals. On October 18, 1973, Secretary Shultz announced that the budget would be in balance for FY 1974. Receipts and Outlays are now estimated at \$270 billion.

<sup>2</sup>Includes \$435,859,158 distribution to Federal Disability and Hospital Insurance.

<sup>3</sup>Effective July 1, 1973 collections are now being made pursuant to Public Law 92-604, Section 202, Title II.

<sup>4</sup>Pursuant to Public Law 93-32 dated May 11, 1973, most outlays of the Rural Electrification Administration including the Rural Telephone Bank were classified outside the unified budget totals. Transactions are included in budget outlays through the close of business May 11, 1973. For transactions after May 11, 1973, classified outside the unified budget totals, see Table IV, Schedule A. Administrative expenses financed by general fund appropriations will continue to be reflected in budget totals.

<sup>5</sup>Includes agency adjustment of \$160,050,000.00 to amounts erroneously reported in August, 1973. The correct reporting for August should have been outlays \$6,907 thousand and applicable receipts \$68,101 thousand. The net outlays of -\$61,194 thousand were correctly stated. September outlays excluding the adjustment for August are \$1,135 thousand and applicable receipts \$1,696 thousand.

<sup>6</sup>In accordance with the Postal Reorganization Act dated August 12, 1970, starting with 1974 operations, the Postal Service will be excluded from the U.S. budget. For transactions after July 1, 1973, classified outside the unified budget totals, see Table IV, Schedule A. Payments to

the postal service fund financed by general fund appropriations will continue to be reflected in budget totals.

<sup>7</sup>Includes opening balance adjustment of \$323,373,828.26 to convert interest receivable of certain government accounts on public debt issues from a cash to an accrual basis in order to be consistent with accrual reporting of public debt interest payable.

<sup>8</sup>Transactions cover the period July 1, 1973, through September 14, 1973 and are partially estimated.

Note: Effective with the July 31, 1973, Monthly Statement of Receipts and Outlays of the United States Government, the following changes in the presentation should be noted:

- Page 1. Table I - Total of Budget Results and Financing has been revised to include comparable data for prior periods.
- Page 23. Table III - a new line has been included under the heading of Interest on certain Government accounts for the Adjustment of Interest on Public Debt issues to Convert to the Accrual Basis.
- Page 24. Table IV - Means of Financing has been revised to include Accrued Interest Receivable on Public Debt Securities Held as Investments of Government Accounts.
- Page 26-27. Table IV - Schedule B - Investments of Government Accounts has been revised to classify investments according to Federal Funds, Trust Funds and Off-Budget Federal agencies.

Note: Intragovernmental receipts and outlays are transactions between Federal funds and trust funds, such as, Federal payments and contributions, Federal employer contributions, and interest and profits on investments in Federal securities. They have no net effect on overall budget receipts and outlays since the receipt side of such transactions is offset against budget outlays. In this table, intragovernmental receipts are shown as an adjustment to arrive at total receipts and outlays of trust funds and Federal funds respectively. Included in total intragovernmental receipts and outlays are \$6,055 million in federal funds transferred to trust funds for general revenue sharing.

Note: Intragovernmental receipts and outlays are transactions between Federal funds and trust funds, such as, Federal payments and contributions, Federal employer contributions, and interest and profits on investments in Federal securities. They have no net effect on overall budget receipts and outlays since the receipt side of such transactions is offset against budget outlays. In this table, intragovernmental receipts are shown as an adjustment to arrive at total receipts and outlays of trust funds and Federal funds respectively. Included in total intragovernmental receipts and outlays are \$8,055 million in federal funds transferred to trust funds for general revenue sharing.

Note: Intragovernmental receipts and outlays are transactions between Federal funds and trust funds, such as, Federal payments and contributions, Federal employer contributions, and interest and profits on investments in Federal securities. They have no net effect on overall budget receipts and outlays since the receipt side of such transactions is offset against budget outlays. In this table, intragovernmental receipts are shown as an adjustment to arrive at total receipts and outlays of trust funds and Federal funds respectively. Included in total intragovernmental receipts and outlays are \$6,055 million in federal funds transferred to trust funds for general revenue sharing.

Note: Intragovernmental receipts and outlays are transactions between Federal funds and trust funds, such as, Federal payments and contributions, Federal employer contributions, and interest and profits on investments in Federal securities. They have no net effect on overall budget receipts and outlays since the receipt side of such transactions is offset against budget outlays. In this table, intragovernmental receipts are shown as an adjustment to arrive at total receipts and outlays of trust funds and Federal funds respectively. Included in total intragovernmental receipts and outlays are \$6,055 million in federal funds transferred to trust funds for general revenue sharing.

Note: Intragovernmental receipts and outlays are transactions between Federal funds and trust funds, such as, Federal payments and contributions, Federal employer contributions, and interest and profits on investments in Federal securities. They have no net effect on overall budget receipts and outlays since the receipt side of such transactions is offset against budget outlays. In this table, intragovernmental receipts are shown as an adjustment to arrive at total receipts and outlays of trust funds and Federal funds respectively. Included in total intragovernmental receipts and outlays are \$6,055 million in federal funds transferred to trust funds for general revenue sharing.

Note: Interfund receipts and outlays are transactions between Federal funds and trust funds, such as, Federal payments and contributions, Federal employer contributions, and interest and profits on investments in Federal securities. They have no net effect on overall budget receipts and outlays since the receipt side of such transactions is offset against budget outlays. In this table, interfund receipts are shown as an adjustment to arrive at total receipts and outlays of trust funds and Federal funds respectively. Included in total interfund receipts and outlays are \$6,055 million in federal funds transferred to trust funds for general revenue sharing.

Note: Interfund receipts and outlays are transactions between Federal funds and trust funds, such as, Federal payments and contributions, Federal employer contributions, and interest and profits on investments in Federal securities. They have no net effect on overall budget receipts and outlays since the receipt side of such transactions is offset against budget outlays. In this table, interfund receipts are shown as an adjustment to arrive at total receipts and outlays of trust funds and Federal funds respectively. Included in total interfund receipts and outlays are \$6,055 million in federal funds transferred to trust funds for general revenue sharing.

Note: Interfund receipts and outlays are transactions between Federal funds and trust funds, such as, Federal payments and contributions, Federal employer contributions, and interest and profits on investments in Federal securities. They have no net effect on overall budget receipts and outlays since the receipt side of such transactions is offset against budget outlays. In this table, interfund receipts are shown as an adjustment to arrive at total receipts and outlays of trust funds and Federal funds respectively. Included in total interfund receipts and outlays are \$8,055 million in federal funds transferred to trust funds for general revenue sharing.
